Equal Time Aniko Bodroghkozy, 2012-02-15 *Equal Time* Television and the Civil Rights Movement explores the crucial role of network television in reconfiguring new attitudes in race relations during the civil rights movement. Due to widespread coverage the civil rights revolution quickly became the United States' first televised major domestic news story. This important medium unmistakably influenced the ongoing movement for African American empowerment, desegregation, and equality. Aniko Bodroghkozy brings to the foreground network news treatment of now famous civil rights events including the 1965 Selma voting rights campaign, integration riots at the University of Mississippi, and the March on Washington, including Martin Luther King's 'I Have a Dream' speech. She also examines the most high profile and controversial television series of the era to feature African American actors: *East Side West Side*, *Julia*, and *Good Times* to reveal how entertainment programmers sought to represent a rapidly shifting consensus on what blackness and whiteness meant and how they now fit together.

Equal Time, Equal Value Ed Collom, Judith N. Lasker, 2016-05-23 *Equal Time, Equal Value* is the first systematic investigation of Time Banking in the United States. Drawing upon detailed case studies and making use of a mix of qualitative and quantitative data, this book explores the most popular type of what has been called community currencies in which localized systems based on time or dollar equivalents act as the medium of exchange. As such, it offers rich insights into the challenge presented by Time Banking to both the traditional social service and economic models through the creation of an environment of reciprocity in which everyone's work has equal value. Locating Time Banking within the context of community currencies more generally and investigating the particular characteristics that are central to the production of positive outcomes, *Equal Time, Equal Value* examines the organizational characteristics of Time Banks as well as the motivations of members, types and patterns of exchanges, and the effects on members of Time Bank participation in the USA. A timely and detailed exploration of exchange systems at a time of rising unemployment and declining confidence in global economic structures, this book will appeal to
