Ernst Troeltsch His Life And Work:

Ernst Troeltsch Hans-Georg Drescher, 1992 Ernst Troeltsch who was born in 1865 and died suddenly and prematurely in 1923 on the eve of a visit to Britain is undoubtedly one of the most important theologians and philosophers of the twentieth century Having suffered a loss of prestige with the eclipse of liberal theology after his death and the predominance of Karl Barth in a world overshadowed by Nazi Germany and the Second World War he has now come into his own again so that this first full length biography is particularly welcome Hans Georg Drescher traces Troeltsch's life from his birth in Augsburg distinguished university career and meteoric rise to be professor of theology in Bonn through his twenty year activity as professor of theology in Heidelberg to his final change of faculty and appointment as professor of philosophy in Berlin In connection with each major period of Troeltsch's life he analyses Troeltsch's major theological and philosophical work much of which has never been translated and the impact of his study is heightened by a series of contemporary photographs Here then is a vivid picture not only of the thinker who was virtually the first to tackle on a broad front the many problems for religious belief and practice raised by the rise of the modern historical consciousness and the relativity that goes with it but also of German university life in all its facets before during and immediately after the First World War Hans Georg Drescher is Professor of Protestant Theology in the University of Dortmund

Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism

Kantian Reason and Hegelian Spirit Gary Dorrien, 2015-03-16 Winner 2012 The American Publishers Award for Professional and Scholarly Excellence in Theology and Religious Studies PROSE Award In this thought provoking new work the world renowned theologian Gary Dorrien reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Presents a radical rethinking of the roots of modern theology Reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Shows how it took Kant's writings on ethics and religion to launch a fully modern departure in religious thought Dissects Kant's three critiques of reason and his moral conception of religion Analyzes alternative

arguments offered by Schleiermacher Schelling Hegel and others moving historically and chronologically through key figures in European philosophy and theology Presents notoriously difficult and intellectual arguments in a lucid and accessible manner

Critical Theory and Political Theology Paul S. Chung, 2019-05-02 This book deals with the aftermath of the enlightenment and its legacy in the political social and racial context It discusses the incomplete project of modernity in terms of social contract theory racial justice issues and political theology in the postcolonial context Hermeneutical realism and cultural linguistic inquiry become substantial features in elaborating postcolonial political theology and its ethical stance against the colonization of lifeworld and its pathologies A study of critical theory and political theology is of a reconstructive character in seeking to relocate critical theory and political ethics in the context of alternative modernities at the level of postcolonial theory

Theology at War and Peace Mark D. Chapman, 2016-10-14 This book is the first detailed discussion of the impact of the First World War on English theology Assessing the close relationships between English and German theologians before the First World War Chapman then explores developments throughout the war A series of case studies make use of a large amount of unpublished material showing how some theologians sought to maintain relationships with their German colleagues while others especially from a more Anglo Catholic perspective used the war as an opportunity to distance themselves from the liberal theology which was beginning to dominate the universities before the war The increasing animosity between Britain and Germany meant that relations were never healed English theology became increasingly insular dividing between a more home grown variety of liberalism and an ascendant Anglo Catholicism Consequently this book offers useful insights into the development of theology in the twentieth century and will be of keen interest to scholars and students of the history of theology

Theology in a Global Context Hans Schwarz, 2005-11 In this book Hans Schwarz leads us into the web of Christian theology's recent past from Kant and Schleiermacher to Mbiti and Zizoulas pointing out all the theologians of the last two hundred years who have had a major impact beyond their own context With an eye to the blending of theology and biography Schwarz draws the lines of connection between theologians their history and wider theological movements Publisher

God and Caesar Constance L. Benson, 2018-01-16 H Richard Niebuhr's powerful interpretation of Ernst Troeltsch has shaped our view of the man for over seventy years Troeltsch is one of the most respected and renowned figures in liberal Protestant thought Yet as Harvard philosopher of religion Cornel West observes in his foreword Constance Benson shatters certain crucial aspects of Troeltsch's image as a liberal religious thinker with God and Caesar Benson reconstructs the historical context in which Troeltsch wrote his landmark *The Social Teaching of the Christian Churches* and reinterprets it in relation to that context She shows that Troeltsch's Christianity legitimized class religious and gender inequality in response to the challenges of social democracy Her controversial exploration of why most Troeltsch scholars have remained silent on this deserves serious consideration Her discovery of Troeltsch's role in the politics and ideological debates of Imperial Germany require a painful reexamination of an entire chapter of Protestant

history Benson exposes Troeltsch's relationship to Paul de Lagarde a notorious anti Semite and architect of what later became Nazi ideology God and Caesar is a needed corrective Troeltsch is an important figure for the Christian right in Germany and for many mainstream Protestants in the United States Benson's courageous book is the most challenging critique of Troeltsch's politics we have an unsettling perspective that forces us to revise the beloved Troeltsch so many of us had come to admire and cherish It will be of interest to intellectual historians theologians and students of religious history and specialists in German social and political history

Sociological Beginnings Christopher Adair-Totter, 2006-01-01 This is a translated edition of five of the nine papers and the responses presented at the first conference of the Deutsche Gesellschaft für Soziologie DGS that was held in 1910 These are seminal contributions by some of the founders of classical German sociology and social theory including Max Weber Georg Simmel Ferdinand Tönnies Ernst Troeltsch and Werner Sombart A substantial introduction discusses the lives and works of the five thinkers placing them in the context of Germany in the early twentieth century and discussing their personal and societal connections The papers none of which has ever appeared in English are a remarkable testament to the developing thought of key scholars The year 1910 was a defining year for German sociology There were still no sociology schools departments or even professorships but a significant number of important thinkers had published crucial sociological works Through such publications Ferdinand Tönnies Georg Simmel Max Weber Werner Sombart and Ernst Troeltsch had founded considerable reputations and by 1909 the first three had banded together with other scholars to form the DGS The papers show German sociology at a decisive moment when these thinkers were at their prime and were engaged in building a new society devoted to investigation of social reality based upon sound scholarly principles and free from biased social dogmatics The topics continue to have relevance and the exchanges provide a lively dimension one that is not found simply by reading the books of these five founders of sociological thinking

Weaver, 1999-07-01 Written in a clear and engaging style Weaver's story chronicles not only the progress of Jesus research but also the cultural drifts and sociological phenomena that relate to the varying pictures of Jesus that scholarship has produced

Weber, Jr., 2025-10-21 Despite critiques of quietism European Lutherans fostered social ethics that produced systemic structural changes in social services law education health care states and nations and public morality and eventually led to the welfare state Grounded in faith active in love for the neighbor Lutherans transformed northern Europe **The Historical Jesus Question** Gregory W. Dawes, 2001-01-01 A natural sequel to *The Historical Jesus Quest* this book provides commentary on the work and significance of the classic writers presented in that volume Spinoza Strauss Sweitzer Troeltsch Bultmann Kasemann and others *Chosen Nations* Christina L. Littlefield, 2013-09-01 At the heart of the biblical myth of chosenness is the idea that God has blessed a people to be a blessing to others It is a mission of solemn responsibility The six British and American thinkers examined in this study embraced the myth of chosenness for their countries believed that the liberties they enjoyed were inherently tied to their Protestant faith and that it was their mission to protect and spread that faith and its democratic fruit at home and abroad **Troeltsch's Eschatological Absolute** Evan F. Kuehn, 2020-04-01 Ernst Troeltsch is widely recognized as having played an important role in the development of modern Protestant theology but his contribution is usually understood as largely critical of traditional modes of theological inquiry He is best known for his historicist critique of dogmatic theology and seen either as the closing chapter of nineteenth century liberalism or as a proto postmodernist Central to this pivotal period in modern theology stands the problem how can we articulate a doctrine of ultimate reality such that a meaningful and coherent account of the world is available without our understanding of God thereby becoming conditioned by the world itself Evan Kuehn demonstrates that historiographical assumptions about twentieth century religious thought have obscured the coherence and relevance of Troeltsch's understanding of God history and eschatology An eschatological understanding of the Absolute Kuehn contends stands at the heart of Troeltsch's theology and the problem of historicism with which it is faced Troeltsch's eschatological Absolute must be understood in the context of questions that were being raised at the turn of the twentieth century both by research on New Testament apocalypticism and by modern critical methodologies in the historical sciences His theory of the Absolute is central to his views on religion and religious ethics and provides practitioners of constructive studies in religion with important resources for engaging with sociological and historical studies where Troeltsch's status as a classical figure is widely recognized *A Guide to the Phenomenology of Religion* James Cox, 2006-08-15 Provides an introduction and overview to the Phenomenology of Religion through describing analysing and evaluating the ideas of key thinkers in the phenomenology of religion This book also examines the thinking of

scholars within the Dutch British and North American schools of religious phenomenology

Lutheran Identity and Political Theology Carl-Henric Grenholm, Goran Gunner, 2014-11-04 Lutheran tradition has in various ways influenced attitudes to work the economy the state education and health care One reason that Lutheran theology has been interpreted in various ways is that it is always influenced by surrounding social and cultural contexts In a society where the church has lost a great deal of its cultural impact and authority and where there is a plurality of religious convictions the question of Lutheran identity has never been more urgent However this question is also raised in the Global South where Lutheran churches need to find their identity in a relationship with several other religions Here this relationship is developed from a minority perspective Is it possible to develop a Lutheran political theology that gives adequate contributions to issues concerning social and economic justice What is the role of women in church and society around the world Is it possible to interpret Lutheran theology in such a way that it includes liberating perspectives These are some of the questions and issues discussed in this book
