

Essay Sample: The Epic of The Odyssey Essay

Religion is one of the critical aspects that many of the communities worldwide have had since time immemorial. The people believe in the existence of a superior being who has control over the elements of human life such as death and birth. The beliefs, however, differ with the communities. In some of them, there exist several superior beings each who play a different role (An excellent example is in the Greek mythology where there exist different gods such as Zeus, the God of thunder and Medussa, the goddess of death). In other religions, however, there is only one superior being who is in charge of all the supernatural occurrences as it is in Christianity. The supernatural beings have attributes such as great might which they use to accomplish different objectives. Take for example Zeus in Greek mythology- he has the power to control thunder and lightning. This paper is an analysis of the Epic The Odyssey and the aspect that is common in it and at the same time seems relatable to the modern world.

Several incidences that show the theme of religion. To begin with, there is the instance when Nestor is telling his sons to make a sacrifice to the goddess Athena to please her. In another case, the people in this age poured libations when drinking wine as a means to please the gods which in turn was to earn them favour whenever they asked the gods for them. This is evident in lines between 460 where boys poured men wine in cups and filled them but also poured the first drops to the gods (Johnston 56). In addition to that, the people gave offerings all with the same intent. This was not only in accordance with their religious law but also it was believed that the more the offering that one gave, the more the blessings that they would receive. In the modern world, there are many religions such as Christianity, Islam, Hinduism among others. The religions all have similar principles since they all show that the people are led by a superior being and that one should be close to them to get favours from them. The means to be close to them include praying or invoking the gods often, giving offerings, following their rules like it was in the Odysseus.

In addition to the offerings and libations, modern religions need that one offers sacrifices to the gods. The sacrifice does not have to be material wealth or physical goods, but it may be time or service. In modern Christianity for example, the essence of sacrificing part of the personal time to dedicate it to God is highly insisted on. Sunday, for instance, is supposed to be a day that is sacrificed for religion, and one should refrain from having a very busy day. In the Odysseus, the people majored on physical sacrifice whereby they offered burnt animals to their gods. The virtue of sacrifice also made one closer to the superior beings which further increased their chances of success in their everyday endeavours. In modern religions, the sacrifices also bring one closer to the gods they worship. This aspect makes the idea of faith in the Odysseus more relatable to that of the modern world.

Another significant aspect of religion is prayer. In the Odysseus, it is seen when Penelope prays to the goddess Artemis to kill her because she does not imagine living a life without Odessyeus (Johnston 67). Just as it was in ancient times where people prayed so that they could make known their wishes to the gods, the modern religions still have the same aspect (Olgun 96). It is relatable as it is a means to communicate with the gods. In modern days, it is also a means that is used in praising, worshipping, thanking and asking for blessings from gods. There are very minimal changes that have been introduced to prayer, and most of the contents in it remain just as constant as they

across sociopolitical boundaries *Beyond Ontological Blackness* Victor Anderson,2016-10-06 In this study Victor Anderson traces instances of ontological blackness in African American theological religious and cultural thought arguing that African American critical thought has been trapped in a racial rhetoric that it did not create and which cannot serve it well Drawing together 18th and 19th century accommodationism and its assimilationist heirs with the movements of Black Power and Afrocentrism Anderson shows that all exhibit a similar structure of racial identity He suggests that it is time to move beyond the confines of the cult of black heroic genius to what Bell Hooks has termed postmodern blackness a racial discourse that leaves room to negotiate African American identities along lines of class gender sexuality and age as well as race

Shipwreck in French Renaissance Writing Jennifer H. Oliver,2019-08-29 In the sixteenth century a period of proliferating transatlantic travel and exploration and latterly religious civil wars in France the ship is freighted with political and religious as well as poetic significance symbolism that reaches its height when ships both real and symbolic are threatened with disaster The Direful Spectacle argues that in the French Renaissance shipwreck functions not only as an emblem or motif within writing but as a part or the whole of a narrative in which the dynamics of spectatorship and of co operation are of constant concern The possibility of ethical distance from shipwreck imagined through the Lucretian *suave mari magno* commonplace is constantly undermined not least through a sustained focus on the corporeal This book examines the ways in which the ship and the body are made analogous in Renaissance shipwreck writing bodies are described and allegorized in nautical terms and conversely ships themselves become animalized and humanized Secondly many texts anticipate that the description of shipwreck will have an affect not only on its victims but on those too of spectators listeners and readers This insistence on the physicality of shipwreck is also reflected in the dynamic of bricolage that informs the production of shipwreck texts in the Renaissance The dramatic potential of both the disaster and the process of rebuilding is exploited throughout the century culminating in a shipwreck tragedy By the late Renaissance shipwreck is not only the end but often forms the beginning of a story Women and Gender in Central and Eastern Europe, Russia, and Eurasia Mary Zirin,Irina

Storylife Joel P. Christensen, 2025-01-14 From Homer's epics to mainstream news stories have lives of their own and humans may not always control the narratives we create Combining ancient epic and myth with analogies from biology and the natural world Joel P Christensen explores the creative process and how narratives develop This bold work urges readers to treat narratives as living things with their own agency in the world Christensen starts by using Homeric epic to explore the way language and meaning develop alongside audiences in complex ecosystems and then moves through storytelling in the ancient Mediterranean over a thousand years In this study which ranges from the evolution of narratives to viral ideas and to the dangerous side of stories in mass shootings and war we see how narratives function as independent entities with consequences that cause lasting harm Connecting his argument to the present day Christensen addresses contemporary cultural panics including AI and ChatGPT post truth or alt facts in the digital age and free speech and cancel culture Storylife invites readers to rethink human creativity the importance of collective actions and the lives we build together with and against narrative In an age rife with misinformation it is time to reconsider how much control we have over stories and how to educate ourselves once we acknowledge the power that narrative exerts over us **Roman Eloquence**

Female Acts in Greek Tragedy Helene P. Foley, 2009-01-10 Although Classical Athenian ideology did not permit women to

exercise legal economic and social autonomy the tragedies of Aeschylus Sophocles and Euripides often represent them as influential social and moral forces in their own right Scholars have struggled to explain this seeming contradiction Helene Foley shows how Greek tragedy uses gender relations to explore specific issues in the development of the social political and intellectual life in the polis She investigates three central and problematic areas in which tragic heroines act independently of men death ritual and lamentation marriage and the making of significant ethical choices Her anthropological approach together with her literary analysis allows for an unusually rich context in which to understand gender relations in ancient Greece This book examines for example the tragic response to legislation regulating family life that may have begun as early as the sixth century It also draws upon contemporary studies of virtue ethics and upon feminist reconsiderations of the Western ethical tradition Foley maintains that by viewing public issues through the lens of the family tragedy asks whether public and private morality can operate on the same terms Moreover the plays use women to represent significant moral alternatives Tragedy thus exploits reinforces and questions cultural clichés about women and gender in a fashion that resonates with contemporary Athenian social and political issues
