**Researching Patient Safety and Quality in Healthcare** Karina Aase, Lene Schibevaag, 2016-10-03 *Researching Patient Safety and Quality in Health Care A Nordic Perspective* is an anthology based on contributions from leading researchers on quality and safety in healthcare in the Nordic countries together with four internationally renowned patient safety authors. Research on patient safety and quality has been dominated by countries such as the USA, England, Canada, and Australia. This book addresses the current debates in research on patient safety and quality in healthcare from a Nordic perspective. What are the flavours of Nordic research within these topics? What does it add to the international research literature? This book illustrates the unique nature of researching patient safety and quality with the Nordic perspective as well as showcasing representative work. The book presents an overview of the status and evidence of international and Nordic research on quality and safety in healthcare. Four different perspectives are used to present the trends within the research field: a patient perspective, a methodological perspective, a theoretical perspective, and a clinical perspective. The book then presents the status of Nordic research in the field and displays a set of illustrative work and current research topics within the Nordic context, concluding with a discussion of the characteristic features of Nordic research on patient safety and quality in healthcare. The anthology presents an interprofessional perspective and researchers from disciplines such as medical and nursing sciences, humanities, social sciences, and engineering. It is written to contribute to the patient safety cause with translational knowledge that will be useful to researchers, policy makers, and healthcare managers within Nordic countries and internationally.

**Quality of Life Assessment: Key Issues in the 1990s** S.R. Walker, Rachel M. Rosser, 2012-12-06 It was over five years ago that the Centre for Medicines Research organized a workshop entitled *Quality of Life Assessment and Application*. This workshop brought together a unique group of participants, some of whom had been involved in studies on quality of life for well over a decade whilst others were meeting the subject for the first time. This blend of experienced researchers and enthusiastic newcomers was a great stimulus to the discussions which followed individual presentations as well as that resulting from the study groups. In the ensuing publication, a balance was sought between a consideration of the complex principles underlying the assessment of quality of life and the application of such assessments to specific clinical conditions which necessitated this approach. The organization in 1991 of a second workshop entitled *Quality of Life Assessment: Key Issues in the 1990s* resulted in a further consideration of the quality of life philosophy, concepts, and key instruments together with an update on assessing quality of life in a number of major disease areas. Of particular importance was an examination of various viewpoints concerned with ethical questions and their implications, and quality of life from industry, regulatory, and health care purchasers' perspectives. As a result of this second workshop, the editors of the original book referred to above decided to produce a second edition with a number of updates and additional chapters.

Fayers,Ron D. Hays,2005 Quality of Life Assessment has progressed considerably since the publication of the first highly acclaimed edition of this book in 1998 Quality of life has now become an indispensable outcome measure in many randomised clinical trials and other studies Thus it is timely to provide not just an update but a completely new edition that reviews the current state of art and also discusses topical issues including areas where active research is in progress The first section discusses the development and evaluation of generic and disease targeted questionnaires Having decided the items to be included the thrust of the next section covers how to convert these into usable forms Section 3 addressing analysis and the methods of analysing studies with missing data is followed by chapters on interpretation of results and exploring the role of single item questions The final section of the book looks beyond the individual clinical trial and how we can use clinical trial and other data to make macro decisions A strong international team of experts cover a wide range of topics emphasizing new and innovative approaches that are of practical and clinical importance reviewing the current state of the art and illustrating the benefits and potential of health related quality of life assessment in clinical trials      Issues in Global, Public, Community, and Institutional Health: 2011 Edition ,2012-01-09 Issues in Global Public Community and Institutional Health 2011 Edition is a ScholarlyEditions eBook that delivers timely authoritative and comprehensive information about Global Public Community and Institutional Health The editors have built Issues in Global Public Community and Institutional Health 2011 Edition on the vast information databases of ScholarlyNews You can expect the information about Global Public Community and Institutional Health in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Issues in Global Public Community and Institutional Health 2011 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>      Oncology of CNS Tumors Jörg-Christian Tonn,Manfred Westphal,J. T. Rutka,2010-02-03 Knowledge about the etiology and diagnosis as well as treatment concepts of neu oncologic diseases is rapidly growing This turnover of knowledge makes it dif cult for the physician engaged in the treatment to keep up to date with current therapies This book sets out to close the gap and pursues several innovative concepts As a comprehensive text on neuro oncology its chapters are interconnected but at the same time some chapters or subdivisions are so thoroughly assembled that the whole volume gives the impression of several books combined into one Neuropathology is treated in an extensive and clearly structured section The int ested reader nds for each tumor entity the latest well referenced consensus

regarding histologic and molecular pathology Through this book in the book concept information on neuropathology is readily at hand in a concise form and without overloading the single chapters Pediatric neuro oncology differs in many entities from tumors in adult patients also certain tumors of the CNS are typically or mainly found only in the child Therefore pediatric neuro oncology was granted its own book like section Tumor entities that are treated differently in children and adults are included both in the pediatric neuro oncology section and in the general section Entities that typically occur only in the child and adolescent are found in the pediatric section in order to avoid redundancies

*Assurance of Seafood Quality* Hans Henrik Huss, Food and Agriculture Organization of the United Nations, 1994-01-01 This document is primarily focused on the application of the Hazard Analysis Critical Control Point HACCP system to the fish industry The document reviews in detail the potential hazards related to public health and spoilage related to fish and fish products and discuss the utilization of HACCP in different type of fish industries It contains a chapter making clear the limitations of classical fish inspection and quality control methods based solely on the analysis of final samples A brief introduction about the relationship between the HACCP system and the ISO 9000 series is also included The document is completed with chapters related to cleaning and sanitation and establishments for seafood processing primarily seen from the HACCP point of view
