Equality Edward Bellamy, 2016-09-20 *Equality* is a utopian novel by Edward Bellamy and the sequel to *Looking Backward*. 2000 1887 It was first published in 1897. The book contains a minimal amount of plot. Bellamy primarily used *Equality* to expand on the theories he first explored in *Looking Backward*.

Synopsis The story takes up immediately after the events of *Looking Backward* with the main characters from the first novel. Julian West, Doctor Leete, and his daughter Edith West tell his nightmare of return to the 19th century to Edith, who is sympathetic. West's citizenship in the new America is recognized and he goes to the bank to obtain his own account or credit card from which he can draw his equal share of the national product. He learns that Edith and her mother do not normally wear the long skirts he has seen them in; they had been wearing them so as not to offend his 19th-century sensibilities. When Julian tells Edith that he would not be shocked to see them dressed in the modern fashion, Edith immediately runs into the house and comes out dressed in a pantsuit. Clothing has revolutionized and is now made of strengthened paper, recycled when dirty and replaced at very little cost. Shoes and dishes are made of variations on the same substance. Julian learns that women are free to compete in many of the same trades as men. The manager of the paper factory he visits with Edith is a woman. Edith herself is in the second year of the three-year general labor period required of everyone before choosing a trade but has taken leave to spend time with Julian. The two tour a tenement house in which no one now lives, kept as a reminder of the evils of private capitalism. Julian opens his safe, a device unknown in 2000, outside museums. Dr. Leete sees his mortgages and securities not as long obsolete claims to ownership interest in things but rather in people and their labor. The papers are worthless except as antiques, as most papers of the sort were burned at the conclusion of the economic transition in a great blaze on the former site of the New York Stock Exchange. The gold coins in the safe are

admired for their prettiness but are also worthless Julian learns more about the world of the year 2000 Handwriting has been virtually replaced by phonograph records and jewelry is no longer used since jewels are now worthless Julian is amazed by a television like device called the electroscope World communication is simplified since everyone now speaks a universal language in addition to their native tongue Not only are there motor cars but also private air cars Everyone is now vegetarian and the thought of eating meat is looked upon with revulsion Edward Bellamy March 26 1850 May 22 1898 was an American author and socialist most famous for his utopian novel Looking Backward a tale set in the distant future of the year 2000 Bellamy s vision of a harmonious future world inspired the formation of at least 165 Nationalist Clubs dedicated to the propagation of Bellamy s political ideas and working to make them a practical reality **The Collected Works of Edward**
