

THE IDEA OF THE FRENCH REVOLUTION

by
Louis R. Gottschalk

A brilliant presentation of that era - history preceding and during the French Revolution and the Napoleonic is now a series of separate articles, from new and progressive accounts, based upon recent findings of foreign and American.

Era of the French Revolution (1715-1815) Louis Reichenthal Gottschalk, 1979

Historicizing the French Revolution Antonino De Francesco, 2022-03-24 This book provides a critical examination of over 300 historical works about the French Revolution published in Europe in particular in France Great Britain Germany Italy and Russia as well as in the United States between 1789 and 1989 It also goes on to examine recent trends in French Revolution historiography and consider where histories of this landmark event may go in the future By emphasizing the elements which have been valued or hidden exalted or silenced Historicizing the French Revolution shows how reflections on 1789 are always fundamentally tied to the times in which they are formulated Antonino De Francesco looks at the ways in which these historical accounts can be seen to support and at times contrast with the formation of political modernity both in national and international contexts as it has taken shape in the hundreds of years that have followed this key moment in world history

The French Revolution George F. E. Rudé, 1991 Tells of the causes the history and the legacy of the French Revolution from a two hundred year perspective

George Washington's First War David A. Clary, 2011-01-11 Renowned historian David A Clary studies George Washington s early military career as a young colonel during the French and Indian War and how those campaigns influenced his leadership and strategy as a general during the Revolutionary War and as the first president of the newly formed United States of America The searing formative military adventures of the inexperienced boy colonel of the French and Indian War who grew up to become one of the great soldier statesmen of his age George Washington wasn t born a military leader He became one the hard way through trial and error and perseverance at a very early age and in the most trying circumstances imaginable From the massacre of a French diplomatic party by soldiers under his command thereby starting a world war to his surrendering of Fort Mifflin to the French to his leading a harrowing retreat of British troops under fire we see Washington learn the lessons of command George Washington s First War is a story told in vivid language combining dramatic depictions of battle with the anxieties and frustrations of an adolescent who s not yet a great man Readers learn of harrowing ordeals in the wilderness the hitherto little explored role played by the Indian nations whose continent this was and the epic clash of empires that all combined to turn the young Washington into the great commander and president of his age

Standard Catalog for Public Libraries H.W. Wilson Company, 1929

Scotland and the French Revolutionary War, 1792-1802 Atle Wold, 2015-07-07 For the British government s supporters in Scotland in the 1790s one thing was paramount they were fighting French principles in any shape or form they might take Whether this meant defeating the influence of French revolutionary ideas in Scotland or

defeating the military menace of the French republic they were determined to stand firm in their support of the British state. This book charts the Scottish contribution to both the war effort of the 1790s and the British governments struggles to defeat political radicalism at home lasting from the first outbreak of political disturbances in Scotland in 1792 until the French revolutionary war came to an end in 1802. In this the Scots made their very distinct mark in terms of recruitment for armed service demonstrations of loyalty and prosecutions against political radicals in the law courts but perhaps less so in terms of their financial contributions. The government of Scotland was further integrated into the British state in a structural sense over the course of the decade yet retained many distinctly Scottish features none the less and on the whole the 1790s comes across as a time when the Scots found little difficulty in seeing themselves as both British and Scottish.

The Lion at Dawn Nathaniel Jarrett, 2022-09 In February 1793 in the wake of the War of American Independence and one year after British prime minister William Pitt the Younger had predicted fifteen years of peace the National Convention of Revolutionary France declared war on Great Britain and the Netherlands France thus initiated nearly a quarter century of armed conflict with Britain During this fraught and still contested period historian Nathaniel Jarrett suggests Pitt and his ministers forged a diplomatic policy and military strategy that envisioned an international system anticipating the Vienna settlement of 1815 Examining Pitt s foreign policy from 1783 to 1797 the years before and during the War of the First Coalition against Revolutionary France Jarrett considers a question that has long vexed historians Did Pitt adhere to the blue water school imagining a globe trotting navy or did he favor engagement nearer to shore and on the European Continent And was this approach grounded in precedent or was it something new While acknowledging the complexities within this dichotomy The Lion at Dawn argues that the prime minister consistently subordinated colonial to continental concerns and pursued a new vision rather than merely honoring past glories Deliberately not simply in reaction to the French Revolution Pitt developed and pursued a grand strategy that sought British security through a novel collective European system one ultimately realized by his successors in 1815 The Lion at Dawn opens a critical new perspective on the emergence of modern Britain and its empire and on its early effort to create a stable and peaceful international system an ideal debated to this day

Enduring Controversies in Military History

Spencer C. Tucker, 2017-09-21 This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events Why did Alexander the Great's empire fall apart so soon after his death How did France win the Hundred Years War despite England winning its major battles Was slavery the primary cause of the American Civil War Would it have benefited the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates

Decoding **Era Of The French Revolution 1715 1815**: Revealing the Captivating Potential of Verbal Expression
