Holguin,2013-10-22 Principles of Epidemiology A Self Teaching Guide consists of a series of problem solving exercises designed to introduce and guide readers toward an understanding of the principles and methods of epidemiology rather than the epidemiology of specific diseases or subject areas such as infectious disease or chronic disease epidemiology The guide has been formulated to be used by itself or as a supplement to standard textbooks It illustrates and illuminates the principles and concepts of epidemiology and provides the reader an opportunity to practice the application of these principles in a logical sequence The guide is divided into 14 exercises Each exercise will help readers to understand principles or methods used by epidemiologist Topics covered include the patterns of disease populations at risk and risk assessment screening for disease investigation of an epidemic etiology of disease principles of causation study design in epidemiologic investigation data interpretation and the uses and applications of epidemiology

[Drug Epidemiology and Post-Marketing Surveillance](#) Brian L. Strom,G.P Velo,2013-06-29 This volume is a summary of material presented in the course given in the International School of Phannacology on Drug Epidemiology and Post Marketing Surveillance between September 27 and October 8 1990 at the Ettore Majorana Center for Scientific Culture in Erice Sicily The course which was a NATO Advanced Study Institute included lectures and workshops presented by experts in the new field of phannacoepidemiology The material covered includes various approaches to spontaneous reporting of adverse drug reactions including aggregate approaches such as those used in France and detailed analyses of individual reports such as that done in The Netherlands and in Sweden Also included are studies using traditional epidemiology methods In addition modern pharmacoepidemiology makes considerable use of automated databases As such

information is presented on their use as well. Pharmacoepidemiology started in hospitals and some of the newest work in the field is returning to the hospital as a site for studies. Material on these topics was presented as well. Finally selected new methodologic developments were outlined in specific examples presented that were of regulatory and commercial importance. This new field of pharmacoepidemiology is exploding in interest internationally. Evidence of this is the increasing development of pharmacoepidemiology programs in industry, medical schools, pharmacy schools and schools of public health. Also there is a new International Society of Pharmacoepidemiology. Practitioners in this field tend to specialize in either analyses of spontaneous reporting or the use of formal epidemiologic techniques.

National Institutes of Health (U.S.). Division of Research Grants, 1967     *Epidemiology of Drug Abuse* Zili Sloboda, 2006-06-02

As the drug abuse epidemic evolves so do the tools needed to understand and treat it. Accordingly, Epidemiology of Drug Abuse takes the long view cogently outlining what the book calls the natural history of drug abuse and redefining its complex phenomena to reflect our present day knowledge. Twenty six eminent contributors discuss the state and future of the field balancing the practical concerns involved in gathering drug abuse data with the ethics of using the information. Current thinking on pathways and etiology as well as medical, psychological and social sequelae of drug abuse. Proven up to date methodologies for assessment. Challenges of gathering data from high risk and other user populations. Sampling and application issues. Uses, sources and limitations of treatment data. Analytical papers applying the methodologies to specific and global studies. The role of epidemiology studies in developing prevention strategies. With this multifaceted approach to the subject, Epidemiology of Drug Abuse provides researchers and educators with a reference that sheds significant light on infrequently covered areas. In addition, its breadth and accessibility of coverage make it a teaching text suitable to courses in epidemiology, public health and drug abuse.
