Epistemics J. Samuel Bois,1972-06-01     *Epistemics* Samuel J. Bois,1972-01-01     *Epistemics of the Virtual* Johan F. Hoorn,2012-05-09 Proposing a new theory of fiction this work reviews the confusion about perceived realism metaphor virtual worlds and the seemingly obvious distinction between what is true and what is false The rise of new media new technology and creative products and services requires a new examination of what real friends are to what extent scientific novelty is true and whether online content is merely figurative In this transdisciplinary theory the author evaluates cognitive theories philosophical discussion and topics in biology and physics and places these in the frameworks of computer science and literary theory The interest of the reader is continuously challenged on matters of truth fiction and the shakiness of our belief systems     Organic Creativity and the Physics Within Mea M.M. Lowcre,2013-03-27 A group of international top scientists from a diversity of disciplines sat together for five days with artists designers and entrepreneurs to develop a trans disciplinary theory of creativity Organic Creativity and the Physics Within assumes that creativity is a quality of nature visible in physics as well as in psychology its basis being combinatorics coincidence complementarity and fractal emergence The authors prompt a mechanism cutting through particle physics perception psychology and culminating into playfulness Organic Creativity and the Physics Within connects us to the universality of nature s creativeness     **Catalog of Copyright Entries.
