Taborelli,2024-09-20 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM This book examines three expeditions by the Spanish to the borders of Charcas a district that covers present day Bolivia and the northwest of Argentina in the second half of the sixteenth century using an approach that has not been attempted until now Scholarship on these events has framed them as part of a gradual top down process of centralisation driven by the Crown to extend its power and build a colonial state in the Americas This book challenges that view approaching the expeditions through an analysis of the political culture that underpinned them It explores the events within the process of installation and consolidation of royal jurisdiction understood here as the authority to establish law and deliver justice in a remote area This was a process achieved through coercion and violence as well as negotiation and consensus that involved both the Spanish and indigenous peoples and that frequently created overlapping jurisdictions via downscaling of politics and dispersal of power Jurisdictional politics were decided and settled in battlefields and courts and involved the theatricalization of power to make a distant monarch present which paradoxically made such absence the more evident The book is an invitation to re dimension the scope of Spain s empire

Part One sheds light on intersecting cultural milieus from the Christian court of Castile to the experience of Jewish and Muslim communities. Part Two illustrates how the poem's meaning through time can be elucidated using an array of theoretical and interdisciplinary approaches. The Saturday Evening Post, 1920 *Transparent Simulacra* Robert C. Spires, 1988 The development of basic textual strategies in Spanish fiction from 1902 to 1926 is the focus of this study. Challenging traditional views of the relationships between the literature produced by the Generation of 1898 and the Spanish vanguard movement, Spires traces through analyses of select works a process of evolution beginning at the turn of the century and continuing into the 1920s. Spires demonstrates how the somewhat tentative strategies of the first decade became more daring in the second. As opposed to the extant historical autobiographical and thematic surveys of this period, *Transparent Simulacra* features structuralist and post structuralist readings of fiction by Baroja, Azorín, Unamuno, Pérez de Ayala, Gómez de Serna, Jarnés and Salinas. These approaches offer not only revisionist views of a literary period but also revisionist readings of some of Spain's best known fiction.

Pedro the Cruel of Castile (1350-1369) Estow, 2022-02-07 This work deals with the reign of Pedro I of Castile, 1350-1369, known as The Cruel, one of the most notorious and misunderstood figures in the annals of peninsular history. This is the first book on the subject that analyzes Pedro's rule in light of social, political, diplomatic and economic conditions in mid 14th century Castile. Using extant primary documentation from archival sources and the most recent findings of scholars from various fields, the book explores in detail the historical basis for Pedro's reputation and the extent to which this reputation unfairly rests on the testimony of Pero López de Ayala, the reign's principal chronicler. The book provides fresh insights into various aspects of Pedro's career, such as his political aims, relations with religious minorities and fiscal policies.

Screen Stories Carl R. Plantinga, 2018 The way we communicate with each other is vital to preserving the cultural ecology or wellbeing of a place and time. Do we listen to each other? Do we ask the right questions? Do we speak about each other with respect or disdain? The stories that we convey on screens or what author Carl Plantinga calls screen stories are one powerful and pervasive means by which we communicate with each other. *Screen Stories: Emotion and the Ethics of Engagement* argues that film and media studies needs to move toward an approach to ethics that is more appropriate for mass consumer culture and the lives of its citizens. Primarily concerned with the relationship between media and viewers, this book considers ethical criticism and the emotional power of screen stories that makes such criticism necessary. The content we consume from television shows

and movies to advertisements can significantly affect our welfare on a personal and societal level and thus this content is subject to praise and celebration or questioning and even condemnation The types of screen stories that circulate contribute to the cultural ecology of a time and place through shared attention they influence what individuals think and feel Plantinga develops a theory of the power of screen stories to affect both individuals and cultures asserting that we can better respond ethically to such media if we understand the sources of its influence on us
