The rivalry between the United States and the Soviet Union intensified as Dwight D Eisenhower entered the White House. However, the burning question for the vast majority of the world's population was not whether they would join the Free World or the Soviet bloc but whether they could achieve meaningful self-determination. Nowhere did the answer to that question loom larger than in Africa. The Eisenhower administration's confrontation with Africa demonstrates the significance of race in the creation and execution of American foreign policy. In this new work, historian George White Jr explores the ways in which Eisenhower diplomacy, influenced by America's racialized fantasies, fears, and desires, turned the Cold War into a global sanctuary for the rehabilitation of Whiteness. In turn, American statesmen and bureaucrats justified the undermining of democracy and freedom by stuffing the multi-faceted realities of African aspirations and Western privileges into the straitjacket of a bi-polar worldview. Using as its foundation American relations with Ethiopia, Ghana, South Africa, and the Congo, *Holding the Line* demonstrates the power of race to warp perception and to severely limit the parameters and possibilities of human engagement. *Holding the Line* provides a fresh perspective on 1950s era U.S. foreign relations that remain salient in American diplomacy today. This is a book that will be of interest to students of American diplomatic history, Critical Race and Whiteness studies, American studies, and international relations.

Traditional Institutions in Contemporary African Governance Kidane Mengisteab, Gerard Hagg, 2017-06-26. Most African economies range from moderately advanced capitalist systems with modern banks and stock markets to peasant and pastoral subsistent systems. Most African countries are also characterized by parallel institutions of governance: one is the state-sanctioned formal system, and the other is the traditional system which is adhered to primarily but not exclusively by the segments of the population in the subsistence peasant and pastoral economic systems. *Traditional Institutions in Contemporary African Governance* examines critical issues that are largely neglected in the literature, including why traditional institutions have remained entrenched, what the socioeconomic implications of fragmented institutional systems are, and whether they facilitate or impede democratization. The contributors investigate the organizational structure of traditional leadership, the level of adherence of the traditional systems, how dispute resolution, decision-making, and resource allocation are conducted in the traditional system, gender relations in the traditional system, and how the traditional institutions interact with the formal institutions. Filling a conspicuous gap in the literature on African governance, this book will be of great interest to policy makers as well as students and scholars of African politics, political economy, and democratization.

Encyclopedia of African Colonial Conflicts Timothy J. Stapleton, 2016-11-07. Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo, Nigeria, Somalia, and Sudan continue to experience ethnic political and religious violence in the early 21st century. This sweeping study examines the wars of colonial conquest fought in Africa during the 19th and early 20th centuries. From Britain's efforts to wrest control of the Sudan from military leader Muhammad Ahmad al Mahdi to Italy's decisive defeat at the Battle of Adowa in Ethiopia to Leopold II's brutal reign over the

Belgian Congo the work surveys the devastation reaped upon the continent by colonization and illustrates how its combative influence continues to resonate in Africa today Written by scholars in the fields of history and politics this complete reference includes entries on wars campaigns rebellions battles leaders and organizations The work delves into key historical periods including the Scramble for Africa ca 1880 to 1910 early European colonial wars in Africa such as the Dutch in the Cape and the Portuguese in Angola and Mozambique and African rebellions against the early colonial state in the 1890s and early 1900s Entries feature prominent events and personalities as well as lesser known occurrences and players

The Libyan Arena Scott L. Bills,1995 This text examines Anglo American plans for North African decolonization following World War II and focuses specifically on the events preceeding the UN discussions that led to the creation of the modern Libyan state It is based on archival sources from both America and Britain

A Stability-Seeking Power Jonathan Paquin,2010-07-01 By examining several cases of U S management of secessionist crises in the Balkans and Africa Jonathan Paquin shows that American foreign policy occasionally recognizes break away states if it believes that supporting them will help re establish regional stability Analyzing examples of such situations reveals that even though US policy apparently favours stable international borders Washington s primary concern is not to maintain the status quo but rather to seek stability An illuminating study of foreign policy A Stability Seeking Power will have broad implications for understanding U S involvement in international affairs and assessing the security concerns that secessionist conflicts raise

Rebel Power Peter Krause,2017-05-09 Many of the world s states from Algeria to Ireland to the United States are the result of robust national movements that achieved independence Many other national movements have failed in their attempts to achieve statehood including the Basques the Kurds and the Palestinians In Rebel Power Peter Krause offers a powerful new theory to explain this variation focusing on the internal balance of power among nationalist groups who cooperate with each other to establish a new state while simultaneously competing to lead it The most powerful groups push to achieve states while they are in position to rule them whereas weaker groups unlikely to gain the spoils of office are likely to become spoilers employing risky escalatory violence to forestall victory while they improve their position in the movement hierarchy Hegemonic movements with one dominant group are therefore more likely to achieve statehood than internally competitive fragmented movements due to their greater pursuit of victory and lesser use of

counterproductive violence Krause conducted years of fieldwork in government and nationalist group archives in the Middle East North Africa and Europe as well as more than 150 interviews with participants in the Palestinian Zionist Algerian and Irish national movements This research generated comparative longitudinal analyses of these four national movements involving 40 groups in 44 campaigns over a combined 140 years of struggle Krause identifies new turning points in the history of these movements and provides fresh explanations for their use of violent and nonviolent strategies as well as their numerous successes and failures Rebel Power is essential reading for understanding not only the history of national movements but also the causes and consequences of contentious collective action today from the Arab Spring to the civil wars and insurgencies in Syria Afghanistan Iraq and beyond

Self-Determination and Secession in Africa Redie Bereketeab, 2014-08-07 This book provides a unique comparative study of the major secessionist and self determination movements in post colonial Africa examining theory international law charters of the United Nations and the Organisation of African Unity OAU African Union s AU stance on the issue The book explores whether self determination and secessionism lead to peace stability development and democratisation in conflict ridden societies particularly looking at the outcomes in Eritrea and South Sudan The book covers all the major attempts at self determination and secession on the continent extensively analysing the geo political economic security and ideological factors that determine the outcome of the quest for self determination and secession It reveals the lack of inherent clarity in international law social science theories OAU AU Charter UN Charters and international conventions concerning the topic This is a major contribution to the field and highly relevant for researchers and postgraduate students in African Studies Development Studies African Politics and History and Anthropology

A History of Modern Africa Richard J. Reid, 2019-10-02 The new fully updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent s political economic and social history This thorough yet accessible text help readers to understand key concepts recognize significant themes and identify the processes that shaped the modern history of Africa Emphasis is placed on the consequences of colonial rule and the links between the precolonial and postcolonial eras Author Richard Reid a prominent scholar and historian on the subject argues that Africa s struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century the effects of which are still felt in the present day The new third edition offers substantial updates and revisions that consider recent events and historiography Greater emphasis is placed on African agency particularly during the colonial period and the importance of the long term militarization of African political culture Discussions of the postcolonial period have been updated to reflect recent developments including those in North Africa Adopting a long term approach to current African issues this text Explores the legacies of the nineteenth century and the colonial period in the context of the contemporary era Highlights the role of nineteenth century and long term internal dynamics in Africa s modern challenges Combines recent scholarship with concise and effective narrative Features maps

illustrations expanded references and comprehensive endnotes A History of Modern Africa 1800 to the Present 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses and for general readers with interest in modern African history and current affairs *Historical Sociology of State Formation in the Horn of Africa* Redie Bereketeab, 2023-03-28 This book analyses the historical sociology of state formation in the Horn of Africa It examines the genesis trajectories processes routes and consequences of the evolution of state formation Three analytical and explanatory models explain the process of state formation in the HOA proto state colonial and national liberation The models heuristically and innovatively provide understanding interpretation and analysis of state formation While the proto state model explicates an indigenous historical process of state formation the colonial model refers to an externally designed and imposed process of state formation The national liberation model concern state formation conducted under liberation movement and ideology The distinct significance of these models is that collectively they generate sufficient analysis of state formation They are also unique in that they have never been employed as aggregate analytical and explicative instruments to address the predicament of state formation in the Horn of Africa *A Box of Sand* Charles Stephenson, 2014-12-19 This is the first book in the English language to offer an analysis of a conflict that in so many ways raised the curtain on the Great War In September 1911 Italy declared war on the once mighty transcontinental Ottoman Empire but it was an Empire in decline The ambitious Italy decided to add to her growing African empire by attacking Ottoman ruled Tripolitania Libya The Italian action began the rapid fall of the Ottoman Empire which would end with its disintegration at the end of the First World War The day after Ottoman Turkey made peace with Italy in October 1912 the Balkan League attacked in the First Balkan War The Italo Ottoman War as a prelude to the unprecedented hostilities that would follow has so many firsts and pointers to the awful future the first three dimensional war with aerial reconnaissance and bombing and the first use of armored vehicles operating in concert with conventional ground and naval forces war fever whipped up by the Italian press military incompetence and stalemate lessons in how not to fight a guerrilla war mass death from disease and 10 000 more from reprisals and executions Thirty thousand men would die in a struggle for what may described as little more than a scatolone di sabbia a box of sand As acclaimed historian Charles Stephenson portrays in this ground breaking study if there is an exemplar of the futility of war this is it Apart from the loss of life and the huge cost to Italy much higher than was originally envisaged the main outcome was to halve the Libyan population through emigration famine and casualties The Italo Ottoman War was a conflict overshadowed by the Great War but one which in many ways presaged the horrors to come A Box of Sand will be of great interest to students of military history and those with an interest in the history of North Africa and the development of technology in war
