101 Middle Eastern Tales and Their Impact on Western Oral Tradition Ulrich Marzolph, 2020-08-18 A comprehensive exploration of the Middle Eastern roots of Western narrative tradition Against the methodological backdrop of historical and comparative folk narrative research 101 Middle Eastern Tales and Their Impact on Western Oral Tradition surveys the history dissemination and characteristics of over one hundred narratives transmitted to Western tradition from or by the Middle Eastern Muslim literatures i.e. authored written works in Arabic Persian and Ottoman Turkish For a tale to be included Ulrich Marzolph considered two criteria that the tale originates from or at least was transmitted by a Middle Eastern source and that it was recorded from a Western narrator's oral performance in the course of the nineteenth or twentieth century The rationale behind these restrictive definitions is predicated on Marzolph's main concern with the long lasting effect that some of the Oriental narratives exercised in Western popular tradition those tales that have withstood the test of time Marzolph focuses on the originally Oriental tales that became part and parcel of modern Western oral tradition Since antiquity the Orient constitutes the quintessential Other vis-à-vis the European cultures While delineation against this Other served to define and reassure the Self the Orient also constituted a constant source of fascination attraction and inspiration Through oral retellings numerous tales from Muslim tradition became an integral part of European oral and written tradition in the form of learned treatises medieval sermons late medieval fabliaux early modern chapbooks contemporary magazines and more In present times when national narcissisms often acquire the status of strongholds delineating the Us against the Other it is imperative to distinguish document visualize and discuss the extent to which the West is not only indebted to the Muslim world but also shares common features with Muslim narrative tradition 101 Middle Eastern Tales and Their Impact on Western Oral Tradition is an important contribution to this debate and a vital work for scholars students and readers of folklore and fairy tales

Relief After Hardship Ulrich Marzolph, 2017-04-17 Contributes to the history of Middle Eastern narrative lore and its impact on Western tradition The Thousand and One Days a companion collection to The Thousand and One Nights was published in 1710/1712 by French Orientalist scholar François Pétis de la Croix who advertised it as the faithful albeit selective translation of a Persian work Subsequent research has found that The Thousand and One Days is actually the adapted translation of a fifteenth century anonymous Ottoman Turkish compilation titled Relief after Hardship This compilation in turn is the enlarged translation of an equally anonymous Persian collection of tales that likely dates back to as early as the thirteenth century The tales in both the Ottoman Turkish and the

Persian collections are mostly tales of the marvelous and the strange a genre that dominated much of the narrative literatures of the pre modern Muslim world Ulrich Marzolph s *Relief after Hardship The Ottoman Turkish Model for The Thousand and One Days* is a detailed assessment of the Ottoman Turkish compilation and its Persian precursor Based upon Andreas Tietze s unpublished German translation of the Ottoman Turkish *Ferec ba d es sidde* it traces the origins of the collection s various tales in the pre modern Persian and Arabic literatures and its impact on Middle Eastern and world tradition and folklore Ottoman Turkish literature proves to be a suitable candidate for the transmission of tales from East to West long before the European translation of *The Thousand and One Nights* Additionally the concept of relief after hardship has the same basic structure as the European fairy tale wherein the protagonist undergoes a series of trials and tribulations before he attains a betterment of his status Marzolph contends that the early reception of these tales from Muslim narrative tradition might well have had an inspiring impact on the nascent genre of the European fairy tale that has come to know international success today This fascinating compilation of tales is being presented for the first time to an English language audience along with a comprehensive survey of its history as well as detailed summaries and extensive comparative annotations to the tales that will be of interest to literature and folklore scholars

Handbook of Diachronic Narratology
Peter Hühn, John Pier, Wolf Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik s 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists

Historical Aspects of Printing and Publishing in Languages of the Middle East Geoffrey Roper, 2013-11-07. Print culture in both its material and cognitive aspects has been a somewhat neglected field of Middle Eastern intellectual and social history. The essays in this volume aim to make significant contributions to remedying this neglect by advancing our knowledge and understanding of how and why the development of printing both affected and was affected by historical social and intellectual currents in the areas considered. These range geographically from Iran to Latin America via Kurdistan, Turkey, Egypt, the Maghrib and Germany, temporally from the 10th to the 20th centuries CE and linguistically through Arabic, Judeo-Arabic, Syriac, Ottoman Turkish, Kurdish and Persian.

Magic Tales and Fairy Tale Magic R. Bottigheimer, 2014-07-01.
