**Legacies of Childhood** Jon L. Saari, 2020-03-17 Jon L. Saari defines the generation of educated Chinese born around the turn of the twentieth century as the last to have the world of Confucian learning etched into their memories as schoolboys yet the first as a group to confront the intrusive Western world The legacies of growing up in a changing environment deeply affected this generation's responses to the further changes in the world they confronted as adults In the collapse of the Ch'ing dynasty and the chaos of the early twentieth century traditional ideas of the self the nature of relationships in society and ethical behavior had to be reexamined and redefined To

reconstruct what those who lived through and shaped this extraordinary period felt needed thought and became as children and adults Saari draws on autobiographical writings and his own interviews among the elderly on Taiwan and Hong Kong He interprets this material within its Chinese context but brings Western sociological anthropological and psychological insights to bear on it

**Political Psychology** Paul Roazen, 2018-02-06 Over the centuries all of the great philosophers made psychology central to understanding social life. Indeed the ancient Greeks thought it impossible to conceive of political life without insight into the human soul. Yet insufficient professional legitimization attaches to the central importance of modern depth psychology in understanding politics. *Cultural Foundations of Political Psychology* explores the linkages between psychology and politics focusing on how rival conceptions of the good life and unspoken moral purposes in the social sciences have led to sectarian intolerance. Roazen has always approached the history of psychoanalysis with the conviction that ethical issues are implicit in every clinical encounter. Thus his opening chapter on Erich Fromm's exclusion from the International Psychoanalytic Association touches on a host of political matters including collaboration as opposed to resistance to Nazi tyranny. Roazen also brings a public-private perspective to such well-known episodes as the Hiss-Chambers case, the circumstances of Virginia Woolf's madness and suicide, and the matter of CIA funding of the *Encounter*. He deals with the reaction to psychoanalysis on the part of three major philosophers: Althusser, Wittgenstein, and Buber, and looks at the link between psychology and politics in the work of such political theorists as Machiavelli, Rousseau, Burke, Tocqueville, Berlin, and Arendt. A chapter grappling with Vietnam and the Cold War illustrates how political psychology should be concerned with questions of an ethical or ought character. In examining the social and psychological bases for political theorizing, Roazen shows how both psychology and politics must change and redefine their methodologies as a result of their interaction. Roazen concludes with a chapter on how political psychology must deal with issues posed by changing conceptions of femininity. This volume is a pioneering exploration of the intersection of psychology and politics.

#### **Jean Paton and the Struggle to Reform**

**American Adoption** E. Wayne Carp, 2014 Adoption activist Jean Paton 1908-2002 fought tirelessly to reform American adoption, dedicating her life to overcoming American society's prejudices against adult adoptees and women who give birth out of wedlock. From the 1950s until the time of her death, Paton wrote widely and passionately about the adoption experience, corresponded with policymakers as well as individual adoptees, promoted the psychological well-being of adoptees, and facilitated reunions between adoptees and their birth parents. She also led the struggle to re-open adoption records, creating a national movement that continues to this day. While open adoption is often now the rule for adoptions within the United States, for those in earlier eras adopted in secrecy, the records remain sealed; many adoptees live and die without vital information that should be a birthright, and birth parents suffer a similar deprivation. At this writing, only seven of fifty states have open records. Kansas and Alaska have never closed theirs. E. Wayne Carp's masterful biography of Jean Paton brings this neglected civil rights pioneer and her accomplishments into the light. Paton's ceaseless activity created the preconditions for the explosive emergence of the adoption reform movement in the 1970s. She founded the Life History Study Center and Orphan Voyage and was also instrumental in forming two of the movement's most vital organizations: Concerned United Birthparents and the American Adoption Congress. Her unflagging efforts over five decades helped reverse social workers

harmful policy and practice concerning adoption and sealed adoption records and change lawmakers enactment of laws prejudicial to adult adoptees and birth mothers struggles that continue to this day Read more about Jean Paton at <http://jeanpaton.com>

**Positive Psychology Across the Lifespan** Piers Worth, 2022-02-22 Positive Psychology Across the Life Span provides an insight into how we are affected by the different stages of adult development and gives us the opportunity to change through choice rather than leaving change to chance The science of positive psychology offers a wealth of research and evidence based interventions and shares insights into which habits and behaviours contribute to how to live a flourishing life This book aims to extend that knowledge by introducing and incorporating key aspects of existential and humanistic psychology and explores positive psychology with a lifespan perspective It goes beyond theory to look at practical application with insightful reflective questions Whilst acknowledging the differences and disagreements between some of the key figures in the subject areas of the book it seeks to highlight the areas where there is agreement and congruence which have been previously overlooked or ignored The book will be essential reading for students and practitioners of positive psychology as well as other mental health professionals
