Epidemics And History Disease Power And Imperialism:

Epidemics and History Sheldon J. Watts, 1999-01-01 This book will become the standard account of the way disease has transformed societies and of how the structuring of society politics the economy and the medical profession has shaped the spread and containment of epidemics **Anthropologica** ,1998 **Plagues and Epidemics** D. Ann Herring, Alan C. Swedlund, 2020-06-15 Until recently plagues were thought to belong in the ancient past Now there are deep worries about global pandemics This book presents views from anthropology about this much publicized and complex problem The authors take us to places where epidemics are erupting waning or gone and to other places where they have not yet arrived but where a frightening story line is already in place They explore public health bureaucracies and political arenas where the power lies to make decisions about what is and is not an epidemic They look back into global history to uncover disease trends and look ahead to a future of expanding plagues within the context of climate change The chapters are written from a range of perspectives from the science of modeling epidemics to the social science of understanding them Patterns emerge when people are engulfed by diseases labeled as epidemics but which have the hallmarks of plague There are cycles of shame and blame stigma isolation of the sick fear of contagion and end of the world scenarios Plague it would seem is still among us **Epidemics and the Modern World** Mitchell L. Hammond, 2020-01-16 Epidemics and the Modern World uses biographies of epidemics such as plague tuberculosis and HIV AIDS to explore the impact of diseases on society from the fourteenth century to the twenty first century The Railways in Colonial South Asia Ganeswar Nayak, 2021-06-13 This book is an interesting collection of essays on the Railways in Colonial South Asia The book introduces the key concepts which have now entered the study of railway history e g economy ecology culture health and crime through the various essays The well researched essays include those on the Imperial Railways in nineteenth century South Asia Pakistan Railway Impact of railway expansion on the Himalayan forests development of the Sri Lankan Railways a study of the European employees of the BB CI Railways problems of Indian Railway up to c ad 1900 railways in Gujarati literature and tradition mapping the Gaikwad Baroda State Railway on the colonial rail network coming of railways in Bihar expansion of railway to colonial Orissa etc This book will be of immense value to those researching on various dimensions of railway transport in colonial South Asia It can also be read by the more perceptive general reader exploring books on railways Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka Epidemics and Society Frank M. Snowden, 2019-01-01 As seen on 60 Minutes a brilliant and sobering Paul Kennedy Wall Street Journal look at the history and human costs of pandemic outbreaks The World Economic Forum 1 book to read for context on the coronavirus outbreak Well written highly entertaining and relevant Financial Times Best Books of 2020 Readers Choice This sweeping exploration of the impact of epidemic diseases looks at how mass infectious outbreaks have shaped society from the Black Death to today In a clear and accessible style Frank M Snowden reveals the ways that diseases have not only influenced

medical science and public health but also transformed the arts religion intellectual history and warfare A multidisciplinary and comparative investigation of the medical and social history of the major epidemics this volume touches on themes such as the evolution of medical therapy plague literature poverty the environment and mass hysteria In addition to providing historical perspective on diseases such as smallpox cholera and tuberculosis Snowden examines the fallout from recent epidemics such as HIV AIDS SARS and Ebola and the question of the world s preparedness for the next generation of diseases

Disaster and Human History Benjamin Reilly, 2022-03-31 Human history is periodically punctuated by natural disasters from Vesuvius eruption to the modern day Covid 19 pandemic Volcanoes have buried entire cities earthquakes have reduced structures to smoldering ruins Floods and cyclones have wreaked havoc on river valleys and coastlines and desertification and climate change have weakened society s underpinnings Death tolls are often escalated by starvation and illness which frequently occur in tandem This second edition assesses natural disasters on human society and the effect of strategies developed to reduce their impact This book addresses the interconnectivity of disaster and human responsibility through 23 updated case studies including a new chapter on the 2011 T hoku tsunami and the ensuing Fukushima nuclear disaster

Plague Paul Slack, 2021-06-24 Very Short Introductions Brilliant Sharp Inspiring Throughout history plague has been the cause of many major catastrophes It was responsible for the Plague of Justinian in 542 the Black Death of 1348 and the Great Plague of London in 1665 as well as for devastating epidemics in China and India between the 1890s and 1920s In the 21st century Coronavirus pandemics have served as a powerful reminder that we have not escaped the global impact of epidemic diseases In this Very Short Introduction Paul Slack takes a global approach to explore the historical and social impact of plague over the centuries looking at the ways in which it has been interpreted and the powerful images it has left behind in art and literature Examining what plague meant for those who suffered from it and how governments began to fight against it he demonstrates the impact plague has had on modern notions of public health and how it has shaped our history This new edition also includes evidence on the nature of plague taken from recent discoveries in ancient DNA as well as new research on plague in the Middle East ABOUT THE SERIES The Very Short Introductions series from Oxford

Fatal Misconception Matthew Connelly, 2010-03-30 Connelly tells the disturbing story of a quest to remake ourselves by policing national borders and breeding better people With its transnational scope and exhaustive research this critique uncovers the cost inflicted by a misguided humanitarian movement and urges renewed commitment to the reproductive rights of all people

Dread Philip Alcabes, 2010-04-13 Alcabes persuasively argues that people's anxieties about epidemics are created not so much by the germ or microbe in question or the actual risks of contagion but by the unknown the undesirable and the misunderstood

Security, Reconstruction, and Reconciliation Muna Ndulo, 2007-01-24 This key text brings together a team of leading contributors to address the complex issues of security reconciliation and reconstruction in post conflict societies Security Reconstruction and Reconciliation is organized into four main sections the social political and economic dimensions of conflict the impact of conflict on women and children reconstruction and past human rights violations disarmament demobilization reintegration post war reconstruction and the building of a capable state and the role of the international community in the peace process The chapters offer a detailed and succinct exposition of the challenges facing post conflict societies by articulating the vision of a new society With a foreword by Francis Deng the UN Secretary General's Special Representative on Internally Displaced Persons the authors discuss the issues in the context of possible solutions and lessons learnt in the field This new book is a valuable resource for researchers policy makers and students in the fields of conflict resolution security studies law and development

Social Histories of Disability and Deformity David M. Turner, Kevin Stagg, 2006-09-27 Collecting together essays written by an international set of contributors this book provides an important contribution to the emerging field of disability history It explores changes in understandings of deformity and disability between the sixteenth and twentieth centuries and reveal the ways in which different societies have conceptualised the normal and the pathological Through a variety of case studies including early modern birth defects homosexuality smallpox scarring vaccination orthopaedics deaf education eugenics mental deficiency and the experiences of psychologically scarred military veterans this book provides

new perspectives on the history of physical sensory and intellectual anomaly Examining changes over five centuries it charts how disability was delineated from other forms of deformity and disfigurement by a clearer medical perspective Essays shed light on the experiences of oppressed minorities often hidden from mainstream history but also demonstrate the importance of discourses of disability and deformity as key cultural signifiers which disclose broader systems of power and authority citizenship and exclusion The diverse nature of the material in this book will make it relevant to scholars interested in cultural literary social and political as well as medical history **The Smell of Slavery** Andrew Kettler,2020-05-28 In the Atlantic World different groups were aromatically classified in opposition to other ethnic gendered and class assemblies due to an economic necessity that needed certain bodies to be defined as excremental which culminated in the creation of a progressive tautology that linked Africa and waste through a conceptual hendiadys born of capitalist licentiousness The African subject was defined as a scented object appropriated as filthy to create levels of ownership through discourse that marked African peoples as unable to access spaces of Western modernity Embodied cultural knowledge was potent enough to alter the biological function of the five senses to create a European olfactory consciousness made to sense the African other as foul Fascinating informative and deeply researched The Smell of Slavery exposes that concerns with pungency within the Western self were emitted outward upon the freshly dug outhouse of the mass slave grave called the Atlantic World
