Eritrea and Ethiopia Amare Tekle,1994 Essays addressing the prospects and problems in the process of creating a single integrated community in the Horn of Africa *Eritrea and Ethiopia* Tekie Fessehazion (Professor of Economics and chair of the Department of Economics at Morgan State University, Maryland, USA (1998). Ph. D. University of Pittsburgh, Pennsylvania, USA. He was a member of the Constitutional Commission of Ethiopia.),1999 The Horn of Africa since the 1960s Aleksí Ylönen,Jan Záhorký,2017-02-17 The Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science *International Third World Studies Journal & Review* ,2001 **The Crisis of Democratization in the Greater Horn of Africa** Kidane Mengisteab,2020 Analyses the structural and institutional obstacles to democratization in transitional societies fractured societies fragmented economies and institutions of governance weak or deformed state structures and how to overcome these **Understanding Ethiopia's Tigray War** Martin Plaut,Sarah Vaughan,2023-02-16 The war in Ethiopia s northern region of Tigray began in November 2020 It inflicted more casualties than any other contemporary conflict in the world It has also been among the least understood The fighting and accompanying blockade led to an estimated 600 000 deaths more than the number who died in the 1984 5 famine International journalists were banned as the region was sealed off from the outside world by Ethiopian and Eritrean governments prosecuting a strategy designed to crush Tigray at almost any cost Hatred of Tigrayans was stoked by senior advisers to Ethiopia s Prime Minister Abiy Ahmed they have called Tigrayans weeds who must be uprooted their place in history extinguished Their language was reminiscent of that which preceded the genocide in Rwanda The war was also orchestrated by Eritrea s President Isaias Afwerki who came to wield increasing influence over Ethiopian affairs It drew in Somali troops as well as Eritrean forces Peace agreements signed in November 2022 ended the worst of the violence but without resolving the war s underlying drivers which continue to feed a tense and uncertain situation This book provides the first clear explanation of the factors that led to the conflict unravelling their roots in Ethiopia s long and complex history It describes the battles that were fought at such terrible cost and the immense suffering particularly of women who were brutally abused The Use of Force in International Law Tom Ruys,Olivier Corten,Alexandra Hofer,2018-04-26 The

international law on the use of force is one of the oldest branches of international law. It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide. The number of armed conflicts is equal only to the number of methodological approaches used to describe them. Many violent encounters are well known. The Kosovo Crisis in 1999 and the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text. Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril. Ruys and Corten's expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question: How much authority does the power of precedent really have in the law of the use of force.

The Horn of Africa since 2018 Jan Záhorský, Aleksi Ylönen, 2025-04-15 This book takes stock of developments in the Horn of Africa since 2018, a key time of political turbulence marked by revolution, military coups and civil war, as well as alliances, peace deals, reforms and reconciliation processes. Bringing together a group of experienced and younger scholars from the Horn of Africa and Europe, the book investigates the various multi-layered and intertwined factors and consequences of political developments in Ethiopia, Eritrea, Sudan, South Sudan, Djibouti and Somalia. The authors investigate the endemic political instability across much of the Horn of Africa while also reflecting on political continuities and transformations including attempts at peace and state building. They consider the important role of regional organizations and intra and extra regional actors in the domestic politics of the states in the Horn of Africa. The book concludes with a section focusing on the prospects for reform and conflict resolution in the context of shifting regional power relations. This book will be an important resource for researchers working on contemporary politics, history and society in the Horn of Africa.

The Neighbours of the European Union's Neighbours Sieglinde Gstöhl, Erwan Lannon, 2016-02-24 Should the European Neighbourhood Policy stop at the borders of the European Union's immediate neighbouring countries? This book is the first full length study of the neighbours of the EU's neighbours, a concept originally introduced by the European Commission with reference to Saharan Africa, the Middle East and Central Asia. These regions in the EU's broader neighbourhood are often perceived as an arc of crisis from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might

help promote security stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy How can the EU create bridges between these regions What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation One of the conclusions is the suggestion to consider a pragmatic EU Strategy for the Neighbours of its Neighbours which addresses the needs of the broader EU neighbourhood in a more systematic and consistent manner and helps transform in the long run the arc of crisis into another ring of friends
