Guerra, 1995-01-05 Of all the letters in the Pauline corpus the Letter to the Romans has attracted the greatest degree of scholarly attention Yet surprisingly scant consideration has been given to the question of its literary genre Taking up the comparatively brief suggestions of previous scholars Dr Guerra argues that the Letter belongs to the protreptic genre the class of writing in antiquity which urges the adoption of a particular way of life or a deeper commitment to it setting out its advantages replying to objections and demonstrating its superiority Working through each chapter of the Letter in turn he indicates how Paul provides a critique of non Christian ways of life both Jewish and Gentile and affirms the superiority of the Christian Gospel It becomes apparent that the Pauline apologetics of Romans stand between the hellenistic Jewish tradition and the later Greek Christian apologists and may have influenced the latter The Invisible God Paul Corby

Finney,1994-08-04 This revisionist study challenges the received opinion that in its earliest manifestations Christianity was a form of religiosity opposed both on principle and in fact to the use of pictures Paul Corby Finney argues that the well known absence of Christian pictures before A D 200 is due to a complex interplay of social economic and political factors and is not as is commonly assumed a result of an anti image ideology The book documents the origins of Christian art based on some of the oldest surviving Christian archaeological evidence and it seeks to show how the Christian products conformed to the already existing pagan types and models This study will interest scholars and students in the fields of church history ancient history archaeology art history classics and historical theology **The Oxford Handbook of Rhetorical Studies** Michael John MacDonald,2017 Featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from North America Europe and Great Britain the Handbook will offer readers a comprehensive topical and historical survey of the theory and practice of rhetoric from ancient Greece and Rome through the Middle Ages and Enlightenment up to the present day James Thomson's Defence of Poetry Stefanie Lethbridge,2011-07-11 This study presents a contextual and intertextual reading of James Thomson s 1700 1748 poem The Seasons taking into consideration some of the presuppositions and habitus of the text s cultural community and the function of the poem s many intertextual allusions Contemporary assumptions about processes of perception reading and the practice of virtue call for an approach to the poem that takes literary pre texts into account An intertextual reading reveals The Seasons though heterogeneous on its surface as coherent in its cultural functionality It aims to train readers into virtuous habits and asserts the powers of poetic discourse as a culturally relevant force especially in relation to the discourse of natural philosophy With the emergence of natural philosophy as a cultural activity of considerable market value poetry had to legitimise itself as a culturally relevant pursuit An analysis of the poem s intertext in particular allusions to Virgil Ovid and Milton but also to genre conventions such as pastoral romance sermon and panegyric uncovers textual strategies that attempt to re legitimise poetry on the one hand by transposing scientific method into a poetic environment On the other hand the text demonstrates using its intertext that poetry has powers which reach beyond the rational and empirical agenda of natural philosophy and that poetry has a distinctive cultural function as a provider of vision insight and moral knowledge Diese Studie legt eine historisch kontextualisierte Interpretation von James Thomson s 1700 1748 Gedicht The Seasons vor die Pr suppositionen und Habitus zeitgen ssischer Leserschaft sowie dieFunktion seiner zahlreichen intertextuellen Anspielungen mit einbezieht Diese Lesart erhellt The Seasons als einen trotz heterogener Textoberfl che in seiner kulturellen Funktionalit t koh renten Text Die Analyse des Intertexts deckt Textstrategien auf die den dichterischen Diskurs insbesondere in Relation zum neu privilegierten Diskurs der Naturphilosophie als kulturell relevante Kraft relegitimieren Paul's Definitions of the Gospel in Romans 1 Robert Matthew Calhoun,2011 Revision of the author s thesis doctoral University of Chicago The Propaganda of Power Mary Whitby,2018-07-17 The 13 essays presented here shed new light on the role of panegyric in the western and

The Politics of Language Rebecca Stephenson, 2015-10-06 Old English literature thrived in late tenth century England Its success was the result of a concerted effort by the leaders of the Benedictine Reform movement to encourage both widespread literacy and a simple literary style The manuscripts written in this era are the source for the majority of the Old English literature that survives today including literary classics such as *Beowulf* Yet the same monks who copied and compiled these important Old English texts themselves wrote in a rarified Latin full of esoteric vocabulary and convoluted syntax and almost incomprehensible even to the well educated Comparing works by the two most prolific authors of the era *Byrhtferth of Ramsey* and *lfric of Eynsham* Rebecca Stephenson explains the politics that encouraged the simultaneous development of a simple English style and an esoteric Latin style By examining developments in Old English and Anglo Latin side by side *The Politics of Language* opens up a valuable new perspective on the Benedictine Reform and literacy in the late Anglo Saxon period

Judicial Rhapsodies Doug Coulson, 2023-02-28 All judges legitimize their decisions in writing but US Supreme Court justices depend on public acceptance to a unique degree Previous studies of judicial opinions have explored rhetorical strategies that produce legitimacy but none have examined the laudatory even operative forms of writing
