**Nile into Tiber: Egypt in the Roman World** Laurent Bricault, Miguel John Versluys, Paul G.P. Meyboom, 2006-12-01 Interest in all kinds of interactions between Egypt and Rome has grown considerably over the last decade This debate has not only altered our views on the impact of Rome on Alexandria and Egypt but also strongly put to the fore the reverse direction of this cultural interaction Egyptian influences on the Roman world It is this topic Egypt in the Roman World that was central to the IIIrd International Conference of Isis Studies held in Leiden in May 2005 This book a selection of the papers delivered at the conference gives a clear overview of the debate as it has developed in recent years In two parts I Interpretations of the meaning of Aegyptiaca Romana and II Understanding the cults of Isis in their local context preceded by a general introduction it offers a broad perspective on the various aspects of cultural interaction between Egypt and Rome also by bringing together different research traditions in this field *A Companion to Ancient Egyptian Art* Melinda K.

Hartwig, 2014-12-23 *A Companion to Ancient Egyptian Art* presents a comprehensive collection of original essays exploring key concepts critical discourses and theories that shape the discipline of ancient Egyptian art Winner of the 2016 PROSE Award for Single Volume Reference in the Humanities Social Sciences Features contributions from top scholars in their respective fields of expertise relating to ancient Egyptian art Provides overviews of past and present scholarship and suggests new avenues to stimulate debate and allow for critical readings of individual art works Explores themes and topics such as methodological approaches transmission of Egyptian art and its connections with other cultures ancient reception technology and interpretation Provides a comprehensive synthesis on a discipline that has diversified to the extent that it now incorporates subjects ranging from gender theory to X ray fluorescence and image based interpretations systems

*Beyond Egyptomania* Miguel John Versluys, 2020-06-08 The material and intellectual presence of Egypt is at the heart of Western culture religion and art from Antiquity to the present This volume aims to provide a long term and interdisciplinary perspective on Egypt and its mnemohistory taking theories on objects and their agency as its main point of departure The central questions the book addresses are why from the first millennium BC onwards things and concepts Egyptian are to be found in such a great variety of places throughout European history and how we can account for their enduring impact over time By taking a radically object oriented perspective on this question this book is also a major contribution to current debates on the agency of artefacts across archaeology anthropology and art history *Antiquity in Print* Daniel Orrells, 2024-05-16 Daniel Orrells examines the ways in which the ancient world was visualized for Enlightenment readers and reveals how antiquarian scholarship emerged as the principal technology for envisioning ancient Greek culture at a time when very few people could travel to Greece which was still part of the Ottoman Empire Offering a fresh account of the rise of antiquarianism in the 18th century Orrells shows how this period of cultural progression was important for the invention of classical studies In particular the main focus of this book is on the visionary experimentalism of antiquarian book production

especially in relation to the contentious nature of ancient texts With the explosion of the Quarrel between the Ancients and the Moderns eighteenth century intellectuals antiquarians and artists such as Giambattista Vico Johann Joachim Winckelmann the Comte de Caylus James Stuart Julien David Leroy Giovanni Battista Piranesi and Pierre Fran ois Hugues d Hancarville all became interested in how printed engravings of ancient art and archaeology could visualize a historical narrative These figures theorized the relationship between ancient text and ancient material and visual culture theorizations which would pave the way to foundational questions at the heart of the discipline of classical studies and neoclassical aesthetics

**Giacomo Meyerbeer and Music Drama in Nineteenth-Century Paris** Mark Everist, 2023-04-28 Nineteenth century Paris attracted foreign musicians like a magnet The city boasted a range of theatres and of genres represented there a wealth of libretti and source material for them vocal orchestral and choral resources to say nothing of the set designs scenery and costumes All this contributed to an artistic environment that had musicians from Italian and German speaking states beating a path to the doors of the Acad mie Royale de Musique Op ra Comique Th tre Italien Th tre Royal de l Od on and Th tre de la Renaissance This book both tracks specific aspects of this culture and examines stage music in Paris through the lens of one of its most important figures Giacomo Meyerbeer The early part of the book which is organised chronologically examines the institutional background to music drama in Paris in the nineteenth century and introduces two of Meyerbeer s Italian operas that were of importance for his career in Paris Meyerbeer s acculturation to Parisian theatrical mores is then examined

especially his moves from the Od on and Op ra Comique to the opera house where he eventually made his greatest impact the Acad mie Royale de Musique the shift from Op ra Comique is then counterpointed by an examination of how an indigenous Parisian composer Fromental Hal vy made exactly the same leap at more or less the same time The book continues with the fates of other composers in Paris Weber Donizetti Bellini and Wagner but concludes with the final Parisian successes that Meyerbeer lived to see his two op ras comiques

**Staging the French Revolution** Mark Darlow,2012-05-31 In Staging the French Revolution author Mark Darlow offers an unprecedented opportunity to consider the material context of opera production combining in depth archival research with a study of the works themselves He argues that a mixture of popular and State interventions created a repressive system in which cultural institutions retained agency compelling individuals to follow and contribute to a shifting culture Theatre thereby emerged as a locus for competing discourses on patriotism society the role of the arts in the Republic and the articulation of the Revolution s relation with the Old Regime and is thus an essential key to the understanding of public opinion and publicity at this crucial historical moment [Nile Into Tiber](#)

**Today** Jean-Marcel Humbert,2016-06-16 This book presents and analyses the results of the use and adaptation of ancient Egyptian architecture in modern times It traces the use of ancient Egyptian motifs and constructions across the world from Australia the Americas and Southern Africa to Western Europe It also inquires into the cultural economic and social contexts of this practice Imhotep Today is exceptional not only in its global coverage but in its analyses of thorny questions such as what was it about Ancient Egypt that inspired such Egyptianizing monuments and was it just one idea or several different ones which formed the basis of such activities The book also asks why only certain images such as obelisks and sphinxes were incorporated within the movement The contributors explore how these monuments fitted into the local architecture of the time and in this context they investigate whether Egyptianizing architecture is an ongoing movement and if so how it differs from earlier similar activities

**Symbolism, Its Origins and Its Consequences** Rosina Neginsky,2010-08-11 The notion of the symbol is at the root of the Symbolist movement but this symbol is different from the way it was used and understood in the Middle Ages and Renaissance In the Symbolist movement a symbol is not an allegory The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24 1887 in L Art moderne He wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage instead of going from the abstract to the concrete Venus incarnated in the statue represents love it goes from the concrete to the abstract

from what is seen heard felt tasted and sensed to the evocation of the idea This volume attempts to give a glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the evolution of art and literature of the twentieth century It records the studies of a group of scholars who met and discussed these topics together for the first time in 2009 While illuminating the specificity of Symbolism in art architecture and literature in different European countries these articles also demonstrate the crucial role of French Symbolism in the development of the international Symbolist movement The authors hope that an expanding group a society of Art Literature and Music in Symbolism and Decadence ALMSD born out of the first meeting will continue to further this discussion at future conferences and in the printed conference proceedings

**Ancient Greek Women in Film** Konstantinos P. Nikoloutsos, 2013-10 This volume examines cinematic representations of ancient Greek women from the realms of myth and history It discusses how these female figures are resurrected on the big screen by different filmmakers during different historical moments and are therefore embedded within a narrative which serves various purposes depending on the director of the film its screenwriters the studio the country of its origin and the sociopolitical context at the time of its production Using a diverse array of hermeneutic approaches such as gender theory feminist criticism psychoanalysis viewer response theory and personal voice criticism the essays aim to cast light on cinema's investments in the classical past and decode the mechanisms whereby the women under examination are extracted from their original context and are brought to life to serve as vehicles for the articulation of modern ideas concerns and cultural trends The volume thus aims to investigate not only how antiquity on the screen depicts and in this process distorts compresses contests and revises antiquity on the page but also more crucially why the medium follows such eclectic representational strategies vis vis the classical world

**The Smells and Senses of Antiquity in the Modern Imagination** Adeline Grand-Clément, Charlotte Ribeyrol, 2021-12-16 This volume tackles the role of smell under explored in relation to the other senses in the modern rejection reappraisal and idealisation of antiquity Among the senses olfaction in particular has often been overlooked in classical reception studies due to its evanescent nature which makes this sense difficult to apprehend in its past instantiations And yet the smells associated with a given figure or social group convey a rich imagery which in turn connotes specific values perfumes scents and foul odours both reflect and mould the ways in which a society thinks or acts Smells also help to distinguish between male and female citizens and strangers and play an important role during rituals The Smells and Senses of Antiquity in the Modern Imagination focuses on the representation of

ancient smells both enticing and repugnant in the visual and performative arts from the late 18th century up to the 21st century The individual contributions explore painting sculpture literature and film but also theatrical performance museum exhibitions advertising television series historical reenactment and graphic novels which have all played a part in reshaping modern audiences perceptions and experiences of the antique **Muqarnas** Gülru Necipoğlu,1997-08-01

Stelae (Dynasty XVIII to the Roman Period) 803-044-050 to 803-099-990** Bertha Porter,1999 *Observations on the Letter of Monsieur Mariette* Giovanni Battista Piranesi,2002 An impassioned plea for a Roman Style eclecticism that draws freely on all artistic forms and traditions Piranesi s Observations anticipates the contemporary debate between devotees of a rational minimal architecture and advocates of an architecture rich in ornament and historical references **BOOK JACKET** French Orientalism Desmond Hosford,Chong J. Wojtkowski,2010-07-12 In 1798 Napol on I launched his Egyptian Campaign and opened what has become recognized as the canonic period of French Orientalism which extends from the late eighteenth through the early twentieth century As defined by Edward W Said Orientalism 1978 Orientalism is intrinsically Eurocentric and places the Orient in opposition to the European West as the quintessentially foreign Other In this sense the Occident supposedly defines itself by gazing at the East as its inverse image and purportedly asserts a geopolitical dominance materially confirmed through imperialism and colonization Although Europe may cast the Orient as the archetypal Other this necessarily entails deep conflict since the Orient is also frequently posited as the source of Western civilization which prohibits the articulation of a complete separation between Europe and the Orient Nevertheless according to French Orientalist discourse the East had fallen into barbarism inertia and languished awaiting the mission civilisatrice by which France undertook a heroic project of universal enlightenment The canonic approach to Orientalism has drawn much criticism which calls for re examining the notion of French Orientalism broadening the scope of enquiry and exploring the history and ideological strategies behind French formulations of the Orient from the Middle Ages through the twenty first century Such an expanded field of investigation reveals that the canonic Orientalist paradigm is not universally applicable particularly regarding material from before the late eighteenth century New theoretical literary historical philosophical and cultural perspectives provide the opportunity to deploy question subvert and resituate canonic Orientalist theories revealing the continuing evolution and relevance of French Orientalism as a notion with global stakes and material consequences Because of its broad scope and variety of theoretical approaches this volume will interest scholars and students from a wide spectrum of disciplines including literature gender studies history theater art history music cinema and cultural studies Topographical Bibliography of Ancient Egyptian Hieroglyphic Texts, Reliefs, and Paintings ...: Objects of Provenance Not Known - Pt. 1.
