Scholarly Self-Fashioning and Community in the Early Modern University Richard Kirwan, 2016-04-01 A greater fluidity in social relations and hierarchies was experienced across Europe in the early modern period a consequence of the major political and religious upheavals of the sixteenth and seventeenth centuries At the same time the universities of Europe became increasingly orientated towards serving the territorial state guided by a humanistic approach to learning which stressed its social and political utility It was in these contexts that the notion of the scholar as a distinct social category gained a foothold and the status of the scholarly group as a social elite was firmly established University scholars demonstrated a great energy when characterizing themselves socially as learned men This book investigates the significance and implications of academic self fashioning throughout Europe in the early modern period It describes a general and growing deliberation in the fashioning of individual communal and categorical academic identity in this period It explores the reasons for this growing self consciousness among scholars and the effects of its expression social and political desired and real

Thomas More's Vocation Frank Mitjans, 2023-01-31 The book considers Thomas More's early life choices An early letter is cited by biographers but most miss More's reference to the market place More's great grandson Cresacre a Londoner understood it correctly and that gives reason to trust him on other aspects of More's youth This study is based on early testimonies those of Erasmus Roper Harpsfield Stapleton and Cresacre More as well as More's early writings the Pageant Verses and his additions omissions to the Life of Pico evidence drawn from authors he recommended like Hilton and Gerson and finally his epitaph Attention is given to his lectures on St Augustine's City of God and to St John Chrysostom It is argued More studied Chrysostom's Homilies on the Gospel of St Matthew from a Greek manuscript Chrysostom in the introductory homily spoke of the city and the market place as the setting in which Christians practice the teaching of Christ More practiced law and taught it He was attracted to becoming a Christian humanist alongside Grocyn Colet Linacre and Lily With them he studied Greek the classics and Fathers of the Church Helped by them he became a man of prayer aware of the need to seek holiness in the midst of the world as a layman Faced with the dilemma of the humanist in choosing between the contemplative life of the philosopher and

an active life of engagement with the world he deliberately chose the active life in service to society and the contemplative life of the Christian as a married man This awareness and choice is what is called vocation implying determination to persevere throughout life More saw his life as a pilgrimage towards heaven as described in the last chapter focusing on More's last work *De tristitia tedio pavore et oratione christi ante captionem eius* *Humanism and the Reform of Sacred Music in Early Modern England* Hyun-Ah Kim, 2016-05-13 John Merbecke c 1505 c 1585 is most famous as the composer of the first musical setting of the English liturgy *The Booke of Common Praier Noted* BCPN published in 1550 Not only was Merbecke a pioneer in setting English prose to music but also the compiler of the first Concordance of the whole English Bible 1550 and of the first English encyclopaedia of biblical and theological studies *A Booke of Notes and Common Places* 1581 By situating Merbecke and his work within a broader intellectual and religious cultural context of Tudor England this book challenges the existing studies of Merbecke based on the narrow theological approach to the Reformation Furthermore it suggests a rethinking of the prevailing interpretative framework of Reformation musical history On the basis of the new contextual study of Merbecke this book seeks to re-interpret his work particularly BCPN in the light of humanist rhetoric It sees Merbecke as embodying the ideal of the Christian musical orator demonstrating that BCPN is an Anglican epitome of the Erasmian synthesis of eloquence theology and music The book thus depicts Merbecke as a humanist reformer through re-evaluation of his contributions to the developments of vernacular music and literature in early modern England As such it will be of interest not only to church musicians but also to historians of the Reformation and students of wider Tudor culture Jewish Books and their Readers Scott Mandelbrote, Joanna Weinberg, 2016-05-23 *Jewish Books and their Readers* discusses the transformative effect of the circulation and readership of sacred and secular texts written by Jews on Christian as well as Jewish readers in early modern Europe Its twelve essays challenge traditional paradigms of Christian Hebraism and undermine simplistic visions of the unchanging nature of Jewish cultural life They ask what constituted a Jewish book how it was presented disseminated and understood within both Jewish and Christian environments and how its meanings were contested and what effect such understanding had on contemporary views of Jews and their intellectual heritage They demonstrate how the involvement of Christians in the production and dissemination of Jewish books played a role in the shaping of the intellectual life of Jews and Christians Contributors are Michela Andreatta Andrew Berns Theodor Dunkelgr n Federica Francesconi Anthony Grafton Alessandro Guetta William Horbury Yosef Kaplan Scott Mandelbrote Piet van Boxel Joanna Weinberg Benjamin Williams *Preachers and People in the Reformations and Early Modern Period* Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre-modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all

encompassing study of preaching in the Reformations and early modern period in Europe. They do, however, provide new insights on Catholic, Lutheran, and Reformed preaching in Western and Central Europe. Part One examines changes in sermon structure, style, and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles. Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations. Lutheran homiletic theory is traced from Luther and through Melancthon to the intention of the sermon being to transform the worship service based on exegesis of Scripture. In Reformed worship, the expository sermon, often given on a daily basis with a continuing exegesis, was designed to communicate the tenets of the faith in terms that the laity could understand in plain style. Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked; in Italy where preaching became a collective and home-grown product; in early modern Germany where the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian; in Switzerland where leaders from Zwingli on sought to bring religious practice, conduct, and government in line with biblical teaching and propagated a pastoral vision of preaching; in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill-prepared for the task; in Scandinavia where post-Reformation sermons have a clear didactic aim, teaching obedience to the authorities; and in the Low Countries characterized by its numerous denominations, all with their own churches and particular practices in terms of preaching. The volume ends with a consideration of the influence of late medieval preaching on the Reformation, concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran/Reformed message in a given country.

A Companion to the Reformation in Central Europe Howard Louthan, Graeme Murdock, 2015-09-17. *A Companion to the Reformation in Central Europe* analyses the diverse Christian cultures of the Polish-Lithuanian Commonwealth, the Czech lands, Austria, and lands of the Hungarian kingdom between the 15th and 18th centuries. It establishes the geography of Reformation movements across this region and then considers different movements of reform and the role played by Protestant, Catholic, and Orthodox clergy. This volume examines different contexts and social settings for reform movements and investigates how cities, princely courts, universities, schools, books, and images helped spread ideas about reform. This volume brings together expertise on diverse lands and churches to provide the first integrated account of religious life in Central Europe during the early modern period.
