Eric Williams The Man And The Leader:

Eric Williams, the Man and the Leader Ken I. Boodhoo, 1986 *Eric Williams, the Man and the Leader* Ken I. Boodhoo, 1986 *Eric Williams the Man, His Ideas, and His Politics* Ramesh Deosaran, 1981 **Eric Williams and the Making of the Modern Caribbean** Colin A. Palmer, 2006 Colin Palmer presents a guide to understanding the influential West Indian scholar and politician Eric Williams *Endless Education* Carl C. Campbell, 1997 *Endless Education* is the first comprehensive study of education in Trinidad and Tobago during the long thirty year regime of the People's National Movement PNM from 1956 to 1986 Carl Campbell focuses on the efforts by Williams and the PNM to use education as an instrument of postcolonial nation building and the consequent tensions and conflicts between him and the churches between creoles and Indians and between Tobago and Trinidad His study concludes that the goal of national integration through education eluded the planners and that diversity not unity characterized the education system Significantly Campbell finds that as in many other facets of national life only partial and incomplete decolonization was attained in education This study is useful as a source book in schools colleges and at the University of the West Indies Readers who reside outside of the Caribbean and who want to know more about the social history of one of the most important English speaking Caribbean islands should find this book of more than passing interest This is the companion volume to Campbell's *The Young Colonials A Social History of Education in Trinidad and Tobago 1834-1939* The University of the West Indies Press 1996 **The Engaged Historian** Stefan Berger, 2019-04-01 On the surface historical scholarship might seem thoroughly incompatible with political engagement the ideal historian many imagine is a disinterested observer focused exclusively on the past In truth however political action and historical research have been deeply intertwined for as long as the historical profession has existed In this insightful collection practicing historians analyze reflect on and share their experiences of this complex relationship From the influence of historical scholarship on world political leaders to the present day participation of researchers in post conflict societies and the Occupy movement these studies afford distinctive humane and stimulating views on historical practice and practitioners *The Legacy of Eric Williams* Tanya L. Shields, 2015-06-02 *The Legacy of Eric Williams* provides an indispensable and significant understanding of Eric Williams's contributions to the now independent nation of Trinidad and Tobago and his impact on the broader international understanding of the Caribbean This book stands out because of its simultaneous investigation into Eric Williams as a scholar intellectual a political leader and most importantly a key postcolonial figure Most previous studies have treated these as separate arenas The essays here confront the relevance of postcolonialism in understanding Williams's role both in post independence Trinidad and Tobago and in newer understandings of Caribbean globalization The volume divides into three broad sections *Becoming Eric Williams* *Political Williams* and *Textual Williams* *Becoming Eric Williams* provides background on Williams and the Caribbean's ontological quest addressing what it means to be West Indian and Caribbean *Political Williams* engages with his policies

and their consequences describing the impact of Williams's political policies on several areas integration color stratification and labor and public sector reform Williams's far reaching political influence in these aspects cements his legacy as one of the main public intellectuals responsible for creating the modern Caribbean Textual Williams examines his scholarly contributions from a more traditional academic perspective These sections allow for a comprehensive understanding of Williams as a man a scholar and a politician

The Quest for Security in the Caribbean Ivelaw L. Griffith, 2015-06-11 This comprehensive work on security in the English speaking Caribbean offers a wealth of information about the history politics economics and geography of the entire region The author examines security problems in the region as a geopolitical unit not on a selective case study basis as is usually done He assesses Caribbean security within a theoretical framework where four factors are critical perceptions of the political elites capabilities of the states the geopolitics of the area and the ideological orientations of the parties in power Political and economic issues are judged to be as relevant to security as military factors The author identifies safeguards which countries in the region may take in the coming decade

King of the Mountain Arnold M. Ludwig, 2002-01-01 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too from the book *King of the Mountain* presents the startling findings of Arnold M Ludwig's eighteen year investigation into why people want to rule The answer may seem obvious power privilege and perks but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable trust nobody feel besieged and face almost certain death Ludwig's results

suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power govern and rule Profiling every ruler of a recognized country in the twentieth century over 1 900 people in all Ludwig establishes how rulers came to power how they lost power the dangers they faced and the odds of their being assassinated committing suicide or dying a natural death Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available he compares six different kinds of leaders examining their characteristics their childhoods and their mental stability or instability to identify the main predictors of later political success Ludwig s penetrating observations though presented in a lighthearted and entertaining way offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace

The Caribbean Integration Process

Kenneth O. Hall, Myrtle Chuck-A-Sang, 2007 Ever since the collapse of the West Indies Federation in 1958 debate has raged on the subject of regional integration In this collection the contributors illustrate that Caribbean people s similarities far outweigh any drawbacks from their diversity The survival and success of regional institutions in health social services youth empowerment education and agriculture among others have served to create a common bond of understanding and appreciation of the oneness of the Caribbean people While the regional integration movement is primarily an institutional activity its success will depend largely on the impact on the people of the region by these institutions The contributors argue that an approach which puts people at the centre of development is necessary for the construction and effective functioning of the CARICOM Single Market and Economy the linchpin of Caribbean survival in the new globalized dispensation

Black Leaders and Ideologies in the South Preston King, Walter Earl Fluker, 2013-09-13 A new collection of philosophical biographies of key figures in Black Southern American social and political thought Frederick Douglass Booker Washington and Ida Wells Thurgood Marshall and Martin King are focused upon together with Howard Thurman Richard Wright Fred Gray and Barbara Jordan All are important in various ways to the movements this book seeks out From the perspective of liberation the two high points in the African American Odyssey are marked by Emancipation in the nineteenth century and Desegregation in the twentieth Douglass bestriding the first King and Marshall the second The thread of resistance runs through most of these philosophical profiles and the thread of non violence with greater or less force also runs throughout This volume assumes a distinction between a an earlier period when Afro America was more cohesive and collectively committed to self improvement despite the odds and b the contemporary period beyond desegregation marked by rates never previously rivaled of suicide joblessness imprisonment despair and alienation especially among black poor The life stories and philosophies presented here make fascinating reading This book is a Special Issue of the leading journal Critical Review of International Social and Political Philosophy

The Petro-state Masquerade Ryan Cecil Jobson,2024-12-04 A historical and ethnographic study of the fraught relationship between fossil

fuels and political power in Trinidad and Tobago Examining the past present and future of Trinidad and Tobago's oil and gas industries anthropologist Ryan Cecil Jobson traces how a model of governance fashioned during prior oil booms is imperiled by declining fossil fuel production and a loss of state control Despite the twin island nation's increasingly volatile and vulnerable financial condition however government officials continue to promote it as a land of inexhaustible resources and potentially limitless profits The result is what Jobson calls a masquerade of permanence whereby Trinbagonian state actors represent the nation as an interminable reserve of hydrocarbons primed for multinational investment In *The Petro state Masquerade* Jobson examines the gulf between this narrative crafted by the postcolonial state and the vexed realities of its dwindling petroleum fueled aspirations After more than a century of commercial oil production Trinidad and Tobago instructs us to regard the petro state as less a permanent form than a fragile relation between fossil fuels and sovereign authority Foregrounding the concurrent masquerades of oil workers activists and Carnival revelers Jobson argues that the promise of decolonization lies in the disarticulation of natural resources capital and political power by ordinary people in the Caribbean
