Fugh,1924 **Freedom of Choice** Jim Carl,2011-09-13 This book reveals that far from being the result of a groundswell of support for parental choice in American education the origins of school vouchers are seated in identity politics religious schooling and educational entrepreneurship Inserting much needed historical context into the voucher debates Freedom of Choice Vouchers in American Education treats school vouchers as a series of social movements set within the context of evolving American conservatism The study ranges from the use of tuition grants in the 1950s and early 1960s in the interest of fostering segregation to the wider acceptance of vouchers in the 1990s as a means of counteracting real and perceived shortcomings of urban public schools The rise of school vouchers author Jim Carl suggests is best explained as a mechanism championed by four distinct groups white supremacists in the South supporters of parochial school in the North minority advocates of community schools in the nation s big cities and political conservatives of both major parties Though freedom was the rallying cry this book shows that voucher supporters had more specific goals continued racial segregation of public education tax support for parochial schools aid to urban community schools and opening up the public school sector to educational entrepreneurs **Preschool in Three Cultures Revisited** Joseph Tobin,Yeh Hsueh,Mayumi

Karasawa,2009-08-01 Published twenty years ago the original Preschool in Three Cultures was a landmark in the study of education a profoundly enlightening exploration of the different ways preschoolers are taught in China Japan and the United States Here lead author Joseph Tobin along with new collaborators Yeh Hsueh and Mayumi Karasawa revisits his original research to discover how two decades of globalization and sweeping social transformation have affected the way these three cultures educate and care for their youngest pupils Putting their subjects responses into historical perspective Tobin Hsueh and Karasawa analyze the pressures put on schools to evolve and to stay the same discuss how the teachers adapt to these demands and examine the patterns and processes of continuity and change in each country Featuring nearly one hundred stills from the videotapes Preschool in Three Cultures Revisited artfully and insightfully illustrates the surprising illuminating and at times entertaining experiences of four year olds and their teachers on both sides of the Pacific **Research in**
