Erinnerungen Eines Schauspielers:

Erinnerungen eines Schauspielers Bernhard Minetti, 1985 **Theatre Under the Nazis** John London, 2000 Were those who worked in the theatres of the Third Reich willing participants in the Nazi propaganda machine or artists independent of official ideology To what extent did composers such as Richard Strauss and Carl Orff follow Nazi dogma How did famous directors such as Gustaf Gr dgens and J rgen Fehling react to the new regime Why were Shakespeare and George Bernard Shaw among the most performed dramatists of the time And why did the Nazis sanction Jewish theatre This is the first book in English about theater in the entire Nazi period The book is based on contemporary press reports research in German archives and interviews with surviving playwrights actors and musicians Shakespeare on the German Stage: Volume 2, The Twentieth Century Wilhelm Hortmann, Michael Hamburger, 1998-05-28 Shakespeare has been a central figure in German literature and theatre This book tells the story of Shakespeare in the German speaking theatre against the background of German culture and politics in the twentieth century It follows the earlier volume by Simon Williams on the reception of Shakespeare during the previous 300 years Shakespeare on the German Stage 1586 1914 Hortmann concentrates on the two most important and fruitful periods the years of the Weimar Republic 1919 1933 and the turbulent decades of the sixties and seventies when the German theatre was revitalised by a stormy marriage of avant garde art and revolutionary politics A section by Maik Hamburger covers developments in the theatres of the German Democratic Republic Hortmann focuses on the most representative and colourful directors and actors describing and illustrating individual productions as examples of particular trends or movements Culture in Nazi Germany Michael H. Kater, 2019-05-21 A fresh and insightful history of how the German arts and letters scene was transformed under the Nazis Culture was integral to the smooth running of the Third Reich In the years preceding WWII a wide variety of artistic forms were used to instill a Nazi ideology in the German people and to manipulate the public perception of Hitler s enemies During the war the arts were closely tied to the propaganda machine that promoted the cause of Germany s military campaigns Michael H Kater s engaging and deeply researched account of artistic culture within Nazi Germany considers how the German arts and letters scene was transformed when the Nazis came to power With a broad purview that ranges widely across music literature film theater the press and visual arts Kater details the struggle between creative autonomy and political control as he looks at what became of German artists and their work both during and subsequent to Nazi rule Popular Cinema of the Third Reich Sabine Hake, 2010-01-01 Too often dismissed as escapist entertainment or vilified as mass manipulation popular cinema in the Third Reich was in fact sustained by well established generic conventions cultural traditions aesthetic sensibilities social practices and a highly developed star system not unlike its Hollywood counterpart in the 1930s This pathfinding study contributes to the ongoing reassessment of Third Reich cinema by examining it as a social cultural economic and political practice that often conflicted with contradicted and compromised the intentions of the Propaganda Ministry Nevertheless by providing the

illusion of a public sphere presumably free of politics popular cinema helped to sustain the Nazi regime especially during the war years Rather than examining Third Reich cinema through overdetermined categories such as propaganda ideology or fascist aesthetics Sabine Hake concentrates on the constituent elements shared by most popular cinemas famous stars directors and studios movie audiences and exhibition practices popular genres and new trends in set design the reception of foreign films the role of film criticism and the representation of women She pays special attention to the forced coordination of the industry in 1933 the changing demands on cinema during the war years and the various ways of coming to terms with these filmic legacies after the war Throughout Hake s findings underscore the continuities among Weimar Third Reich and post 1945 West German cinema They also emphasize the codevelopment of German and other national cinemas especially the dominant Hollywood model **Erinnerungen eines Schauspielers** Bernhard Minetti,1988 Freundschaftliche
