Epic Films:

The Epic Films of David Lean Constantine Santos, 2011-09-22 Widely regarded as one of cinema's most accomplished directors David Lean helmed such classics as *Brief Encounter*, *Great Expectations* and *Oliver Twist*. He twice received the Academy Award for best director and two of his films *The Bridge on the River Kwai* and *Lawrence of Arabia* won the Oscar for best picture. Both are featured on the American Film Institute's Top 100 with *Lawrence of Arabia* at number seven. Despite the awards and accolades for these motion pictures many critics often look more favorably upon the smaller films that Lean produced earlier in his career and in recent years his reputation as a director has diminished. In this study Constantine Santos seeks to restore these now undervalued epics to the elevated esteem they once held. Without dismissing the earlier works or regarding them as irrelevant to Lean's evolution as an artist this book shows that the epics if analyzed from certain vantage points are as worthy as any of Lean's previous films. In addition to Lean's Academy Award winning blockbusters Santos also provides close analytical looks at *Doctor Zhivago*, *Ryan's Daughter* and the director's final film *A Passage to India*. Santos argues that the epics show a progression and refinement of Lean's work and that they are thematically broader and feature more complex characterization than his earlier films. In his analyses Santos provides background material on the production of each epic insights into structure characters techniques and themes and a look into the relationship between the films and their literary sources. Written in a clear and engaging manner *The Epic Films of David Lean* will appeal not only to cinema students and scholars but also to the general fan of David Lean and his work.

The Encyclopedia of Epic Films Constantine Santos, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* 1939 and *Lawrence of Arabia* 1962 have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation. *The Encyclopedia of Epic Films* identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands. This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and

Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale

The Epic Film in World Culture Robert Burgoyne, 2010-09-13 With the recent release of spectacular blockbuster films from Gladiator to The Lord of the Rings trilogy the epic has once again become a major form in contemporary cinema This new volume in the AFI Film Readers series explores the rebirth of the epic film genre in the contemporary period a period marked by heightened and conflicting appeals to national ethnic and religious belonging The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations challenging our understanding of epics produced in the present as well as our perception of epic films from the past The contributors will explore new critical approaches to contemporary as well as older epic films drawing on ideas from cultural studies historiography classics and film studies

Return of the Epic Film Andrew Elliot, 2015-03-05 With the success of Gladiator both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years However this return raises important new questions which remain unanswered Why did the epic come back and why did it fall out of fashion Are these the same kinds of epics as the 1950s and 60s or are there aesthetic differences Can we treat Kingdom of Heaven 300 and Thor indiscriminately as one genre Are non Western histories like Hero and Mongol epics too Finally what precisely do we mean when we talk about the return of the epic film and why are they back The Return of the Epic Film offers a fresh way of thinking about a body of films which has dominated our screens for a decade With contributions from top scholars in the field the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty first century

The Epic in Film Constantine Santas, 2008 Encourages us to wonder why critics have routinely dismissed the epic film This work argues that blockbuster and artistic are not mutually exclusive terms and that epic film is an inherently profound genre in its ability to tap into a nation's dreams and fears

Film Study Frank Manchel, 1990-10 The four volumes of Film Study include a fresh approach to each of the basic categories in the original edition Volume one examines the film as film volume two focuses on the thematic approach to film volume three draws on the history of film and volume four contains extensive appendices listing film distributors sources and historical information as well as an index of authors titles and film personalities

Epic Films Gary Allen Smith, 2009-02-05 Epic films those concerned with monumental events and larger than life characters cover the period from the Creation to the A D 1200s and have been churned out by Hollywood and overseas studios since the dawn of filmmaking Cecil B DeMille a master of the genre hit upon the perfect mixture of sex splendor and the sacred to lure audiences to his epic productions The 355 film

entries include casts and credits plot synopsis and narratives on the making of the films There are 190 photographs in this edition *Shakespeare Films* Peter E.S. Babiak,2016-05-12 This study reexamines the recognized canon of films based on Shakespeare's plays and argues that it should be broadened by breaking with two unnecessary standards the characterization of the director as auteur of a play's screen adaptation and the convention of excluding films with contemporary language or modern or alternative settings or which use the play as a subtext The emphasis is shifted from the director's contribution to the film's social cultural and historical contexts The work of the auteurs is reevaluated within present day contexts preserving the established canon while proposing new criteria for inclusion

Film Essays and Criticism Rudolf Arnheim,1997 One of the world's leading film theorists Rudolf Arnheim has been well known to readers of English since the publication of his classic *Film as Art* in 1957 This is the first English translation of another of his important books *Kritiken und Aufsätze zum Film* which collects both film reviews and theoretical essays most of them written between 1925 and 1940 As a young man in 1920s Berlin Arnheim began writing about film for the satirical magazine *Das Stachelschwein* In 1928 as the Weimar Republic began to crumble he joined the intellectual weekly *Die Weltbühne* as film critic and assistant editor for cultural affairs His most important contributions to both magazines are published here including witty and incisive comments on many of the great classics of the silent and early sound period such as Buster Keaton's *The General* and Fritz Lang's *Metropolis* With the advent of Nazism in Germany Arnheim emigrated first to Italy where he wrote essays many included here for a nascent *Enciclopedia del Cinema* and then to England and the United States The thirty essays on film theory discuss elements of theory and technique early sound film production style and content and the relationship of film and the state The fifty six critical pieces include Arnheim's thoughts on the practice of film criticism his reviews of German American French and Soviet films and his profiles of Greta Garbo Charlie Chaplin Felix Bressart Erich von Stroheim and others Also included in the volume are an introduction newly revised by Arnheim and a comprehensive bibliography

The Epic Film Derek Elley,2014 *Historical Film* Jonathan Stubbs,2013-03-28 Although precise definitions have not been agreed on historical cinema tends to cut across existing genre categories and establishes an intimidatingly large group of films In recent years a lively body of work has developed around historical cinema much of it proposing valuable new ways to consider the relationship between cinematic and historical representation However only a small proportion of this writing has paid attention to the issue of genre In order to counter this omission this book combines a critical analysis of the Hollywood historical film with an examination of its generic dimensions and a history of its development since the silent period *Historical Film A Critical Introduction* is concerned not simply with the formal properties of the films at hand but also the ways in which they have been promoted interpreted and discussed in relation to their engagement with the past

Nelson,2013-12-05 The book presents cinematic case studies in political realism versus political idealism demonstrating methods of viewing popular cinema as political theory The book appreciates political myth making in popular genres as especially practical and accessible theorizing about politics

Ancient Greece and Rome in Videogames Ross Clare,2021-06-03 This volume presents an original framework for the study of video games that use visual materials and narrative conventions from ancient Greece and Rome It focuses on the culturally rich continuum of ancient Greek and Roman games treating them not just as representations but as functional interactive products that require the player to interpret communicate with and alter them Tracking the movement of such concepts across different media the study builds an interconnected picture of antiquity in video games within a wider transmedial environment Ancient Greece and Rome in Videogames presents a wide array of games from several different genres ranging from the blood spilling violence of god killing and gladiatorial combat to meticulous strategizing over virtual Roman Empires and often bizarre adventures in pseudo ancient places Readers encounter instances in which players become intimately engaged with the epic mode of spectacle in God of War moments of negotiation with colonised lands in Rome Total War and Imperium Romanum and multi layered narratives rich with ancient traditions in games such as Eleusis and Salammbo The case study approach draws on close analysis of outstanding examples of the genre to uncover how both representation and gameplay function in such ancient games

French B Movies David A. Pettersen,2023-03-07 In the impoverished outskirts of French cities known as the banlieues minority communities are turning to American culture history and theory to make their own voices cultures and histories visible Filmmakers have followed suit turning to Hollywood genre conventions to challenge notions of identity belonging and marginalization in mainstream French film French B Movies proposes that French banlieue films far from being a fringe genre offer a privileged site from which to understand the current state of the French film industry in an age of globalization This gritty style appears in popular arthouse films such as Mathieu Kassovitz s La Haine and Bande de filles Girlhood along with the major Netflix hit

series Lupin David Pettersen traces how in these works and others directors fuse features of banlieue cinema with genre formulas associated with both Hollywood and Black cultural models as well as how transnational genre hybridizations such as B movies have become part of the ecosystem of the French film industry By combining film analysis cultural history critical theory and industry studies French B Movies reveals how featuring banlieues is as much about trying to imagine new identities and production models for French cinema as it is about representation *Thinking Revolution Through Film* Hanno Berger,2022-09-20 This book aims to redefine the relationship between film and revolution Starting with Hannah Arendt s thoughts on the American and French Revolution it argues that from a theoretical perspective revolutions can be understood as describing a relationship between time and movement and that ultimately the spectators and not the actors in a revolution decide its outcome Focusing on the concepts of time movement and spectators this study develops an understanding of film not as a medium of agitation but as a way of thinking that relates to the idea of historicity that opened up with the American and French Revolution a way of thinking that can expand our very notion of revolution The book explores this expansion through an analysis of three audiovisual stagings of revolution Abel Gance s epic on the French Revolution Napol on Warren Beatty s essay on the Russian Revolution Reds and the miniseries John Adams about the American Revolution The author thereby offers a fresh take on the questions of revolution and historicity from the perspective of film studies *Library of Congress Subject Headings* Library of Congress.
