Research in the History of Economic Thought and Methodology (Part A, B & C) Warren J. Samuels, Jeff E. Biddle, Ross B. Emmett, 2008-06-16 A collection of refereed articles on topics in economic methodology and the history of economics including Austrian economic methodology and Wesley Mitchell **Epistemological Problems of Economics; Translated by George Reisman** Ludwig Von Mises, **Towards a Theoretical Framework for British and International Economic History** Sudha Shenoy, 2010 Max Weber and the Idea of Economic Sociology Richard Swedberg, 1998 While most people are familiar with The Protestant Ethic and the Spirit of Capitalism few know that during the last decade of his life Max Weber 1864 1920 also tried to develop a new way of analyzing economic phenomena which he termed economic sociology Indeed this effort occupies the central place in Weber's thought during the years just before his death Richard Swedberg here offers a critical presentation and the first major study of this fascinating part of Weber's work Swedberg furthermore discusses similarities and differences between Weber's economic sociology and present day thinking on the same topic In addition the author shows how economic sociology has recently gained greater credibility as economists and sociologists have begun to collaborate in studying problems of organizations political structures social problems and economic culture more generally Swedberg's book will be sure to further this new cooperation **Review of Austrian Economics, Volume 2** Rothbard, 1990 **Hayek's Political Theory, Epistemology, and Economics** Jeffrey Friedman, 2016-04-14 Hayek thought that all economic behavior and by implication other human behavior is based on fallible interpretations of what information is important and of its implications for the future This epistemological idea animated not

only his heterodox economic thought but his ideal of the rule of law his road to serfdom thesis and his critique of the notion of social justice However the epistemological idea is a protean one that Hayek did not always handle carefully This volume presents one of the most sophisticated critical reflections on Hayek ever assembled between two covers This book was originally published as a special issue of Critical Review Big Players and the Economic Theory of Expectations R. Koppl, 2002-06-19 Investment and all other economic actions depend on subjective expectations The problem is how to construct a theory of expectations that assumes people interpret their situations in unpredictable ways Building on the evolutionary economics of F A Hayek Koppl gives us such a theory This includes a theory of Big Players demonstrating that discretionary policy interventions create ignorance and uncertainty The volume uses innovative methods to address many vital problems in economic theory and connects with many other schools of economics including New Institutional Economics Constitutional Economics and Post Walsarian Economics *Quotable Mises, The*, 2005 **Mises: The Last Knight of**

Liberalism Jörg Guido Hülsmann, 2007 **Economics and Ethics of Private Property** Hans-Hermann Hoppe, 2006 **Subjectivism and Objectivism in the History of Economic Thought** Yukihiro Ikeda, Kiichirō Yagi, 2012 The book attempts to investigate the position of subjectivism in the economic theories in the past and its relationship or rather confrontation with objective point of view in economics The Mises Reader Unabridged Shawn Ritenour, 2016-12-15

Philosophy of Economics W. Balzer, Bert Hamminga, 2012-12-06 The last decade witnessed an unprecedented annual growth of the literature dealing with the philosophy of economics as well as the first signs of an institutionalization conferences an international journal of the philosophy of economics as a scientific subject in itself in particular in the U S In 1981 a meeting took place with participants mainly of European continental origin In July 1987 we organized a second conference Philosophy of Economics II at Tilburg University The Netherlands mainly aiming at the establishment of first contacts between the middle European group and researchers from the U S The present volume contains the papers presented at this conference Philosophical thought on economics in recent years split up in many different streams two of which are represented in the larger part of this volume The first of these streams was formed by a group of researchers mainly from middle Europe who make empirical studies of the logical structures of the different theories as they find them presented in economic literature Two methods prevail here First the structuralist method as exemplified in the writings of Sneed Stegmüller and others of describing the object of a theory as a set of partial potential models Such models consist of sets and relationships between these sets which represent the concepts used in the theory **Economic Science and the Austrian Method** Hans-Hermann Hoppe, 1995
