**Ein Flugzeug über dem Haus** Martin Walser, 1955      **After the Nazis** Michael H. Kater, 2023-01-01 A wide ranging insightful history of culture in West Germany from literature film and music to theater and the visual arts After World War II a mood of despair and impotence pervaded the arts in West Germany The culture and institutions of the Third Reich were abruptly dismissed yet there was no immediate return to the Weimar period s progressive ideals In this moment of cultural stasis how could West Germany s artists free themselves from their experiences of Nazism Moving from 1945 to reunification Michael H Kater explores West German culture as it emerged from the darkness of the Third Reich Examining periods of denial and complacency as well as attempts to reckon with the past he shows how all postwar culture was touched by the vestiges of National Socialism From the literature of G nter Grass to the happenings of Joseph Beuys and Karlheinz Stockhausen s innovations in electronic music Kater shows how it was only through the reinvigoration of the cultural scene that West Germany could contend with its past and eventually allow democracy to reemerge      *The German Novel and the Affluent Society* Richard Hinton Thomas, Wilfried van der Will, 1968      **Seelenarbeit an Deutschland** , 2016-08-09 The last decade has undoubtedly been the most controversial in the long literary career of Martin Walser This volume presents a review of this career going far beyond short lived arguments to present an insightful overview of much of his work It considers not only major aspects of his writing covering both his literary beginnings and the most recent works but also different previously neglected features of his persona and his writing namely his activity as a university teacher and his art criticism In addition fruitful comparisons are made with other writers such as Proust Grass and Uwe Johnson At the same time recent controversies are also considered with major attention being paid to Walser s public speeches and those works of fiction which have been seen by some as demanding the end of German self recriminations over the Nazi past This volume is unique in that much space is devoted to both sides of the argument It will provide stimulating reading to all those interested in Germany and German literature      **Victims and Perpetrators: 1933-1945** Laurel Cohen-Pfister, Dagmar Wienroeder-Skinner, 2012-03-12 This volume examines the politics of history and memory in Germany today through a review and analysis of seminal developments in the current discourse on 1933 1945 An interdisciplinary work this book examines questions of representing the past from the perspective of literary studies social psychology film studies history and cultural studies Themes include transgenerational memory and remembrance the air war and German literature commemoration and silences transnational reconciliation and historical consciousness in the German present The collected essays make clear that as the current discourse contributes toward an historically informed differentiated understanding of individuals roles in the Third Reich and World War Two victim and perpetrator identities cannot be defined as exclusive from one another The discourse emphasizes personal over collective experience and answers questions of responsibility and guilt on the individual level      *Fiction in French - Fiction in Soviet* British Library, 2013-02-07 No detailed description available for Fiction in
