Epistolary Histories Letters Fiction Culture:

Epistolary Histories Amanda Gilroy, W. M. Verhoeven, 2000 This innovative collection of essays participates in the ongoing debate about the epistolary form challenging readers to rethink the traditional association between the letter and the private sphere It also pushes the boundaries of that debate by having the contributors respond to each other within the volume thus creating a critical community between covers that replicates the dialogic nature of epistolarity itself with all its dissonances and differences as well as its connections Focusing mainly on Anglo American texts from the seventeenth century to the present day these nine essays and their postscripts engage the relationship between epistolary texts and discourses of gender class politics and commodification Ranging from epistolary histories of Mary Queen of Scots to Turkish travelogues from the making of the modern middle class and the correspondence of Melville and Hawthorne to new epistolary innovators such as Kathy Acker and Orlan the contributions are divided into three parts part 1 addresses the feminocentric focus of the letter part 2 the boundaries between the fictional and the real and part 3 the ways in which the epistolary genre may help us think more clearly about questions of critical address and discourse that have preoccupied theorists in recent years In sum Epistolary Histories is a defining contribution to epistolary studies Contributors Nancy Armstrong Brown University Anne L Bower Ohio State University Marion Clare Brant King's College London Amanda Gilroy University of Groningen Richard Hardack Haverford and Bryn Mawr Colleges Linda S Kauffman University of Maryland College Park Donna Landry Wayne State University Gerald MacLean Wayne State University Martha Nell Smith University of Maryland College Park W M Verhoeven University of Groningen

Letters and Cultural Transformations in the United States, 1760-1860 Sharon M. Harris, 2016-05-06 This volume illustrates the significance of epistolarity as a literary phenomenon intricately interwoven with eighteenth and nineteenth century cultural developments Rejecting the common categorization of letters as primarily private documents this collection of essays demonstrates the genre's persistent public engagements with changing cultural dynamics of the revolutionary early republican and antebellum eras Sections of the collection treat letters implication in transatlanticism authorship and reform movements as well as the politics and practices of editing letters The wide range of authors considered include Mercy Otis Warren Charles Brockden Brown members of the Emerson and Peabody families Margaret Fuller Elizabeth Stoddard Catherine Brown John Brown and Harriet Jacobs The volume is particularly relevant for researchers in U S literature and history as well as women's writing and periodical studies This dynamic collection offers scholars an exemplary template of new approaches for exploring an understudied yet critically important literary genre

The Lives and Letters of an Eighteenth-century Circle of Acquaintance Temma F. Berg, 2006 While most of the letter writers are unknown four achieved prominence the author Charlotte Lennox the Reverend Thomas Winstanley the navigator Charles Clerke and the bluestocking Susannah Dobson This book presents new perspectives on Lennox's and Winstanley's domestic lives Clerke's ambiguous encounters with indigenous peoples and Dobson's mysterious sexuality This book will

appeal to eighteenth century scholars as well as to scholars in women's and cultural studies. It will also be of interest to postcolonial, queer and other literary theorists. **BOOK JACKET** *The Spiritual Lives and Manuscript Cultures of Eighteenth-Century English Women* Cynthia Alders, 2024-05-01. *The Spiritual Lives and Manuscript Cultures of Eighteenth-Century English Women* explores the vital and unexplored ways in which women's life writings acted to undergird, guide and indeed shape religious communities. Through an exploration of various significant but understudied personal relationships including mentorship by older women, spiritual friendship and care for nonbiological children, the book demonstrates the multiple ways in which women were active in writing religious communities. The women discussed here belonged to communities that habitually communicated through personal writing. At the same time, their acts of writing were creative acts powerful to build and shape religious communities. These women wrote religious community. The book consists of a series of interweaving case studies and focuses on Catherine Talbot 1721-70, Anne Steele 1717-78 and Ann Bolton 1743-1822 and on their literary interactions with friends and family. Considered together, these subjects and sources allow comparison across denomination: for Talbot was Anglican, Steele a Baptist and Bolton a Methodist. Further, it considers women's life writings as spiritual legacy as manuscripts were preserved by female friends and family members and continued to function in religious communities after the death of their authors. Various strands of enquiry weave through the book: questions of gender and religion themselves inflected by denomination; themes related to life writings and manuscript cultures; and the interplay between the writer as individual and her relationships and communal affiliations. The result is a variegated and highly textured account of eighteenth-century women's spiritual and writing lives. **Writing the Lives of the English Poor, 1750s-1830s** Steven King, 2019-02-28. From the mid-eighteenth century to the early nineteenth century, the English Old Poor Law was waning, soon to be replaced by the New Poor Law and its dreaded workhouses. In *Writing the Lives of the English Poor, 1750s-1830s*, Steven King reveals colourful stories of poor people, their advocates and the officials with whom they engaged during this period in British history, distilled from the largest collection of parochial correspondence ever assembled. Investigating the way that people experienced and shaped the English and Welsh welfare system through the use of almost 26,000 pauper letters and the correspondence of overseers in forty-eight counties, *Writing the Lives of the English Poor, 1750s-1830s* reconstructs the process by which the poor claimed, extended or defended their parochial allowances. Challenging preconceptions about literacy, power, social structure and the agency of ordinary people, these stories suggest that advocates, officials and the poor shared a common linguistic register and an understanding of how far welfare decisions could be contested and negotiated. King shifts attention away from traditional approaches to construct an unprecedented comprehensive portrait of poor law administration and popular writing at the turn of the nineteenth century. At a time when the western European welfare model is under sustained threat, *Writing the Lives of the English Poor, 1750s-1830s* takes us back to its deepest roots to demonstrate that the signature of a strong welfare system is malleability. **The Life of Paper**

 the self is performed created through action rather than having a prior existence has been an important methodological
 intervention in our understanding of human experience It has been particularly significant for studies of gender helping to
 destabilise models of selfhood where women were usually defined in opposition to a male norm In this multidisciplinary
 collection scholars apply this approach to a wide array of historical sources from literature to art to letters to museum
 exhibitions which survive from the medieval to modern periods In doing so they explore the extent that using a model of
 performativity can open up our understanding of women's lives and sense of self in the past They highlight the way that this
 method provides a significant critique of power relationships within society that offers greater agency to women as historical
 actors and offers a challenge to traditional readings of women's place in society An innovative and wide ranging compilation

 Heydt-Stevenson, Charlotte Sussman, 2010-01-01 The field of literature changed dramatically at the end of the eighteenth
 century as under the shadow of Romanticism the novel became the most important literary genre of its day Often neglected
 the novels of the Romantic era puzzle critics yet are much more concerned with the unexpected the unconventional and the
 uncanny than their immediate predecessors or successors and their authors include some of the most important novelists of
 British literary history Jane Austen Fanny Burney James Hogg Mary Shelley and Sir Walter Scott among them Featuring
 contributions from distinguished scholars in the field Recognizing the Romantic Novel evaluates the vibrancy and centrality
 of the Romantic novel showcasing the important new voices and directions in the field and showing it can hold its own in the
 canon of literary scholarship These essays offer us a lens through which we may recognize the Romantic novel as it has never

 popular conception of eighteenth century London has been more difficult to imagine In fact the immense variety of textual
 traditions metaphors classical allusions and contemporary contexts that eighteenth century writers use to illustrate
 eighteenth century London may make eighteenth century London seem more strange and foreign to twenty first century

readers than any of its other historical reincarnations Indeed imagining a familiar unified London was precisely the task that occupied so many writers in London after the 1666 Fire decimated the City and the 1688 Glorious Revolution destabilized the English monarchy's absolute power In the authoritative void created by these two events writers in London faced not only the problem of how to guide readers' imaginations to a unified conception of London but also the problem of how to govern readers whom they would never meet Erik Bond argues that Restoration London's rapidly changing administrative geography as well as mid-eighteenth century London's proliferation of print helped writers generate several strategies to imagine that they could control not only other Londoners but also their interior selves As a result *Reading London* encourages readers to respect the historical alterity or otherness of eighteenth century literature while recognizing that these historical alternatives prove that our present problems with urban societies do not have to be this way In fact the chapters illustrate how eighteenth century writers gesture towards solutions to problems that urban citizens now face in terms of urban terror crime policing and communal conduct

Samuel Richardson and the Art of Letter-Writing Louise Curran, 2016-03-17 This fascinating study examines Samuel Richardson

s letters as important works of authorial self fashioning It analyses the development of his epistolary style the links between his own letter writing practice and that of his fictional protagonists how his correspondence is highly conscious of the spectrum of publicity and how he constructed his letter collections to form an epistolary archive for posterity Looking backwards to earlier epistolary traditions and forwards to the emergence of the lives in letters mode of biography the book places Richardson s correspondence in a historical continuum It explores how the eighteenth century witnesses a transition from a period in which an author would rarely preserve personal papers to a society in which the personal lives of writers become privileged as markers of authenticity in the expanded print market It argues that Richardson s letters are shaped by this shifting relationship between correspondence and publicity in the mid eighteenth century The Geschlecht Complex Oscar Jansson,David LaRocca,2022-01-01 The notion of Geschlecht denoting gender genre kinship and more exemplifies the most pertinent questions of the transnational and transdisciplinary structures of contemporary humanities What happens in the transference from one language tradition or form to another Combining detailed case studies of category problems in literature philosophy theatre media cinema and performing arts with excerpts from canonical texts by field defining thinkers such as Derrida Malabou Nancy and Irigaray the volume presents the Geschlecht complex as a fulcrum for any interpretive endeavor as an invaluable mode of thought for the present and inevitable complexities of theorizing in the 21st century
