Hannah,1981 The unmistakable modernity of Novalis poetics derives its dynamic force from its adherence to the
philosophical movement of German Idealism Yet few studies of Novalis works go beyond a cursory reference to J G Fichte s
Grundlage der gesamten Wissenschaftslehre This study breaks with traditional Novalis scholarship by laying bare and
underscoring Novalis close reading of all of Fichte s early works After a brief chapter elucidating Fichte s concept of the
imagination the bulk of the work is devoted to in depth analyses of three key notions constitutive of Novalis poetics the sign
time and chance Zufall The final chapter weaves the strands of previous discussion into a coherent whole by examining the
central concept in Novalis poetics Gemut The volume enriches our understanding of Fichte s philosophy Novalis poetics and

Silence** J.S. Krüger,2018-12-01 Signposts to Silence provides a theoretical map of what it terms metaphysical mysticism the
search for the furthest most inclusive horizon the domain of silence which underlies the religious and metaphysical urge of
humankind in its finest forms Tracing the footsteps of pioneers of this exploration the investigation also documents a number
of historical pilgrimages from a variety of cultural and religious backgrounds Such mountaineers of the spirit who created
paths trodden by groups of followers over centuries and in some cases millennia include Lao Tzu and Chuang Tzu Siddhattha

and Jesus Sankara and Fa tsang Plato and Plotinus Isaac Luria and Ibn Arabi Aquinas and Hegel Such figures teachings and traditions including the religions of Judaism Christianity and Islam Hinduism Buddhism and Taoism are understood as at their most sublime not final destiny and the end of the road but signposts to a horizon of ultimate silence The hermeneutical method employed in tracking such pioneers involves four steps sound historical critical understanding of the context of the various traditions and figures reconstruction of the subjective intentional structure of such persons and their teachings design by the author of a theoretical map of the overall terrain of metaphysical mysticism on which all such journeys of the spirit are to be located while providing a theoretical context for understanding them tendentially i e taking the ultimate drift of their thinking essentially to transcend their subjective intentions drawing out within the space available some political taken in a wide sense implications from the above such as religio political stances as well as ecological and gender implications Continuing the general direction of thought within what the author endorses to be the best in metaphysical mysticism in its historical manifestations the book aims to contribute to peace amongst religions in the contemporary global cultural situation It relativizes all claims to exclusive absolute truth that might be proclaimed by any religious or metaphysical mystical position while providing space for not only tolerating but also affirming the unique value and dignity of each This orientation moves beyond the stances of enmity or indifference or syncretism or homogenisation of all as well as that of mere friendly toleration It investigates the seemingly daunting and inhospitable yet immensely significant Antarctica of the Spirit the meta space of silence behind the various forms of wordy inter relationships It affirms *pars pro toto totum pro parte* and *pars pro parte* that each religious mystical and metaphysical orientation in its relative singularity represents or contains the whole and derives value from that and that each represents or contains every other This homoversal solidarity stimulating individual uniqueness is different from and in fact implies criticism of the process of globalisation While not taking part in a scientific argument as such Signposts to Silence aims at promoting an understanding of science and metaphysical mysticism as mutual context for each other and it listens to a number of voices from the domain of science that understand this *Individualität und Totalität* Barbara Senckel, 2010-11-05 Keine ausführliche Beschreibung für Individualität und Totalität verfügbar **Library of Congress Catalogs** Library of Congress, 1976 Astralis von Novalis Sophia Viator, 2001 *National Union Catalog*, 1982 Includes entries for maps and atlases **Modes of the Fantastic** Robert A. Latham, Robert A. Collins, 1995-09-26 This book gathers 25 essays originally presented at the Twelfth Annual International Conference on the Fantastic in the Arts Its animating focus is the politics of fantasy considered both as a formal genre and a mode of apprehension The opening essay by Brian Attebery sets the agenda for the book in its forthright rebuttal of fantasy's critics who see it as either politically naive or even pernicious rather Attebery argues fantasy is a radical mode of perception that contests every form of political orthodoxy The book is divided into six large sections The first broadly addresses the social politics of fantasy with three essays showing how fantastic literature undermines the assumptions of realism including

such official forms as Socialist Realism The second section on technique focuses on the formal strategies of fantastic texts with three essays analyzing collage and two the grotesque Part three offers six perspectives on fantasy s implications for issues of race and gender Parts four and five on nature and religion provide eight views of how fantasy affects apprehension of the natural and the supernatural Finally the sixth section contains three essays assessing the politics of intertextuality
