Martin, 1998 In particular Martin commends the habit of critical thinking an appreciation for irony and an irenic approach to opposition as helpful stances for improving people's efforts to talk about religion In addressing rhetorical and hermeneutical issues commonly found in philosophical theology and the philosophy of religion this work's approach through the genre of dialogue will interest those concerned with the intersection of religion and literature

through the theme of Christian paideia as the foundation for liberal arts education Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979 Indecorous Thinking Colleen Ruth Rosenfeld, 2018-01-02 Indecorous Thinking is a study of artifice at its most conspicuous it argues that early modern writers turned to figures of speech like simile antithesis and periphrasis as the instruments of a particular kind of thinking unique to the emergent field of vernacular poesis The classical ideal of decorum described the absence of visible art as a precondition for rhetoric civics and beauty speaking well meant speaking as if off the cuff Against this ideal Rosenfeld argues that one of early modern literature's richest contributions to poetics is the idea that indecorous art artifice that rings out with the bells and whistles of ornamentation celebrates the craft of poetry even as it expands poetry's range of activities Rosenfeld details a lost legacy of humanism that contributes to contemporary debates over literary studies singular but deeply ambivalent commitment to form Form she argues must be reexamined through the legacy of figure Reading poetry by Philip Sidney Edmund Spenser and Mary Wroth alongside pedagogical debates of the period and the emergence of empiricism with its signature commitment to the plain style Rosenfeld offers a robust account of the triumphs and embarrassments that attended the conspicuous display of artifice Drawing widely across the arts of rhetoric dialectic and poetics Indecorous Thinking offers a defense of the epistemological value of form not as a sign of the aesthetic but as the source of a particular kind of knowledge we might call poetic Humanism, Reform and the Reformation Brendan Bradshaw, Eamon Duffy, 1989-01-26 This book assembles ten special studies each devoted to an aspect of Fisher's multifaceted career or to exploring the intellectual and religious outlook of someone who was at the same time a moderniser a reformer and an opponent of the Reformation John Fisher's career provides an illuminating perspective on English religious and intellectual history in a crucial phase of development As a churchman he became the foremost preacher in England issuing a call to ecclesiastical reform and personal repentance that echoed the call of Savonarola at Florence At the same time he provides an early example of the pastoral bishop that was to become the ideal of both the Reformation and the Counter Reformation Finally in the crisis that paved the way for the English Reformation he became the leading defender of Queen Catherine against the divorce suit of Henry VIII He was among the small band who were executed in 1535 as conscientious objectors to the oaths of Succession and Royal Ecclesiastical Supremacy He has been venerated as a Catholic martyr ever since *La Famille 13 dans l'évangile de Marc* Didier Lafleur, 2012-11-13 As a first order witness of the Greek New Testament Family 13 has a long history in the field of textual criticism Nearly seventy years after Kirsopp and Silva Lake's publication *La Famille 13 dans l'évangile de Marc* offers an enlarged wholly up to date and thoroughly revised study of the text of the Gospel of Mark for the witnesses considered as family members by Didier Lafleur His extensive survey includes the history of the discovery of the manuscripts their codicological description and new research on the text The most part of the book is devoted to the edition of minuscule 788 Athens Nat Lib 74 considered by the author as the nearest member to the

archetype of the group f 13 Based on quite new collations for the all extant manuscripts the edition provides a positive apparatus Considered as the first order of the New Testament Greek the Family 13 is deeply rooted in the history of the criticism Sixty years after the publication of Kirsopp and Silva Lake the Family 13 in the Gospel of Mark offers a panoramic exhaustive view of the text of this Gospel for the first time considered by Didier Lafleur as members of this group f 13 Son tude englobe la mise en lumi re des manuscrits leur description codicologique et de nouvelles recherches philologiques L auteur dit le texte du minuscule 788 Ath nes Bibl nat 74 qu il consid re comme le t moins le plus proche de l arch type de la famille Collation s nouveaux frais pour le texte de Marc tous les manuscrits de la Famille 13 apparaissent ici pour la premi re fois dans une dition critique

Error and the Academic Self Seth Lerer, 2003-03-17 How and why did the academic style of writing with its emphasis on criticism and correctness develop Seth Lerer suggests that the answer lies in medieval and Renaissance philology and more specifically in mistakes For Lerer erring is not simply being wrong but being errant and this book illuminates the wanderings of exiles migr s dissenters and the socially estranged as they helped form the modern university disciplines of philology and rhetoric literary criticism and literary theory Examining a diverse group that includes Thomas More Stephen Greenblatt George Hickes Seamus Heaney George Eliot and Paul de Man Error and the Academic Self argues that this critical abstraction from society and retreat into ivory towers allowed estranged individuals to gain both a sense of private worth and the public legitimacy of a professional identity

Modern Thinkers on Education this book provides a unique reference guide for all students of education **"Matter of Glorious Trial"** N. K. Sugimura, 2009-01-01 This groundbreaking book the first to examine Milton's thinking about matter and substance throughout his entire poetic career seeks to alter the prevailing critical view that Milton was a monist materialist one who believes that all things are composed of material and all phenomena including consciousness are the result of material interactions Based on her close study of the philosophical movements of Milton's mind Sugimura discovers the fluid intermediaries in his poetry that are neither strictly material nor immaterial In doing so Sugimura uses Paradise Lost as a fascinating window into the intersection of literature and philosophy and of literary studies and intellectual history Sugimura finds that Milton displays a tense and ambiguous relationship with the idealistic dualism of Plato and the materialism of Aristotle and she argues for a more nuanced interpretation of Milton's metaphysics
