**Because of Race** Mica Pollock, 2010-10-25 In *Because of Race* Mica Pollock tackles a long standing and fraught debate over racial inequalities in America's schools Which denials of opportunity experienced by students of color should be remedied Pollock exposes raw real time arguments over what inequalities of opportunity based on race in our schools look like today and what if anything various Americans should do about it Pollock encountered these debates while working at the U S Department of Education's Office for Civil Rights in 1999 2001 For more than two years she listened to hundreds of parents advocates educators and federal employees talk about the educational treatment of children and youth in specific schools and districts People debated how children were spoken to disciplined and ignored in both segregated and desegregated districts and how children were afforded or denied basic resources and opportunities to learn Pollock discusses four rebuttals that greeted demands for everyday justice for students of color inside schools and districts She explores how debates over daily opportunity provision exposed conflicting analyses of opportunity denial and harm worth remedying *Because of Race* lays bare our habits of argument and offers concrete suggestions for arguing more successfully toward equal opportunity

**The Transformation of Title IX** R. Shep Melnick, 2018-03-06 One civil rights era law has reshaped American society and contributed to the country's ongoing culture wars Few laws have had such far reaching impact as Title IX of the Education Amendments of 1972 Intended to give girls and women greater access to sports programs and other courses of study in schools and colleges the law has since been used by judges and agencies to expand a wide range of antidiscrimination policies most recently the Obama administration's 2016 mandates on sexual harassment and transgender rights In this comprehensive review of how Title IX has been implemented Boston College political science professor R Shep Melnick analyzes how interpretations of equal educational opportunity have changed over the years In terms accessible to non lawyers Melnick examines how Title IX has become a central part of legal and political campaigns to correct gender stereotypes not only in academic settings but in society at large Title IX thus has become a major factor in America's culture wars and almost certainly will remain so for

years to come      *Educating Harlem* Ansley T. Erickson, Ernest Morrell, 2019-11-12 Over the course of the twentieth century education was a key site for envisioning opportunities for African Americans but the very schools they attended sometimes acted as obstacles to black flourishing *Educating Harlem* brings together a multidisciplinary group of scholars to provide a broad consideration of the history of schooling in perhaps the nation's most iconic black community The volume traces the varied ways that Harlem residents defined and pursued educational justice for their children and community despite consistent neglect and structural oppression Contributors investigate the individuals organizations and initiatives that fostered educational visions underscoring their breadth variety and persistence Their essays span the century from the Great Migration and the Harlem Renaissance through the 1970s fiscal crisis and up to the present They tell the stories of Harlem residents from a wide variety of social positions and life experiences from young children to expert researchers to neighborhood mothers and ambitious institution builders who imagined a dynamic array of possibilities from modest improvements to radical reshaping of their schools Representing many disciplinary perspectives the chapters examine a range of topics including architecture literature film youth and adult organizing employment and city politics Challenging the conventional rise and fall narratives found in many urban histories the book tells a story of persistent struggle in each phase of the twentieth century *Educating Harlem* paints a nuanced portrait of education in a storied community and brings much needed historical context to one of the most embattled educational spaces today      *Leadership on the Federal Bench* Jeffrey B. Morris, 2011-06-13 *Leadership on the Federal Bench The Craft and Activism of Jack Weinstein* considers the ways a particularly gifted federal judge seized the opportunities available to district judges to influence the results of the cases before him and employed the tools available to him to make policy having a national impact In the book author Jeffrey Morris considers the ways in which the judge Jack Weinstein of the Eastern District of New York has been limited by his position This book adds to the slim literature about the policy making role of district judges applying the work of legal historians political scientists and those trained in the law Focusing upon an admitted judicial activist perhaps the most famous innovative and controversial district judge sitting today the book permits a close look at activism at the trial level *Leadership on the Federal Bench The Craft and Activism of Jack Weinstein* begins by analyzing the job of a federal district judge and why it is profitable to study Judge Weinstein Related topics include Weinstein's background before appointment to the bench the political and legal environment within which Weinstein has judged and the characteristics of the district in which he sat and its possible impact on him Part of the book focuses on Weinstein's judicial output for each of his four decades on the bench Cases are drawn from a diverse number of areas among them the areas of civil rights freedom of speech search and seizures organized crime and political corruption cases evidence and procedure Finally conclusions are made on the role of district courts judicial activism in general along with a summary of Judge Weinstein's career      *Monthly Catalog of United States Government Publications* , 1984      ***The Battle Nearer to Home*** Christopher Bonastia, 2022-07-05 Despite its image as an

epicenter of progressive social policy New York City continues to have one of the nation's most segregated school systems Tracing the quest for integration in education from the mid 1950s to the present *The Battle Nearer to Home* follows the tireless efforts by educational activists to dismantle the deep racial and socioeconomic inequalities that segregation reinforces The fight for integration has shifted significantly over time not least in terms of the way integration is conceived from transfers of students and redrawing school attendance zones to more recent demands of community control of segregated schools In all cases the Board eventually pulled the plug in the face of resistance from more powerful stakeholders and starting in the 1970s integration receded as a possible solution to educational inequality In excavating the history of New York City school integration politics in the halls of power and on the ground Christopher Bonastia unearths the enduring white resistance to integration and the severe costs paid by Black and Latino students This last decade has seen activists renew the fight for integration but the war is still far from won *Achieving High Educational Standards for All* National Research Council, Division of Behavioral and Social Sciences and Education, 2002-05-11 This volume summarizes a range of scientific perspectives on the important goal of achieving high educational standards for all students Based on a conference held at the request of the U S Department of Education it addresses three questions What progress has been made in advancing the education of minority and disadvantaged students since the historic *Brown v Board of Education* decision nearly 50 years ago What does research say about the reasons of successes and failures What are some of the strategies and practices that hold the promise of producing continued improvements The volume draws on the conclusions of a number of important recent NRC reports including *How People Learn Preventing Reading Difficulties in Young Children Eager to Learn* and *From Neurons to Neighborhoods* among others It includes an overview of the conference presentations and discussions the perspectives of the two co moderators and a set of background papers on more detailed issues

**Resources in Women's Educational Equity**, 1979 *Federal Program Evaluations*, 1973 Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies *Financial Assistance by Geographic Area*, *Urban Education with an Attitude* Lauri Johnson, Mary E. Finn, Rebecca Lewis, 2012-02-01 This book profiles local and national efforts to transform urban education and reinvent urban teacher preparation It describes real programs in real urban schools that have developed policy initiatives that promote educational equity community based curricula and teacher education and parent empowerment programs that emphasize democratic collaboration among universities urban teachers parents and community members By involving all stakeholders this comprehensive approach provides a model for creating urban schools that not only excite and inspire but also serve as engines for social change Contending that urban education reform will fail without public engagement and a commitment to social justice the contributors challenge urban educators to become accountable to their students and the communities they serve *Monthly Catalogue, United States Public Documents*, 1984 *Moving Every*

*Child Ahead* Michael A. Rebell, 2008 Acting as a counterbalance to the current unworkable law this book proposes a more realistic way to achieve NCLB's inspiring vision by ensuring the right to meaningful educational opportunity for all students. This timely volume tackles specific provisions in NCLB head on such as the popular but impossible goal of 100% student proficiency by 2014. At last a book on No Child Left Behind that makes sense to school practitioners. All who care about the future of our public schools should read this book as soon as possible. Thomas Sobol, Former Commissioner of Education, New York State. *Moving Every Child Ahead* is an important work from two leaders in the fight to guarantee a decent education for every child. Rebell and Wolff have written a must read for everyone concerned about education reform. Senator John Edwards. Rebell and Wolff set forth compelling reasons for their recommendations and suggest specific steps that should be taken by local, state and federal education officials. Anyone who cares about improving our public schools would benefit from their thoughtful insights and suggestions for *Moving Every Child Ahead*. Richard Riley, Former U.S. Secretary of Education. Michael Rebell has long been a warrior in the fight for educational equity. I am confident this book will enrich a debate sorely in need of big ideas and a willingness to challenge traditional orthodoxies. Joel Klein, Chancellor, New York City Department of Education.

**Racism in the United States** Meyer Weinberg, 1990-05-21 This volume represents the most comprehensive book length bibliography on the subject of racism available in the United States. Compiler Meyer Weinberg has surveyed a wide ranging group of material and classified it under 87 subject headings drawing on articles, books, congressional hearings and reports, theses and dissertations, research reports and investigative journalism. Historical references cover the long history of racism while the heightened awareness and activity of the recent past is also addressed in detail. In addition to works that fit the narrow definition of racism as a mode of oppression or group denial of rights based on color, Weinberg includes references dealing with sexism, antisemitism, economic exploitation and similar forms of dehumanization. References are grouped under a series of subject headings that include Civil Rights, Desegregation, Housing, Socialism and Racism, Unemployment and Violence against Minorities. Items which do not have self explanatory titles are annotated and virtually every section is thoroughly cross referenced. Also included is one section of carefully selected references on racism in countries other than the United States. Unlike the remainder of the book, this section is not comprehensive but rather provides an opportunity to view racism comparatively. The volume concludes with an author index. This work will be a significant addition to both academic and public libraries as well as an important resource for courses in racism, sociology and black history.
