**Serve and Learn** Florence Fay Pritchard, George I. Whitehead, III, 2004-07-22 This volume makes two important contributions First it provides a framework grounded in theory and best professional practice that middle and high school teachers their students and community partners can use to design implement and evaluate service learning projects that address authentic community needs Second it demonstrates ways

collaborative service learning can enhance students intellectual development promote their academic achievement strengthen their citizenship skills and accelerate the kinds of educational accountability and reform initiatives emphasized in the national educational standards movement and the 2002 No Child Left Behind Act Serve and Learn Implementing and Evaluating Service Learning in Middle and High Schools provides what may be the only comprehensive guide to implementing assessing and celebrating service learning in today s middle and high schools emphasizes and explicates a collaborative approach to service learning in which teachers students and community partners team together to advance learning and meet genuine community needs demonstrates how service learning teams use key elements of standards based education multiple intelligences theory and cooperative learning to guide project development implementation assessment and evaluation offers optional designs for service learning projects that are suitable for use by interns and beginning teachers as well as by experienced and master teachers and that can be used in a developmental sequence by school and community partners to build from small individual projects toward school system and community wide projects and includes end of chapter activities that help those who use the book as a text to practice the model and its strategies and use results to create their own service learning projects The book is organized in three parts that present service learning along a theoretical to practical continuum Part I lays the foundations for the method by proposing a collaborative model for service learning Part II explicates this model and explains the four sets of processes that teams use to commit to a project cooperatively determine students project outcomes and ways to measure them develop learning activities to help students achieve outcomes and then evaluate their projects and celebrate growth Part III provides resources for carrying out the collaborative model A wide range of educators will find this book useful Its distinctive contributions and features are particularly valuable for teacher educators students and community partners already committed to service learning projects to those who are introducing service learning into their practice and to instructional supervisors school administrators and community agencies seeking to create a climate for service learning or to enrich initiatives already underway MI

*Strategies in the Classroom and Beyond* Ellen Weber,2005 This book will help teachers develop and use Multiple Intelligences strategies Material is presented in a practical five step approach to engage students strengths for deeper understanding in vibrant classroom communities This book will be of interest to any middle secondary or higher education faculty who wish to foster brain compatible curriculums and learning The book is well written The content is accurate and provides information that is useful to both classroom teachers and pre service teachers I would definitely use this book as a required text in my class This is the first book that I can say that about Dr Michelle Scribner MacLean University of Massachusetts Lowell Weber effectively integrates her personal teaching and learning experiences throughout the text This integration provides authenticity and practicality to her work Her work on multiple intelligences goes beyond the work of similar types of books Dianne V Marie University of Phoenix Teachers will find this both provocative and useful The author

gives many concrete and useful ideas while at the same time extending our vision and thinking Tom Hoerr New City School I certainly will use this text in my theory course and I plan to incorporate some of the suggestions and activities into my own teaching Rick Gay Davidson College The concrete lesson plan and activity ideas are very creative and exciting and can stimulate much more thought Elizabeth Aaronsohn Central Connecticut State University [Brain-Compatible Learning for the Block](#) R.
