Eric Rohmer:

Eric Rohmer Derek Schilling, 2019-01-04 Few filmmakers have taken the principle of the talking picture so far as Eric Rohmer the internationally renowned director of the Moral Tales Comedies and Proverbs and Tales of the Four Seasons cycles Occasionally dismissed as precious or overly literary Rohmer's features may leave the impression that there is more to listen to than to look at Yet as the secretive director b Maurice Scherer in 1920 points out dialogue is no less engaging than the best gunfights and if his characters prefer discussing love to making it they are no less the heroes of the stories they tell Charges of political conservatism aside the author of My Night at Maud's Summer and such period films as Perceval and the all digital The Lady and the Duke emerges like Hitchcock before him as a singular inventor of cinematic forms This critical overview which contains an extensive bibliography and a filmography will appeal to students of Film Studies French Studies and enthusiasts *Eric Rohmer* Fiona Handyside, 2013-01-17 The 1969 film *Ma Nuit chez Maud* catapulted its shy academic film director Eric Rohmer 1920 2010 into the limelight selling over a million tickets in France and earning a nomination for an Academy Award *Ma Nuit chez Maud* remains his most famous film the highlight of an impressive range of films examining the sexual romantic and artistic mores of contemporary France the temptations of desire the small joys of everyday life and sometimes the vicissitudes of history and politics Yet Rohmer was almost fifty years old when *Maud* was released and had already had a career as the editor of *Cahiers du Cinéma* a position he lost in a political takeover in 1963 The interviews in this book offer a range of insights into the theoretical critical and practical circumstances of Rohmer's remarkably coherent body of films but also allow Rohmer to act as his own critic providing us with an array of readings concerning his interest in setting season color and narrative Alongside the application of a theoretical rigor to his own films Rohmer's interviews also discuss directors as varied as Godard Carné Renoir and Hitchcock and the relations of film to painting architecture and music This book reproduces little known interviews such as a debate Rohmer undertakes with *Women and Film* concerning feminism alongside detailed discussions from *Cahiers* and *Positif* many produced in English here for the first time **Eric Rohmer** K. Tester, 2008-02-15 Since the 1950s Eric Rohmer has been one of the major presences in French cinema as critic and director This book is a sophisticated engagement with his work in which Keith Tester argues that Rohmer is not the naïve realist he is often claimed to be Instead his films are revealed as a sustained exercise in Catholic theology **The Films of Eric Rohmer** L. Anderst, 2014-03-13 Eric Rohmer was a key figure in French New Wave cinema Contributors to this volume revisit complicate and upend accepted readings and interpretations of perennial Rohmerian topics including the important role of language in his films the influence of the arts depictions of gender and class and the roles played by space and place in his films **Eric Rohmer** Vittorio Hösle, 2016-07-28 Rohmer is one of the most popular French directors of the second half of the 20th century one of the members of the famous *Nouvelle Vague* that reconstituted French cinema based on the theoretical principles articulated in the *Cahiers du Cinéma* from whose editorship he was fired when the conservative

Catholic opposed its turn toward politicization Like some of his colleagues Rohmer is extremely interested in both the history and the philosophy of film Brother of the noted French philosopher Ren Scherer he begins his career as a film critic In his films deep moral conflicts as well as the search for one's own identity emerge from the intricacies of seemingly superficial everyday life interactions particularly between a man and a woman His book puts Rohmer in the context of a long French tradition of reflected eroticism with Marivaux Musset Stendhal and Jean Renoir as crucial figures and shows how Rohmer both recognizes the inner logic of eroticism and subjects it to moral demands that he inherits from his Catholic background For Rohmer the tension between the two can usually only be solved by some unexpected event that can be interpreted as an equivalent of grace

Eric Rohmer, Realist and Moralist C. G. Crisp, 1988 Here for the first time in English is a comprehensive analysis of Eric Rohmer's

work Rohmer an enormously influential figure in shaping postwar realist film theory and later in the development of the French New Wave has been largely ignored in film studies while others of the New Wave movements such as Truffaut and Godard have received considerable attention In Eric Rohmer Realist and Moralism Crisp thoroughly examines Rohmer's films performing structuralist psychoanalytical and ideological analyses of each He further evaluates the connections between these films and Rohmer's realist film theory Finally Crisp's impressive study situates Rohmer's work ideologically within the historical context of French cinema after World War II and gives due recognition to the achievements of this director within the realms of film theory and filmmaking Eric Rohmer Paolo Marocco,1997 **The Bressonians** Codruța

Morari,2017-07-01 How should we understand film authorship in an era when the idea of the solitary and sovereign auteur has come under attack with critics proclaiming the death of the author and the end of cinema The Bressonians provides an answer in the form of a strikingly original study of Bresson and his influence on the work of filmmakers Jean Eustache and Maurice Pialat Extending the discourse of authorship beyond the idea of a singular visionary it explores how the imperatives of excellence function within cinema's pluralistic community Bresson's example offered both an artistic legacy and a creative burden within which filmmakers reckoned in different often arduous and altogether compelling ways *Interviews with Eric*

Angela Dalle Vacche,1996 The visual image is the common denominator of cinema and painting and indeed many filmmakers have used the imagery of paintings to shape or enrich the meaning of their films In this discerning new approach to cinema studies Angela Dalle Vacche discusses how the use of pictorial sources in film enables eight filmmakers to comment on the interplay between the arts on the dialectic of word and image on the relationship between artistic creativity and sexual difference and on the tension between tradition and modernity Specifically Dalle Vacche explores Jean Luc Godard's iconophobia Pierrot Le Fou and Andrei Tarkovsky's iconophilia Andrei Rublev Kenji Mizoguchi's split allegiances between East and West Five Women around Utamaro Michelangelo Antonioni's melodramatic sensibility Red Desert Eric Rohmer's project to convey interiority through images The Marquise of O F W Murnau's debt to Romantic landscape painting
