## **Equality In Law Between Men Women In T:**

*Comparative Legal Reasoning and European Law* Markku Kiikeri, 2012-12-06 Comparative Legal Reasoning and European Law deals with the use of comparative law in European legal adjudication It describes the different forms of the use of comparative law in legal reasoning argumentation and justification in several national legal orders and in European level legal institutions The book begins with an inquiry into the nature of comparative law as a legal source After the description of the empirical study it ends to the general theory of European law and several hard cases of European law are examined The book is intended for students and researchers in European law but it also contains aspects to be taken into account in the practical work in European legal orders and legal institutions by judges and legal practitioners

**The Challenge of the Threshold** Jocelyne Streiff-Fenart, Aurelia Wa Kabwe-Segatti, 2012-01-01 The recent containment policies aimed at regulating immigration flows towards Europe have profoundly altered the dynamics of migration in Africa The impact of these policies is apparent in the redefinitions of the routes itineraries and actors of migration But their effect can also be felt in migrant categories and identities and in the perceptions of migrants in the societies through which they transit or the communities which they have left behind By placing the problem of border control at the very heart of the migration issue the policies aimed at the restriction of migration flows have changed the meaning and significance of migration More than ever before both migrants and institutions in charge of border control construe migration mostly around the challenge of border crossing In the Global South the transit situation in which would be border jumpers are retained blurs the distinction between temporary migration and settlement This contributes to change in various ways the relationship to strangers from renewed forms of solidarities to the reactivation of latent xenophobic sentiment whether around the Mediterranean or en route towards South Africa the other migration hub on the continent The editors of this volume have decided to work on the notion of threshold as an operative concept for addressing the multiple dimensions of the issue the discursive and conceptual frameworks that constitute the backbone of threshold policies aiming to keep undesirables beyond borders the constitution of stopping places intermediate areas and relay towns which all represent threshold spaces that challenge local urban equilibria and the experience of liminality in which individuals caught for a time between two states as migrant on the road and as immigrant the state to which they aspire experience the typically ambiguous situations characteristic of threshold people Turner While ambitioning to innovate theoretically and methodologically the volume is above all

**Making Women Count** Kylie Stephen, 2018-02-05 This title was first published in 2000 Drawn from an international research project this study provides evidence of efforts to make law and policy making truly inclusive and discusses whether success or failure depends on the nature of the procedure or the legal and social context The book contains six case studies detailing national practice in promoting equality between the sexes and a series of general chapters which evaluate the effectiveness of individual equality strategies and the factors which contribute to their success or failure

The contributors analyze the contribution of the European Union in promoting gender equality in Europe and particular emphasis is placed on gender mainstreaming and how this strategy might be developed **Interpersonal Rhetoric in the Editorials of China Daily** Liu Lihua, 2010 Originally presented as the author's thesis doctoral Tsinghua University 2007

**Gender Politics in Turkey and Russia** Gökten Huriye Dogangün, 2019-12-26 Both Russia and Turkey were pioneering examples of feminism in the early 20th Century when the Bolshevik and Republican states embraced an ideology of women's equality Yet now these countries have drifted towards authoritarianism and the concept of gender is being invoked to reinforce tradition nationalism and to oppose Western culture Gökten Dogangün's book explores the relationship between the state and gender equality in Russia and Turkey covering the Bolshevik Revolution of 1917 and the Republican Revolution of 1923 and highlighting the very different gender climates that have emerged under the leaderships of Putin and Erdogan The research is based on analysis of legal documents statistical data and reports as well as in depth interviews with experts activists and public officials Dogangün identifies a climate of neo traditionalism in contemporary Russia and neo conservatism in contemporary Turkey and examines how Putin and Erdogan's ambitions to ensure political stability security and legitimacy are achieved by promoting commonly held family values grounded in religion and tradition The book reveals what it means to be a woman in Turkey and Russia today and covers key topics such as hostility towards feminism women's employment domestic violence motherhood and abortion Dogangün provides the first comparative study that seeks to understand the escalation of patriarchy and the decline of democracy which is being witnessed across the world Gender Perspectives in Private Law Gabriele Carapezza Figlia, Ljubinka Kovačević, Eleonor Kristoffersson, 2023-02-15 This book discusses prominent and controversial gender related issues across the fields of family law tort law labour law civil procedure law ADR and private international law An important critical assumption made by the authors is that the gender equality perspective has been largely neglected in several branches of private law since scholars researching the intersection between gender and legal studies are mostly focused on public law and human rights law In light of that the book contributes not only to the deconstruction of gender blind private law but also to the development of a gender competent analysis of the key branches of private law starting with private international law Gender perspective in family law is analyzed on the basis of gendered and heteronormative operations of family law with reference to the formation of legally recognized relationships the establishment of legal parenthood the division of marital property after a divorce and the arrangements for post separation parenting Also regulation of family matters in Indian society and the gender equality perspective from the principle of the child's best interest are considered As far as tort law is concerned the book addresses compensation for damages suffered by women performing unpaid household work Further it contains papers dedicated to the following labour law issues the genesis of labor law and its capacity to contribute either to worsening gender inequality in the world of work or to promoting gender equality gender segregation in the labour market and its connection to family friendly policies in the European Union

sexual harassment at work and the impact of work digitalization on gender related labour law issues Lastly the authors analyze gender equality in civil procedural law as well as in mediation as a tool for encouraging the peaceful settlement of disputes The book is intended to improve awareness of the wide range of private law issues that are important for understanding the ways in which gender inequality shapes everyday experiences while also presenting critical considerations of the key private law instruments for achieving gender equality

Because of Sex Gillian Thomas, 2016-03-08 Meticulously researched and rewarding to read Thomas is a gifted storyteller The New York Times Book Review Best known as a monumental achievement of the civil rights movement the 1964 Civil Rights Act also revolutionized the lives of America's working women Title VII of the law made it illegal to discriminate because of sex But that simple phrase didn't mean much until ordinary women began using the law to get justice on the job and some took their fights all the way to the Supreme Court Among them were Ida Phillips denied an assembly line job because she had a preschool age child Kim Rawlinson who fought to become a prison guard a man's job Mechelle Vinson who brought a lawsuit for sexual abuse before sexual harassment even had a name Ann Hopkins denied partnership at a Big Eight accounting firm because the men in charge thought she needed a course at charm school and most recently Peggy Young UPS truck driver forced to take an unpaid leave while pregnant because she asked for a temporary reprieve from heavy lifting These unsung heroines' victories and those of the other women profiled in Gillian Thomas' Because of Sex dismantled a Mad Men world where women could only hope to play supporting roles where sexual harassment was just the way things are and where pregnancy meant getting a pink slip Through first person accounts and vivid narrative Because of Sex tells the story of how one law, our highest court and a few tenacious women changed the American workplace forever
