symbolize Mediterranean Europe through comforting views of distant landscapes and exotic characters Taking its cue from a picturesque stage backdrop from *The Godfather Part II* Italy in Early American Cinema shows how this aesthetic was transferred from 19th century American painters to early 20th century American filmmakers Italy in Early American Cinema offers readings of early films that pay close attention to how landscape representations that were related to narrative settings and filmmaking locations conveyed distinct ideas about racial difference and national destiny Gods in Granite Robert L. McGrath,2001-03-01 Robert L McGrath leads a tour of New Hampshire s White Mountains through art and illustration spanning three centuries He surveys often at an exhilarating pace the topographic and metaphoric landscape of New Hampshire s White Mountains through the artistic and tourist life of the region as it appears in paintings and illustrations Extending from the late eighteenth to the late twentieth century he includes by far the most extensive collection of pictorial works relating to the White Mountains to date Although the scenic beauty of the White Mountains attracted many of America s most significant artists during the nineteenth and twentieth centuries such as Thomas Cole Frank Stella Winslow Homer Fernand Leger John Marin and Marsden Hartley no comprehensive account of this region s rich contribution to the history of American art has ever been published *Traveling the Pennsylvania Railroad* William Herman Rau,2002-03-26 This volume reproduces almost 100 remarkably detailed and texturally rich photographs Essays by noted historians John Stilgoe Mary Panzer and Kenneth Finkel place Rau and his work in the context of the history of American advertising and landscape photography Manufacturing the Modern Patron in Victorian California John Ott,2017-07-05 Through the example of Central Pacific Railroad executives *Manufacturing the Modern Patron in Victorian California* redirects attention from the usual art historical protagonists artistic producers and rewrites narratives of American art from the unfamiliar vantage of patrons and collectors Neither denouncing nor lionizing nor dismissing its subjects it demonstrates the benefits of taking art consumers seriously as active contributors to the cultural meanings of artwork It explores the critical role of art patronage in the articulation of a new and distinctly modern elite class identity for newly ascendant corporate executives and financiers These economic elites also sought to legitimate trends in industrial capitalism such as mechanization incorporation and proletarianization through their consumption of a diverse array of elite culture including regional landscapes panoramic and stop motion photography history paintings of the California Gold Rush the architecture of Stanford University and the design of domestic galleries This book addresses not only readers in the art history and visual and material cultures of the United States but also scholars of patronage studies American Studies and the sociology of culture It tells a story still relevant to this new Gilded Age of the early 21st century in which wealthy collectors dramatically shape contemporary art markets and institutions **The Cultural Work of Photography in Canada** Carol Payne,Andrea Kunard,2011-08-31 *The Cultural Work of Photography in Canada* is an in depth study on the use of photographic imagery in Canada from the late nineteenth century to the present This volume of fourteen essays provides a thought provoking

discussion of the role photography has played in representing Canadian identities In essays that draw on a diversity of photographic forms from the snapshot and advertising image to works of photographic art contributors present a variety of critical approaches to photography studies examining themes ranging from photography's part in the formation of the geographic imaginary to Aboriginal self identity and notions of citizenship The volume explores the work of photographs as tools of self and collective expression while rejecting any claim to a definitive singular telling of photography's history Reflecting the rich interdisciplinarity of contemporary photography studies *The Cultural Work of Photography in Canada* is essential reading for anyone interested in Canadian visual culture Contributors include Sarah Bassnett University of Western Ontario Lynne Bell University of Saskatchewan Jill Delaney Library and Archives Canada Robert Evans Carleton University Sherry Farrell Racette University of Manitoba Blake Fitzpatrick Toronto Metropolitan University Vincent Lavoie Université du Québec Montréal John O'Brien University of British Columbia James Opp Carleton University Joan M Schwartz Queen's University Sarah Stacy Library and Archives Canada Jeffrey Thomas Ottawa and Carol Williams Trent University University of Lethbridge

*Picturing a Different West* Janis P. Stout, 2007 *Picturing a Different West* addresses Willa Cather and Mary Austin as central figures in a women's tradition of the pictured West Both Cather and Austin moved west in their youth and spent much of their lives there Cather lived on the Great Plains while Austin resided in California and the Southwest Cather's travels repeatedly took her to the Southwest and she wrote three novels with Southwestern settings Starting with the masculine tradition of Western art that was prevalent when Austin and Cather launched their careers Janis P Stout shows how the authors challenged and revised that tradition Rather than a West of adventure violence and conquest open only to rugged and daring men the authors envisioned a new West not conventionally feminine so much as an androgynous space of freedom for women and men alike Their vision of an alternative West and their alternative ways of thinking about and portraying gender are inseparable Placing Cather and Austin alongside contemporaries Elsie Clews Parsons Mabel Dodge Luhan Georgia O Keeffe and Laura Gilpin Stout emphasizes the visual nature of Austin's and Cather's personal experiences of the West and Southwest their awareness of the prevailing visual representations of the West and the visual nature of their books about the West with respect to both prose style and illustrations In closing Stout demonstrates the continuance of their tradition in illustrated western books by Leslie Marmon Silko and by Margaret Randall and Barbara Byers

*Photography and Its Origins* Tanya Sheehan, Andres Zervigon, 2014-11-20 Recent decades have seen a flourishing interest in and speculation about the origins of photography Spurred by rediscoveries of first photographs and proclamations of photography's death in the digital age scholars have been rethinking who and what invented the medium *Photography and Its Origins* reflects on this interest in photography's beginnings by reframing it in critical and specifically historiographical terms How and why do we write about the origins of the medium Whom or what do we rely on to construct those narratives What's at stake in choosing to tell stories of photography's genesis in one way or another And what kind of work can those stories do Edited by Tanya Sheehan and Andr s Mario Zervig n this collection of 16 original essays illustrated with 32 colour images showcases prominent and emerging voices in the field of photography studies Their research cuts across disciplines and methodologies shedding new light on old questions about histories and their writing *Photography and Its Origins* will serve as a valuable resource for students and scholars in art history visual and media studies and the history of science and technology
