**Postcommunism and the Body Politic** Ellen E. Berry, 1995-07 The epidemic of mass rape in the former Yugoslavia has illustrated once again and in particularly brutal fashion the inextricable relationship between national politics sexual politics and body politics The nexus of these three forces is highly charged in any culture at any time in history but especially so among cultures in which rapid even cataclysmic changes in material realities and national self conceptions are eroding or overwhelming previously secure boundaries The postcommunist moment in the so called Second World Central and Eastern Europe and the former Soviet Union has dramatically exposed the opportunities and dangers that arise when the political cultural and economic foundations of a society are destroyed and then restructured Gender roles and relations expressions of sexuality or attempts to recontain them representations of the body especially the female body and the larger cultural meanings it assumes are particularly marked sites to witness the performance of complex national dramas of crisis and change This groundbreaking volume turns its attention to the Second World specifically to such subjects as the birth of the sex media and porn industry in Russia Russian women and alcoholism cinema in post communist Hungary patriotism and gender in Poland sexual dissidence in Eastern Europe and women in the former Yugoslavia go to the Genders website Die poetische Konstruktion des Selbst Marion Schmaus, 2010-11-05 Die Studie untersucht fröhromantische Individualitätskonzepte und ihre Aktualität in Literatur und Philosophie der sthetischen Moderne nach 1945 Ausgehend von Novalis philosophischen Reflexionen zur intersubjektiven Verfächeltheit des Ich wird die poetische Konstruktion des Selbst in seinem literarischen Werk herausgearbeitet Ein zentrales Problem der Subjektivitätstphilosophie die Vermittlung von Gefühl und Gedanke wird hier in

Motiven der Zweigeschlechtlichkeit des Ich des Traumbewusstseins sowie der Liebesutopie verhandelt und in eine Ethik der Lebenskunst überführt. Diese Verbindung von Philosophie und Literatur, Ethik und Ästhetik ist Kennzeichen der Romantik-Rezeption nach 1945. Dies wird exemplarisch anhand der Werke Ingeborg Bachmanns, Christa Wolfs und Michel Foucaults gezeigt. Das Interesse der Autorinnen gilt der Unterscheidung der Geschlechteropposition in der Frühromantik. Bei Foucault werden ästhetische Widerstandspraktiken im Blick auf die moderne Pluralisierung von Diskursen und Machtformationen entwickelt. Die Arbeit weist sowohl die Novalis-Rezeption der genannten Autorinnen und Autoren nach als auch die produktive Fortentwicklung seiner Konzeption unter den Bedingungen einer Literatur und Ethik nach Auschwitz.
