Piyush Gupta, PSN Menon, Siddarth Ramji, Rakesh Lodha, 2015-08-31 The book attempts to provide the essential information

that postgraduates throughout India need to capture to effectively address the health problems that our children and youth

may face in the times to come Our objective is to be comprehensive yet concise and reader friendly embracing both the new

advances in science as well as the time honored art of pediatric practice Both Indian and international experts in respective

fields have provided the details which have been further scrutinized for exposition and usefulness to pediatric postgraduates

by a chosen team of eminent academicians We have liberally included tables line diagrams images clinical photographs

illustrative figures flowcharts and algorithms in the main text The book is divided in 10 major Parts and further arranged into

51 Sections to cover all aspects of postgraduate pediatric curriculum Themes which have major public health relevance for

India are extensively covered It is almost impossible to cover all pediatric problems with the same degree of detail and hence

a careful balance has been made in the details of description of diseases and their management to the needs of the students

and to keep the book to a manageable size Take home messages are provided at the end of each chapter Selected recent
