Jung, 2007 *Erinnerungen, Träume, Gedanken von C. G. Jung* Carl Gustav Jung, 1976 *The Descent of the Soul and the Archaic* Paul Bishop, Terence Dawson, Leslie Gardner, 2022-09-30 The Descent of the Soul and the Archaic explores the motif of katabasis a descent into an imaginal underworld and the importance it held for writers from antiquity to the present with an emphasis on its place in psychoanalytic theory This collection of chapters builds on Jung's insights into katabasis and nekylia as models for deep self descent and the healing process which follows The contributors explore ancient and modern notions of the self as obtained through a descent to a deeper level of imaginal experience With an awareness of the difficulties of applying contemporary psychological precepts to ancient times the contributors explore various modes of self formation as a process of discovery Presented in three parts the chapters assess contexts and texts goddesses and theoretical alternatives This book will be of interest to scholars and analysts working in wide ranging fields including classical studies all schools of psychoanalysis especially Jung's and postmodern thought especially the philosophy of Deleuze

articulated and co implicated constitutes the core question underlying this edited collection which examines both the present day and antiquity in order to trace the insistent presence of the ecstatic amid the archaic Presented in three parts the contributors to this diverse book take the concept of the archaic in an entirely new direction Part I Ecstasy and the psychological covers topics including Jung Freud ancient psychotherapy desire and theatre Part II Ecstatic archaic history considers Ludwig Klages Orestes and Dionysus Finally Part III Ancient ecstatic in other worlds examines Luo Guanzhong's Three Kingdoms and Enki at Eridu The collection offers a distinctive contextualisation of the dimension of the archaic in relation to the ecstatic experience The Ecstatic and the Archaic will appeal to readers interested in the relationship between ancient and postmodern worlds and in how the past manifests itself in the present It will be of great interest to academics and students of Jungian and post Jungian ideas classical religions and the history of ideas as well as practitioners of analytical psychology and psychoanalysis

The Absolute Shadow Elena Caramazza, 2022-11-29 This book explores Jung's central concept of shadow from a particular configuration that the author calls Absolute Shadow placing it in relation to the idea of destiny as catastrophic Clinically based and supported by a vast number of therapy cases the book exemplifies how the Absolute Shadow is a result of the projection of the most fragile and destructive parts of one's psyche In some cases it may cause loss of identity and through the mechanisms of false double personality is bound to result in psychosis Other aspects of the Shadow like the intergenerational shadow are also examined in depth The Absolute Shadow is the well informed result of Caramazza's fifty years of study and clinical experience It is important reading for Jungian and depth psychologists as well as for psychoanalytic students trainees and clinicians of all schools of thought

On the Trail of the Morning Star Dorothea Buck, 2024-05-15 Heinrich Zimmer Margaret Case, 2014-07-14 Heinrich Zimmer 1890-1943 is best known in the English speaking world for the four posthumous books edited by Joseph Campbell and published in the Bollingen Series *Myths and Symbols in Indian Art and Civilization* *Philosophies of India* *The Art of India* and *The King and the Corpse* These works have inspired several generations of students of Indian religion and culture All the papers in this volume testify to Zimmer's originality and to his rightful place in that small group of great scholars who were part of the first generation to confront the end of European empires in India and the rest of Asia In her introduction Margaret Case contrasts Zimmer's approach to India with that of Jung There follow two recollections of Zimmer one by his daughter Maya Rauch the other by a close friend and supporter in Germany Herbert Nette Then William McGuire describes Zimmer's connections with Mary and Paul Mellon and with the Jungian circles in Switzerland and New York A brief talk by Zimmer previously unpublished describes his admiration for Jung Wendy Doniger picks up the question of Zimmer's intellectual legacy especially in the light of Campbell's editorial work on his English publications Gerald Chapple raises another question about how his influence was felt the division between what is known of his work in the German and the English speaking worlds Kenneth Zysk then summarizes and analyzes his contribution to Western knowledge of Hindu medicine Matthew Kapstein

evaluates his place in the West's appreciation of Indian philosophy and Mary Linda discusses his contributions to the study of Indian art in the light of A K Coomaraswamy's work and more recent research Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Myth of Disenchantment Jason A. Josephson-Storm, 2017-05-18 This study of the early human sciences and their deep connections to spiritualism dispenses with the myth that separates magic and modernity Many theorists contend that the defining feature of modernity is our collective loss of faith in spirits myths and magic But in *The Myth of Disenchantment* Jason A Josephson Storm argues against this narrative showing that attempts to suppress magic have failed more often than not Even the human sciences have been more enchanted than is commonly supposed But that raises the question How did a magical spiritualist mesmerized Europe ever convince itself that it was disenchanted Josephson Storm traces the history of the myth of disenchantment in the births of philosophy anthropology sociology folklore psychoanalysis and religious studies He demonstrates that the founding figures of these mythless disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain France and Germany It was in response to this milieu that they produced notions of a disenchanted world By providing a novel history of the human sciences and their connection to esotericism *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past

Esotericism in Western Culture Wouter J. Hanegraaff, 2025-05-29 This accessible introduction by the world's leading expert explains why the study of esotericism is not a marginal pursuit but belongs at the center of modern research in the humanities Reflecting updates in the field since the foundational publication *Western Esotericism A Guide for the Perplexed* 2013 Wouter J Hanegraaff demonstrates that the exclusion of rejected knowledge from normative accounts of Western civilization is the reflection of a narrow Eurocentric ideology that became the template for discrediting and ultimately destroying so called primitive cultures associated with superstition and pagan idolatry during the global colonial age Rejecting this rejection of rejected knowledge means restoring the suppressed to its legitimate place in history and cultural analysis Through this approach Wouter J Hanegraaff depicts a radically inclusive vision of the Greater West and its forgotten histories from pagan antiquity through Jewish Christian and Islamic cultures up to secular modernity and beyond

Erinnerungen, Träume, Gedanken von C.G. Jung Aniela Jaffe, 1977 **What Is it Like to Be Dead?** Jens Schlieter, 2018-08-06 What is it Like to be Dead offers the first full account of the modern genealogy of near death experiences focusing on the functions of these experiences in the religious field of Western modernity Emerging as autobiographical narratives they were used in Christian esoteric and spiritist occult traditions as substantial proof for the

survival of death or the claim that the soul is able to leave the body Now widely disseminated they serve functions ranging from reassurance that religious experience is still possible to evidence for the transcultural validity of afterlife beliefs
