**Imitation and Contamination of the Classics in the Comedies of Ben Jonson** Tom Harrison, 2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy with particular emphasis on the Greek and Roman playwrights and satirists It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements including the Aristophanic Great Idea chorus Terentian Plautine performative strategies and performative elements from literary satire manifest themselves in the structuring and staging of his plays This fascinating exploration contributes to the performative turn in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his erudition The book is also a case study for how the early modern education system's emphasis on imitative contaminative practices prepared its students many of whom became professional playwrights for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures      *The*

**The Woman Question in Plato's Republic** Mary Townsend, 2017-08-07 In this book Mary Townsend proposes that contrary to the current scholarship on Plato's Republic Socrates does not in fact set out to prove the weakness of women Rather she argues that close attention to the drama of the Republic reveals that Plato dramatizes the reluctance of men to allow women into the public sphere and offers a deeply aporetic vision of women's nature and political position a vision full of concern not only for the human community but for the desires of women themselves

*Birds in Roman Life and Myth* Ashleigh Green, 2023-03-03 This book explores the place of birds in Roman myth and everyday life focusing primarily on the transitional period of 100 BCE to 100 CE within the Italian peninsula A diverse range of topics is considered in order to build a broad overview of the subject Beginning with an appraisal of omens augury and auspices including the sacred chickens consulted by generals before battle it goes on to examine how Romans farmed birds hunted them and kept them as pets It demonstrates how the ownership and consumption of birds were used to communicate status and prestige and how bird consumption mirrored wider economic and social trends Each topic adopts an interdisciplinary approach considering literary evidence alongside art material culture zooarchaeology and modern ornithological knowledge The inclusion of zooarchaeology adds another dimension to the work and highlights the value of using animals and faunal remains to interpret the past Studying the Roman view of birds offers great insight into how they conceived of their relationship with the gods and how they stratified and organised their society This book is a valuable resource for bird lovers and researchers alike particularly those studying animals in the ancient world

*Literary Communication as Dialogue* Roger D. Sell, 2020-11-15 As traced by Roger D Sell literary communication is a process of community making As long as literary authors and those responding to them respect each other s human autonomy literature flourishes as an enjoyable though often challenging mode of interaction that is truly dialogical in spirit This gives rise to author respondent communities whose members represent existential commonalities blended together with historical differences These heterogeneous literary communities have a larger social significance in that they have long served as counterweights to the hegemonic tendencies of modernity and more recently to postmodernity s well intentioned but restrictive politics of identity In post postmodern times their ethos is increasingly one of pleasurable egalitarianism The

despondent anti hedonism of the twentieth century intelligentsia can now seem rather dated Some of the papers selected for this volume develop Sell s ideas in mainly theoretical terms But most of them offer detailed criticism of particular anglophone writers ranging from Shakespeare Ben Jonson and other poets and dramatists of the early modern period through

Wordsworth and Coleridge to Dickens Pinter and Rushdie **Books in Print** ,1994 **Siting Federico Barocci and the Renaissance Aesthetic** Peter Gillgren,2017-07-05 Focusing on what he calls the performative gaze the author explores the artistic world of the Urbino painter Federico Barocci 1535 1612 in the context of Renaissance culture Through analysis of Barocci s works Gillgren also sheds new light on Renaissance aesthetic communication generally The first part of the book discusses the poetics of Early Modern painting based on contemporary theories of Reception Aesthetics hermeneutics and phenomenology but grounded in Renaissance culture itself through numerous examples from Early Modern painting The author discusses works by such artists as Botticelli Raphael Titian Vel uez and Poussin from the point of view of their spectator status The second part deals specifically with the art of Federico Barocci showing in detail how his works relate to aspects of the gaze and to their intended spectators Gillgren s method is unusual in that he takes care to set the images within their original physical contexts lighting space framing materials angle of viewer approach as much as possible through careful analysis of early descriptions of now destroyed or modified chapels The third section of the volume contains a brief catalogue of Barocci s paintings presented in a chronological order with a full bibliography and with details about the painting s original locations **The Routledge Handbook of Women and Ancient Greek Philosophy** Sara
