Epicurean Rendezvous 1990 New York City:

Epicurean Rendezvous/1990/New York City, 1989-06 *Epicurean Rendezvous*, 1990 **Epicurean Rendezvous, Northern California**, 1991 Lucretius and Modernity Jacques Lezra, Liza Blake, 2016-04-08 Lucretius's long shadow falls across the disciplines of literary history and criticism philosophy religious studies classics political philosophy and the history of science The best recent example is Stephen Greenblatt's popular account of the Roman poet's *De Rerum Natura* On the Nature of Things rediscovery by Poggio Bracciolini and of its reception in early modernity winner of both a Pulitzer Prize and National Book Award Despite the poem's newfound influence and visibility very little cross disciplinary conversation has taken place This edited collection brings together essays by distinguished scholars to examine the relationship between Lucretius and modernity Key questions weave this book's ideas and arguments together What is the relation between literary form and philosophical argument How does the text of *De rerum natura* allow itself to be used at different historical moments and to different ends What counts as reason for Lucretius Together these essays present a nuanced skeptical passionate historically sensitive and complicated account of what is at stake when we claim Lucretius for modernity **Maps and Mirrors** Steve Martinot, 2001 *Maps and Mirrors* explores the links and gaps between the aesthetic and the political at the intersection of philosophy and literature Testing the major voices of aesthetic and literary theory it raises important questions about the implicit political contexts and commitments of thinkers from Kant to de Man Taken together the essays provide a tour of the complexities and richness of contemporary modes of critique □□□□□□(□5□□2007□) □□□ □, complexity 2004 Forum Translations The Seeds of Things Jonathan Goldberg, 2009-08-25 The title of this book translates one of the many ways in which Lucretius names the basic matter from which the world is made in *De rerum natura* In Lucretius and in the strain of thought followed in this study matter is always in motion always differing from itself and yet always also made of the same stuff From the pious Lucy Hutchinson's all but complete translation of the Roman epic poem to Margaret Cavendish's repudiation of atomism but not of its fundamental problematic of sameness and difference a central concern of this book is how a thoroughgoing materialism can be read alongside other strains in the thought of the early modern period particularly Christianity A chapter moves from Milton's monism to his angels and their insistent corporeality Milton's angels have sex and throughout this study emphasizes the consequences for thinking about sexuality offered by Lucretian materialism Sameness of matter is not simply a question of same sex sex and the relations of atoms in Cavendish and Hutchinson are replicated in the terms in which they imagine marriages of partners who are also their doubles Likewise Spenser's knights in the 1590 *Faerie Queene* pursue the virtues of Holiness Temperance and Chastity in quests that take the reader on a path of askesis of the kind that Lucretius recommends and that Foucault studied in the final volumes of his history of sexuality Although English literature is the book's main concern it first contemplates relations between Lucretian matter and Pauline flesh by way of Tintoretto's painting *The Conversion of St Paul* Theoretical issues raised in the work of Agamben and Badiou among

others lead to a chapter that takes up the role that Lucretius has played in theory from Bergson and Marx to Foucault and Deleuze This study should be of concern to students of religion philosophy gender and sexuality especially as they impinge on questions of representation

The Politics of Nothing Clare Monagle,Dimitris Vardoulakis,2013-10-31 This book questions what sovereignty looks like when it is de ontologised when the nothingness at the heart of claims to sovereignty is unmasked and laid bare Drawing on critical thinkers in political theology such as Schmitt Agamben Nancy Blanchot Paulhan The Politics of Nothing asks what happens to the political when considered in the frame of the productive potential of the nothing The answers are framed in terms of the deep intellectual histories at our disposal for considering these fundamental questions carving out trajectories inspired by for example Peter Lombard Shakespeare and Spinoza This book offers a series of sensitive and creative reflections that suggest the possibilities offered by thinking through sovereignty via the frame of nihilism This book was originally published as a special issue of Culture Theory and Critique

Handsomely Done Daniel Hoffman-Schwartz,2019-04-15 Handsomely Done Aesthetics Politics and Media after Melville brings together leading and emerging scholars from comparative literature critical theory and media studies to examine Melville s works in light of their ongoing afterlife and seemingly permanent contemporaneity The volume explores the curious fact that the works of this most linguistically complex and seemingly most untranslatable of authors have yielded such compelling translations and adaptations as well as the related tendency of Melville s writing to flash into relevance at every new historical political conjuncture The volume thus engages not only Melville reception across media Jorge Luis Borges John Huston Jean Luc Godard Led Zeppelin Claire Denis but also the Melvillean resonances and echoes of various political events and movements such as the Attica uprising the Red Army Faction Occupy Wall Street and Black Lives Matter This consideration of Melville s afterlife opens onto theorizations of intermediality untranslatability and material intensity even as it also continually faces the most concrete and pressing questions of history and politics

Bodies and Machines (Routledge Revivals) Mark Seltzer,2014-11-13 Bodies and Machines is a striking and persuasive examination of the body machine complex and its effects on the modern American cultural imagination Bodies and Machines first published in 1992 explores the links between techniques of representation and social and scientific technologies of power in a wide range of realist and naturalist discourses and practices Seltzer draws on realist and naturalist writing such as the work of Hawthorne and Henry James and the discourses which inform it from scouting manuals and the programmes of systematic management to accounts of sexual biology and the rituals of consumer culture He explores other mass produced and mass consumed cultural forms including visual representations such as composite photographs scale models and the astonishing iconography of standardization

Imagining Language Jed Rasula,Steve McCaffery,2001 When works such as Joyce s Finnegans Wake and Stein s Tender Buttons were first introduced they went so far beyond prevailing linguistic standards that they were widely considered unreadable if not scandalous Jed Rasula and Steve McCaffery take these and other examples of twentieth century avant

garde writing as the starting point for a collection of writings that demonstrates a continuum of creative conjecture on language from antiquity to the present The anthology which spans three millennia generally bypasses chronology in order to illuminate unexpected congruities between seemingly discordant materials Together the writings celebrate the scope and prodigality of linguistic speculation in the West going back to the pre Socratics *Jacques Derrida* Nicholas

Royle,2003-09-02 There are few figures more important in literary and critical theory than Jacques Derrida Whether lauded or condemned his writing has had far reaching ramifications and his work on deconstruction cannot be ignored This volume introduces students of literature and cultural studies to Derrida s enormously influential texts covering such topics as deconstruction text and difference literature and freedom law justice and the democracy to come drugs secrets and gifts Nicholas Royle s unique book written in an innovative and original style is an outstanding introduction to the methods and significance of Jacques Derrida **Malicious Objects, Anger Management, and the Question of Modern Literature**

Jörg Kreienbrock,2013 Why do humans get angry with objects Why is it that a malfunctioning computer a broken tool or a fallen glass causes an outbreak of fury How is it possible to speak of an inanimate object s recalcitrance obstinacy or even malice When things assume a will of their own and seem to act out against human desires and wishes rather than disappear into automatic unconscious functionality the breakdown is experienced not as something neutral but affectively as rage or as outbursts of laughter Such emotions are always psychosocial public rhetorically performed and therefore irreducible to a private feeling By investigating the minutest details of life among dysfunctional household items through the discourses of philosophy and science as well as in literary works by Laurence Sterne Jean Paul Friedrich Theodor Vischer and Heimito von Doderer Kreienbrock reconsiders the modern bourgeois poetics that render things the way we know and suffer them

Semiotic Investigations A. W. McHoul,1996-01-01 In *Semiotic Investigations* Alec McHoul develops a theory of meaning that he calls effective semiotics a theory that investigates the ways in which signs have meaning by virtue of their actual uses McHoul expounds his theory of effective semiotics of meaning as use in a series of provocative chapters on diverse topics He begins by examining the relations between semiotics and history and between semiotics and specific communities He elaborates on the nature of these relations by demonstrating the effective semiotics of a particular photograph from the 1880s episodes from the film *Singin in the Rain* and the Batman comics literary works children s primers popular accounts of science and many other objects artifacts and experiences *Semiotic Investigations* advances its own comprehensive theory of signs while ably examining works by such distinguished philosophers and theorists as Nietzsche Wittgenstein Derrida Foucault Habermas Lyotard Kuhn and others Yet the book is also down to earth and clearly written with an eye towards a startling range of ordinary and uncommon experiences It will be required reading for linguists philosophers semioticians anthropologists literary theorists and students of cultural studies Persuasion, Reflection, Judgment Rodolphe Gasché,2017-04-03 Gasch expounds on Aristotle Heidegger and Arendt in a major interpretative

achievement that underscores what is at stake in political thought Notre Dame Philosophical Reviews As one of the most respected voices of Continental philosophy today Rodolphe Gasch pulls together Aristotle's conception of rhetoric Martin Heidegger's debate with theory and Hannah Arendt's conception of judgment in a single work on the centrality of these themes as fundamental to human flourishing in public and political life Gasch's readings address the distinctively human space of the public square and the actions that occur there and his valorization of persuasion reflection and judgment reveals new insight into how the philosophical tradition distinguishes thinking from other faculties of the human mind Here Rodolphe Gasche is at his best rigorous scholarly creative forceful laser focused on the issues at stake learned thoughtful and original He demands much of his readers but reading his work is rewarding in ways that can be profoundly affecting Dennis J Schmidt author of *Between Word and Image* Rodolphe Gasche has long been one of the most meticulous readers of texts on the philosophical scene and here he once again offers a master class in how to do philosophy through interpretation Robert Bernasconi author of *How to Read Sartre* **Whitaker's Book List**, 1991 [Chance, Literature, and Culture in Early Modern France](#) John D. Lyons, 2016-04-08 In the Renaissance and early modern periods there were lively controversies over why things happen Central to these debates was the troubling idea that things could simply happen by chance In France a major terrain of this intellectual debate the chance hypothesis engaged writers coming from many different horizons the ancient philosophies of Epicurus the Stoa and Aristotle the renewed reading of the Bible in the wake of the Reformation a fresh emphasis on direct empirical observation of nature and society the revival of dramatic tragedy with its paradoxical theme of the misfortunes that befall relatively good people and growing introspective awareness of the somewhat arbitrary quality of consciousness itself This volume is the first in English to offer a broad cultural and literary view of the field of chance in this period The essays by a distinguished team of scholars from the U S Britain and France cluster around four problems Providence in Question Aesthetics and Poetics of Chance Law and Ethics and Chance and its Remedies Convincing and authoritative this collection articulates a new and rich perspective on the culture of sixteenth and seventeenth century France **Time-fetishes** Ned Lukacher, 1998 This work is a reading of the way humans have attempted to talk about the nature of time in particular the idea of the periodic creation and destruction of the world and the cosmos eternal recurrence

Conspiracy and Contingency Thorsten Botz-Bornstein, 2025-05-13 What do conspiracy theories algorithms and meritocracy have in common All three avoid contingency and frantically look for necessities The COVID 19 crisis has brought about a proliferation of conspiracy theories that reject among other things official accounts of the virus's origins and remedies and sometimes even the existence of the virus itself Conspiratorial thinking usually links events to secret plots concocted by powerful conspirators whether it be Bill Gates or Big Pharma In this book I point to another dominant driving force the desire to find simple and apparently reasonable explanations for phenomena that are actually purely random and contingent Often unfounded conspiracy theories emerge because contingency is not accepted and necessities are looked for

at all costs Nothing happens by chance and there must be a plan or an intelligent design behind everything This book deals with contingency phobia This special phobia is not only manifest in most unwarranted conspiracy theories but it also appears in Western culture as a recurrent psychological cognitive and scientific pattern It is the cause of a variety of other phenomena that have become emblematic for liberal democracies such as the contemporary algorithm culture or the obsession with merit and ranking Not only the conspiratorial mindset rejects a world of contingency and strives to create a universe structured by a necessary order life coaches algorithm engineers and neoliberal meritocrats all do the same This book analyses these phenomena by using the same criteria how do humans deal with contingency and how do they try to establish necessities Some philosophies such as Daoism and Zen Buddhism make unwarranted conspiracy theories quasi impossible because they find original ways of combining contingency with ontological theological or cosmological premises I identify sources that other disciplines examining conspiracy theories for example political science anthropology psychology or sociology have rarely seen as primary Political scientists focus on the macro level and construe conspiracy theories mostly as national or regional phenomena whereas anthropologists psychologists and sociologists tend to focus on the micro level The present study is an example of practical philosophy depicting conspiratorial thinking as an organic or a dynamic phenomenon by crystallising cognitive and cultural necessity contingency patterns that can be found in politics culture religion and science
