Implementing Codes of Conduct Ivanka Mamic,2017-09-08 At the start of the 21st century manufacturing is in the midst of a major transformation with goods moving from factories in S o Paulo Ho Chi Minh and Guanzhou to the shelves of stores in New York Hamburg and Sydney As production of goods has become increasingly global with an impact on workers and societies around the world the ILO has sought to answer the challenging question how best to implement voluntary corporate initiatives in value chains that stretch around the globe from a constantly changing supply base of factories both large and small In order to address growing pressures from stakeholders a number of global companies have adopted codes of conduct with the aim of influencing the practices of their suppliers in less developed countries and providing a baseline of expected standards Typically codes of conduct draw on international labour standards setting guidelines on a range of issues including child labour forced labour wages and benefits working hours disciplinary practices the right to freedom of association health and safety and environmental practices Notwithstanding the array of initiatives that has emerged anecdotal evidence

suggests that in many cases managers both at the company and supplier level have struggled and continue to struggle with the issue of how to implement their codes of conduct Based on interviews with hundreds of managers activists government officials factory workers and workers representatives Implementing Codes of Conduct represents the most extensive research conducted to date into the emerging nature of corporate social responsibility and global supply chains Its objective is to provide useful examples and lessons learned to companies policy makers and others interested in implementing their own code of conduct or who are actively involved in this field This book has broad implications for firms that are serious about seeing the social and environmental objectives expressed in their corporate codes become a reality at the supplier level implications that stretch from the boardroom to the factory floor The book presents a model that maps a route from the creation of a vision to its implementation at the operational level Based on research conducted in the sports footwear apparel and retail sectors this book provides a detailed account of the approaches currently used by leading brands and retailers and practical suggestions for other companies to follow in addressing social pressures Given an increasingly clear link between corporate social responsibility and profits this book serves as an invaluable tool in assisting those interested in balancing the complex demands of society and competitive concerns *Today's Facility Manager* ,2005 *Making the Business Case for EHS Programs* ,

Regulation of Labor Standards in Global Supply Chains Sarosh Kuruvilla,2021-04-15 Private Regulation of Labor Standards in Global Supply Chains examines the effectiveness of corporate social responsibility on improving labor standards in global supply chains Sarosh Kuruvilla charts the development and effectiveness of corporate codes of conduct to ameliorate sweatshop conditions in global supply chains This form of private voluntary regulation spearheaded by Nike and Reebok became necessary given the inability of third world countries to enforce their own laws and the absence of a global regulatory system for labor standards Although private regulation programs have been adopted by other companies in many

different industries we know relatively little regarding the effectiveness of these programs because companies don't disclose information about their efforts and outcomes in regulating labor conditions in their supply chains Private Regulation of Labor Standards in Global Supply Chains presents data from companies multi stakeholder institutions and auditing firms in a comprehensive investigative dive into the world of private voluntary regulation of labor conditions The picture he paints is wholistic and raw but it considers several ways in which this private voluntary system can be improved to improve the lives of workers in global supply chains

Halting Biodiversity Loss Great Britain. Parliament. House of Commons. Environmental Audit Committee,2008 This is the thirteenth report from the Environmental Audit Committee of the 2007 08 session HCP 743 ISBN 9780215524843 The Committee states that the Government will fail to meet the 2010 target to halt biodiversity loss although the target might have been unrealistic The Committee does see some progress with 80% of Sites of Special Scientific Interest SSIs in a favourable condition with a number of rare species having recovered In general though biodiversity loss continues in the wider countryside with many species and habitats facing severe declines and local extinctions The Committee does believe though that with leadership and effective policies biodiversity loss could in fact be reversed and states the Government should adopt a new target to halt the loss Biodiversity policies need to be cross departmental and the Government s

ecosystem assessment is a way forward by encouraging such an approach and promoting biodiversity protection at the regional and local scales The Committee further states that the Government could make a large contribution in preventing biodiversity loss through more support for the UK Overseas Territories
