Equality And Authority A Study Of Class Status And Power In Australia:

Equality and Authority Sol Encel,1970 The Australian Study of Politics R. Rhodes,2009-11-11 The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia whether described as political studies or political science It focuses on Australia and on developments since WWII also exploring the historical roots of each major subfield *Australian Liberals and the Moral Middle Class* Judith Brett,2003-11-06 The Liberal Party of Australia was late to form in 1945 but the traditions and ideals upon which it is founded have been central to Australian politics since Federation This 2003 book by award winning author and leading Australian political scientist Judith Brett provides the very first complete history of the Australian liberal tradition and then of the Liberal Party from the second half of the twentieth century The book sparkles with insight particularly in its sustained analysis of the shifting relationships between the experiences of the moral middle class and Australian liberals own self understandings It begins with Alfred Deakin facing the organised working class in parliament and ends with John Howard electorally triumphant but alienated from key sections of middle class opinion This book is destined to become the definitive account of Australian liberalism and of the Liberal Party of Australia **Only in Australia** William Coleman,2016 This volume analyses how Australia s economic and social policy diverges from that of the wider Anglophone world It looks at diverse issues such as labour market regulation taxation and political power and voting **Australian Economy and Neo-liberalism** Celal Bayari,2012 Australia s economy has long been typified by neo liberal governance foreign investment dependence exports dominated by grains resources and energy and an industrial structure in which foreign multinational enterprises play the leading role These factors have not always contributed to stable growth and a strong manufacturing sector Further they have not always led to the best outcomes for Australia in its integration into the regional and global patterns These themes form the focus of this book which presents an analysis of Australia s economic orthodoxy and its effects Series Global Cultural and Economic Research Vol 10 **Tabloid Television** John Langer,2006-10-19 Fires floods accidents celebrity lifestyles heroic acts of humble people cute acts by family pets and the weather Television s non news about non events takes up an increasingly large part of contemporary broadcast journalism but is regularly dismissed by television pundits as having no place on our screens To its critics this other news distracts our attention with trivialities and entertainment values and undermines journalism s relationship with the workings of democracy Yet in spite of these protests this lite news remains as entrenched and as popular as ever InTabloid Television John Langer argues that television s other news must be recognised as equally important as hard news in the building of a genuinely comprehensive study of broadcast journalism Using narrative analysis theories of ideology concepts from genre studies and detailed textual readings other news is explored as a cultural discourse connected with story telling gossip social memory the horror film national identity and the cult of fame Langer s study also examines the political role played by an allegedly non political news and explores the links between this type of news and

recent broadcasting trends towards reality television Tabloid Television Popular Journalism and the Other News provides an eclectic and intriguing look at one of the most maligned areas of television news By offering an extended and thoroughly grounded analysis of actual news stories John Langer locates the question of representational power as one of the central concerns of the media studies agenda and offers some interesting speculation about where television news may be heading

Considering Class: Theory, Culture and the Media in the 21st Century, 2017-11-06 Considering Class Theory Culture and Media in the 21st Century offers the reader international and interdisciplinary perspectives on the importance of class analysis in the 21st century Political economists sociologists educationalists ethnographers cultural and media analysts combine to provide a multi dimensional account of current class dynamics The crisis consists precisely in the gap between the objective reality and efficacy of class forces shaping international politics and the relative paucity of class consciousness at a popular level and appreciation of class as an explanatory optic at a theoretical level This important book shows why the process of reconstructing class consciousness must also take place on the ground of cultural and subjective formation where everyday values habits and media practices are in play Contributors are Anita Biressi Joseph Choonara Maurizio Donato Danny Dorling Mark Gibson Craig Haslop Dave Hill Peter Jakobsson Marina Kabat Holly Lewis Catherine Lumby Lisa Mckenzie Tony Moore Adrian Murray Deirdre O Neill Jonathan Pratschke Michael Seltzer Eduardo Sartelli Fredrik Stiernstedt Roberto Taddeo Mike Wayne Milly Williamson Ferruh Y Imaz

First World War, the Universities and the Professions in Australia 1914-1939 Kate Darian-Smith, James Waghorne, 2019-02-19 Australia's extraordinary contribution to World War I extended well beyond its military forces to the expertise of its universities and professional men and women Scientists and engineers oversaw the manufacture of munitions and the development of chemical weapons Doctors sustained soldiers in the trenches and treated the physically and psychologically damaged Public servants lawyers and translators were employed in the war bureaucracy while artists and writers found new modes to convey the trauma of war The graduates and staff of Australia's six universities Sydney Melbourne Adelaide Tasmania Queensland and Western Australia and Queensland were involved in this expansion of expertise But what did these men and women do after the guns were silenced How were the professions and universities transformed by the immediate and longer term impacts of the war The First World War the Universities and the Professions examines how the technical and conceptual advances that occurred during World War I transformed Australian society It traces the evolving role of universities and their graduates in the 1920s and 1930s the increasing government validation of research the expansion of the public service and the rise of modern professional associations and international networks While the war contributed to greater specialisations in traditional professions such as teaching or medicine it also stimulated new jobs and training whether in economics anthropology or graphic art This volume provides a new account of the interwar years that places knowledge and expertise at the heart of the Australian story Its four sections The Medical Sciences Science and Technology Humanities Social Sciences and Teaching and The Arts

Legends of People, Myths of State Bruce Kapferer, 2011-12-01 The civil war in Sri Lanka and the part that nationalism seemed to play in it inspired the writing of this book some twenty three years ago The argument was developed through a comparative analysis of nationalism in Sri Lanka with the author's native Australia At the time this constituted an innovative approach to comparison in anthropology as well as to nationalism and its possibilities It was not based on differences but on the way in which perspectives from within the two nationalisms when seen side by side could present an understanding of their implication in producing the violence of war racism and social exclusion The book has lost none of its importance and urgency as proven by the chapters in the Appendix written by top scholars working in Sri Lanka and in Australia These contributions bring together new material and critically explore the book's themes and their continued relevance to the various trajectories in nationalist processes since the first publication of the book

Understanding Schooling Miriam Henry, John Knight, Robert Lingard, Sandra Taylor, 2006-08-21 The problems of class gender and race in the Australian education system are similar to those in the UK

Watching the Sun Rise Jacqui Murray, 2004-01-01 Historians have long claimed that a tradition of fear of Japan dominated Australian thinking about foreign affairs and defense after Japan's defeat of Russia in 1905 and that this fear remained widespread throughout the Australian population until the Pacific War This study of Australian reporting on Japan challenges that claim by exposing a culture of state censorship intimidation of the media and neglect of official public discussion of foreign affairs in the years 1931-1941 which resulted in newspapers radio and news reels projecting a collective national consciousness of Japan as a nation of little import despite very real fears in senior political ranks about Japanese designs on Australia Jacqui Murray's argument for the Australian media's underestimation of Japan's threat is sustained by close examination of media practices publications and broadcasts which clearly show misleading representations of Japan before the Pacific War Watching the Sun Rise details not only government peace time media censorship but also war time propaganda flows from Australian British and Japanese sources into the Australian media and examples of cooperation and or espionage among media personnel

Humble and Obedient Servants Peter J. Tyler, 2006 New South Wales government administration increased four fold during the first six decades of the twentieth century with population growth and greater community expectations Employment of staff for this burgeoning administrative corps and teaching service became the responsibility of the Public Service Board The Board exerted rigid centralised control over every aspect of administration The result was a moderately efficient loyal and conformist bureaucracy structured around fixed routines where innovation was not encouraged

Inside the Whale Colin Bell, S. Encel, 2016-06-06 Inside the Whale Ten Personal Accounts of Social Research reflects on the preoccupations of social research More specifically this book challenges the ways in which social research is normally written up published and taught It shows that social research is a social and political activity rather than a set of techniques

to be applied to the world out there It thus places greater emphasis on social and political concerns over techniques This book consists of 10 chapters and begins by explaining the metaphor of the whale coined by Henry Miller to denote withdrawal from society and used by George Orwell to imply that the whale is society and that we should spy out the interior It then considers the nature of science and sociology as well as the fundamental nature of society The following chapters explore the issues raised by power force and violence proposed reforms for some housing and banking processes in Australia social research consultancies in the 1970s research on women academics and postgraduate research Other chapters describe the ethos and the milieu of social research including a fieldwork on Australian aborigines This monograph will be of interest to sociologists social scientists and social researchers **The Cambridge Handbook of Sociology: Volume 1** Kathleen Odell Korgen,2017-08-11
