Epic Voice:

Unsung Voices Carolyn Abbate, 1996-04-01 Who speaks to us in The Sorcerer's Apprentice in Wagner's operas in a Mahler symphony In asking this question Carolyn Abbate opens nineteenth century operas and instrumental works to new interpretations as she explores the voices projected by music The nineteenth century metaphor of music that sings is thus reanimated in a new context and Abbate proposes interpretive strategies that de-center music criticism that seek the polyphony and dialogism of music and that celebrate musical gestures often marginalized by conventional music analysis

Epic and History David Konstan, Kurt A. Raaflaub, 2009-10-27 With contributions from leading scholars this is a unique cross cultural comparison of historical epics across a wide range of cultures and time periods which presents crucial insights into how history is treated in narrative poetry The first book to gain new insights into the topic of epic and history through in depth cross cultural comparisons Covers epic traditions across the globe and across a wide range of time periods Brings together leading specialists in the field and is edited by two internationally regarded scholars An important reference for scholars and students interested in history and literature across a broad range of disciplines **Barbarous Dissonance and Images of Voice in Milton's Epics** Elizabeth Sauer, 1996 Sauer English Brock U examines the relative status and authority of the multiple narrative voices in Milton's Paradise Lost and Paradise Regained and argues that his epics accommodate a variety of interpretive voices episodes and dramatic and discursive exchanges that resist the monological containment of the poems dominant narratives She investigates the texts discursive practices and the politics of their orchestration of voice showing how the poems spoke to their own time and how they might speak to ours Annotation copyrighted by Book News Inc Portland OR **Voice and Voices in Antiquity** Niall Slater, 2016-10-18 Voice and Voices in Antiquity draws together 18 studies of the changing concept of voice and voices in the oral traditions and subsequent literate genres of the ancient world Ranging from the poet's voice to those of characters as well as historically embodied communities and from the interface between the Greek and Near Eastern worlds to the western reaches of the Roman Empire the scholars assembled here offer a methodologically rich and diverse series of approaches to locating the power of voice as both poetic construct and communal memory The results not only enrich our understanding of the strategies of epic lyric and dramatic voices but also illuminate the rhetorical claims given voice by historians orators philosophers and novelists in the ancient world *Milton's Languages* John K. Hale, 1997-08-28 Milton's poetry is one of the glories of the English language and yet it owes everything to Milton's widespread knowledge of other languages he knew ten wrote in four and translated from five In Milton's Languages John K Hale first examines Milton's language related arts in verse composition translations annotations of Greek poets Latin prose and political polemic giving all relevant texts in the original and in translation Hale then traces the impact of Milton's multilingualism on his major English poems Many vexed questions of Milton studies are illuminated by this approach including his sense of vocation his attitude to print and publicity the

supposed blemish of Latinism in his poetry and his response to his literary predecessors Throughout this full length study of Milton s use of languages Hale argues convincingly that it is only by understanding Milton s choice among languages that we can grasp where Milton s own unique English originated

Shipwreck in Art and Literature Carl Thompson,2014-05-09 Tales of shipwreck have always fascinated audiences and as a result there is a rich literature of suffering at sea and an equally rich tradition of visual art depicting this theme Exploring the shifting semiotics and symbolism of shipwreck the interdisciplinary essays in this volume provide a history of a major literary and artistic motif as they consider how depictions have varied over time and across genres and cultures Simultaneously they explore the imaginative potential of shipwreck as they consider the many meanings that have historically attached to maritime disaster and suffering at sea Spanning both popular and high culture and addressing a range of political spiritual aesthetic and environmental concerns this cross cultural comparative study sheds new light on changing attitudes to the sea especially in the West In particular it foregrounds the role played by the maritime in the emergence of Western modernity and so will appeal not only to those interested in literature and art but also to scholars in history geography international relations and postcolonial studies

Milton and the Climates of Reading Balachandra Rajan,2006-12-15 Scholarly criticism of John Milton s writings has in recent decades been distinguished by a methodological prudence that separates it from other forms of literary scholarship One critic however stands apart from his colleagues and has consistently offered a corrective to this prudence Balachandra Rajan In Milton and the Climates of Reading Elizabeth Sauer undertakes the daunting work of bringing together a selection of Rajan s essays on Milton some hitherto unpublished in order to chart trends and changes in Milton scholarship over the last sixty years and to consider future directions in this vital field of inquiry This collection which is framed by Sauer s insightful introduction and an eloquent afterword by Joseph Wittreich demonstrates Rajan s critical range and his ability to adapt to new ideas always reformulating them in his own characteristic and individual manner Milton and the Climates of Reading offers timely statements about the ways in which Milton s writings not only addressed their own time but also speak profoundly and powerfully to ours

Women Re-Creating Classics Emily Hauser,Helena Taylor,2025-06-12 In the last few years there has been a major and unmissable surge in women s retellings and re creations of ancient myths and texts that has put women s re creations of Classics centre stage Drawing together an interdisciplinary range of creative and scholarly voices this volume asks why classical creative retellings by women are so popular now and considers what creativity can do to foster new ways of thinking and writing about Classics thus blurring the boundary between the creative and the critical Contributors engage with debates on how to make Classics more accessible through the medium of creative works so that it is not just a discipline for the select few This second volume

in a two volume set brings together original creative work by some of the many women writers who are pushing forward changes in the landscape of re creating Classics from Madeline Miller to Jennifer Saint Emily Hauser Caroline Lawrence Roz Kaveney Nikita Gill Fiona Benson Anne Carson and many more These are set alongside discussions and interviews between writers and academics roundtable conversations among poets and critics and reflections on creative and inclusive pedagogy thus offering a cutting edge collaboration between practitioners and researchers and underlining the centrality of women s re creations of Classics to the contemporary shaping of the field

Roman Drama and its Contexts Stavros Frangoulidis, Stephen J. Harrison, Gesine Manuwald, 2016-03-21 Roman plays have been well studied individually even including fragmentary or spurious ones more recently However they have not always been placed into their context though plays just like items in other literary genres benefit from being seen in context This edited collection aims to address this issue it includes 33 contributions by an international team of scholars discussing single plays or Roman dramatic genres including comedy tragedy and praetexta from both the Republican and imperial periods in contexts such as the literary tradition the relationship to works in other literary genres the historical and social situation the intellectual background or the later reception Overall they offer a rich panorama of the role of Roman drama or individual plays in Roman society and literary history The insights gained thereby will be of relevance to everyone interested in Roman drama or literature more generally comparative literature or drama and theatre studies This contextual approach has the potential of changing the way in which Roman drama is viewed

Ineffability Peter S. Hawkins, Anne Howland Schotter, 2016-03-03 The essays in this volume explore the persistent struggle of language to overcome its own limitations Given their scope from Dante s confrontation with the divine All to Samuel Beckett s obsessive need to speak in the face of Nothing they expand our notion of the extent to which all speech is an assault on silence an attempt to articulate what lies beyond the grasp of words The collection offers the reader in roughly chronological order diverse conceptions of the ineffable as either superfluity or absence of reality It also exposes language in the act of extending its own boundaries drawing attention to those literary tactics by which speech attempts to suggest what cannot be said While largely a study of poetry from medieval to modern the volume also touches upon drama and a variety of prose combining close textual readings with broader thematic discussions

Monsters and Monstrosity in Augustan Poetry Dunstan Lowe, 2015-04-10 An important contribution to the growing interdisciplinary field of monster studies

The Cambridge Companion to the African Novel F. Abiola Irele, 2009-07-23 Africa s strong tradition of storytelling has long been an expression of an oral narrative culture African writers such as Amos Tutuola Naguib Mahfouz Wole Soyinka and J M Coetzee have adapted these older forms to develop and enhance the genre of the novel in a shift from the oral mode to print Comprehensive in scope these new essays cover the fiction in the European languages from North Africa and Africa south of the Sahara as well as in Arabic They highlight the themes and styles of the African novel through an examination of the works that have either attained canonical status an entire chapter is devoted to

the work of Chinua Achebe or can be expected to do so Including a guide to further reading and a chronology this is the ideal starting point for students of African and world literatures **Between the New Country and the Old World** Erin E.

Edgington, 2025-09-12 Poet and provocateur William Chapman 1850 1917 wrote patriotic verse recounting the history of New France envisioning a glorious future for its descendants Despite his many literary achievements he was a two time laureate of the Académie française and a nominee for the Nobel Prize in Literature Chapman is more often remembered for his explosive feud with Louis Fréchette a rivalry that pitted the two national poets against one another and played out in vicious invective across the pages of Quebec newspapers Chapman's lifelong quest to glorify French Canada and accumulate literary prestige in North America and Europe positioned him squarely between the new country and the old world Over the course of his forty year career Chapman published five collections of poetry *Les Québécoises* 1876 *Les Feuilles d'érable* 1890 *Les Aspirations* 1904 *Les Rayons du Nord* 1909 and *Les Fleurs de givre* 1912 whose very titles underscore his devotion to French Canadian identity as well as his literary ambition Integrating close readings of Chapman's verse with archival material related to his writing life Erin Edgington revisits his full oeuvre on its own terms and in context discerning the particular ways Chapman expressed the ideas of literary value and national literature that motivated him from a young age from juvenilia like *Les Mines d'or de la Beauce* 1881 to his polemical essays and his unfinished magnum opus *Le peuple canadienne* **Between the New Country and the Old World** challenges the prevailing narrative that has labelled Chapman a second rate forgettable poet showing how his life and work reveal important insights into literary fame poetics in a transitional moment at the turn of the century and the history of French literature in North America **The Art of Speech**

The Chamber Cantatas of Antonio Vivaldi Michael Talbot, 2006 Detailed survey of Vivaldi's unjustly neglected chamber cantatas showing them to stand comparison with his more famous works Vivaldi's chamber cantatas for solo voice some forty in total are steadily gaining in popularity but because of their relatively small place in the oeuvre of a composer famed for his productivity and also on account of the general scholarly neglect of their genre they are little discussed in the literature This book comprehensively explores their literary and musical background their relation to the composer's biography the chronology of their composition and their musical qualities Each cantata is discussed individually but there is also a broader consideration of aspects concerning them collectively such as performance practice topical allusion and the conventions of Italian verse The author argues that while Vivaldi's cantatas are not as innovative as his concertos and operas he produced several masterpieces in the genre that rank with his best music MICHAEL TALBOT is Emeritus Professor of Music at the University of Liverpool

Balthasar at End of Modernity, 1999-01-01 With a Foreword by Fergus Kerr and an Afterword by Rowan Williams In an age when theology appears fragmented as never before this volume intends to show how von Balthasar is one of the very few contemporary theologians to have demonstrated how the patterns and resources of the Christian tradition have extraordinary pertinence today The authors represent a new generation of Anglican theologians sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues The authors represent the Radical Orthodoxy movement in Anglican theology and are sympathetic to von Balthasar's thought exploring it both in order to discover its fundamental dynamics and to see how it may be brought into new dialogues

Statius' Silvae and the Poetics of Empire Carole E. Newlands, 2002-03-14 Statius' *Silvae* written late in the reign of Domitian AD 81-96 are a new kind of poetry that confronts the challenge of imperial majesty or private wealth by new poetic strategies and forms As poems of praise they delight in poetic excess whether they honour the emperor or the poet's friends Yet extravagant speech is also capacious

speech It functions as a strategy for conveying the wealth and grandeur of villas statues and precious works of art as well as the complex emotions aroused by the material and political culture of empire The *Silvae* are the product of a divided self fashioning voice Statius was born in Naples of non aristocratic parents His position as outsider to the culture he celebrates gives him a unique perspective on it The *Silvae* are poems of anxiety as well as praise expressive of the tensions within the later period of Domitian s reign
