Walras' Economics Michio Morishima, 1981-09-03 Originally

published in 1977 this book is a companion to Professor Morishima's book *Marx's Economics* which was published in 1973. As he did so successfully with *Marx*, Morishima intended with this book to change the standard assessment of his subject's contribution to the development of economic thought. The standard view was that Walras provided in the second half of the nineteenth century the basis for general equilibrium theory. He was thus regarded as a microeconomist, a founder of marginalism, but Morishima argues that while Walras certainly made important contributions in that area, it is his attempt to build a macroeconomics on that foundation that should be regarded as his main achievement. This book will provoke great interest amongst all economists and advanced students of economic theory and its history.

Since CAFE standards were established 25 years ago, there have been significant changes in motor vehicle technology, globalization of the industry, the mix and characteristics of vehicle sales, production capacity, and other factors. This volume evaluates the implications of these changes as well as changes anticipated in the next few years on the need for CAFE as well as the stringency and structure of the CAFE program in future years.

The Greater Generation Leonard Steinhorn, 2007-04-01. The Greatest Generation gets credit for winning World War II and braving the Depression. But the Baby Boomers? All they get credit for is knowing how to order a tall skim double latte. What really is the true legacy of the Boomers? Summoning the amazing sea changes they've made in American culture, this controversial book recasts the much maligned Boomers as a Greater Generation with a lasting legacy of tolerance and equality for all. Farewell, Donna Reed! For women, the Baby Boom era has been one of breathtaking change in a single generation. American women have effected one of the greatest social metamorphoses in recorded history. What women are able to do today would have been unimaginable four or five decades ago at best: the stuff of utopian fantasy or science fiction. Not Only Women: The egalitarian norms of the Baby Boom have deeply changed men and will continue to do so for generations to come. Diversity as a Moral Value: For too long, America denied blacks, gays, and other minorities their dignity and rights, but in the Boomer era, we have enlarged the melting pot to include those once scorned and excluded. Boomers have led a culture war to upend the rigid social structure of the Fifties and challenge centuries of entrenched norms and attitudes about race, ethnicity, religion, and sexuality. The Greening of America: Under Boomers, environmental protection has become a powerful new norm in American society. No longer do we tolerate toxic run-offs and progress at any cost. A Freer, More Open Society: Personal freedom, tolerance, openness, transparency, and equality—these are the values of the Baby Boom era, and we live them daily at home, work, school, and in our many relationships. The old ways: the prejudice, narrow-mindedness, restrictive sex roles, smoke-filled rooms, double standards, rigid hierarchies are going, going, gone thanks to Baby Boomers. The media have it wrong: You don't need to fight a war to be a great generation. America today is far more

open inclusive and equal than at any time in our history and Boomers are the foot soldiers who made it happen The Greater Generation tells their remarkable story The Greater Generation is a timely passionate defense of the Baby Boom generation Leonard Steinhorn reminds us of the essential liberal spirit that defined the Boomers and how they changed our country for the better In doing so he illuminates the critical issues that continue to challenge them and their children Joe Conason bestselling author of Big Lies and The Hunting of the President The Baby Boom generation changed the heart and soul of America Leonard Steinhorn s The Greater Generation shows us how much better off we all are as a result Richard Florida author of The Rise of the Creative Class Steinhorn has written a smart and inspirational book that will be a boost to all Boomers and will show their children why Mom and Dad know best Iris Krasnow author of Surrendering to Marriage In contrast to their parents idealized standing as the greatest generation Boomers have been gamely diminished as the worst generation And this book shouts ENOUGH Brent Green author of Marketing to Leading Edge Baby Boomers Transactions of the Linnean Society of London Linnean Society of London,1900 *Bulletin - Virginia Geological Survey* Virginia Geological Survey,1906 **Qualification Standards for Positions Under the General Schedule** United States.
