Core Concepts in Classical Psychoanalysis Morris N. Eagle, 2017-11-14 In *Core Concepts in Classical Psychoanalysis* alongside its companion piece *Core Concepts in Contemporary Psychoanalysis* Morris N Eagle asks of the core concepts and formulations of psychoanalytic theory which ones should be retained which should be modified and in what ways and which should be discarded The key concepts and issues explored in this book include Unconscious processes and research on them what evidence is there for a dynamic unconscious Is there a universal Oedipus complex The importance of inner conflict The concept of defense Unlike other previous discussions of these concepts this book systematically evaluates them in the light of conceptual critique as well as recent research based evidence and empirical data Written with Eagle's piercing clarity of voice *Core Concepts in Classical Psychoanalysis* challenges previously unquestioned psychoanalytic assumptions and will appeal to psychoanalysts psychoanalytic psychotherapists and anyone interested in integrating core psychoanalytic concepts research and theory with other disciplines including psychiatry psychology and social work

Couple Stories Aleksandra Novakovic, Marguerite Reid, 2018-03-15 This book presents the application of key psychoanalytic concepts in thinking about the dynamics in the couple relationship The contributions to the first part mainly theory discuss how different psychoanalytic ideas can be used in conceptualizing the nature of couple interaction In the second part on clinical practice four couples tell their stories during their clinical sessions *Couple Stories* conveys a lively experience of the couple's relationships as these occur in the consulting room and there are several commentaries for each couple story Commentaries explore the concepts described in the earlier part of the book as well as clinical themes that couples bring to their sessions and the difficulties that they have encountered in the course of their relationship

Commentaries also provide an insight into how psychoanalytic couple therapists think about the clinical material what they might select as a focus and how they may go about developing a hypothesis about the nature of the relationship between the partners

Marxism and Human Nature Sean Sayers, **Time, Space and Phantasy** Rosine Jozef Perelberg, 2013-12-16

Time Space and Phantasy examines the connections between time space phantasy and sexuality in clinical practice It explores the subtleties of the encounter between patient and analyst addressing how aspects of the patient's unconscious past are actualised in the present producing new meanings that can be re translated to the past Perelberg's analysis of Freud's Multi dimensional model of temporality suggests that he always viewed the constitution of the individual as non linear In Freud's formulations the individual is decentred and ruled by different temporalities most of which escape their consciousness Perelberg identifies the similarities between this and Einstein's theory of relativity which states that rather than being absolute time depends on the relative position and speed of the observing individual suggesting that rather than being a reality time is an abstraction connecting objects and events Throughout this text Perelberg draws together connections between time mental space and phantasy showing how time is constantly reshaped in the light of new events and experiences This book will be of interest to psychoanalysts psychotherapists psychologists and social workers

Psychoanalytic Understanding of Violence and Suicide Rosine Jozef Perelberg, 2005-10-18
