Ernst Ludwig Kirchner Ernst Ludwig Kirchner, 2010 Ernst Ludwig Kirchner painted city life as a joyous bustling pageant a sophisticated swirl of desiring bodies and colorful urbanity giving Germany an energetic iconography for the glory days of modernity One of the four founders of Die Brücke The Bridge Kirchner drew on German Renaissance art to conjure expressive exaggerations of face and posture and brought to landscape painting a city dweller's zest imbuing tranquil scenery with riotous energy Coinciding with a Kirchner retrospective at the Stedelijk Museum the first to be seen in Germany in 30 years this massive volume surveys the artist's several creative phases and genres It features the famous nudes made during the Die Brücke era his classic scenes of frenetic Berlin city life and Swiss mountainscapes from Davos along with lesser known canvases works on paper and sculpture With essays by renowned art historians this definitive monograph offers fresh perspective on the continued relevance of Kirchner Born in Bavaria Ernst Ludwig Kirchner 1880-1938 studied architecture in Dresden where he met the young painter Fritz Beyl With Beyl Karl Schmidt Rottluff and Erich Heckel Kirchner founded the group known as Die Brücke Casting aside the then prevalent academic style of painting Kirchner and his friends allied themselves with early Renaissance artists such as Albrecht Dürer Matthias Grünewald and Cranach the Elder and revived older media such as woodcut printing Kirchner briefly saw army service in the First World War but suffered a nervous breakdown and was discharged In the interbellum years Kirchner's reputation grew enormously until the Nazi regime branded his art degenerate in 1937 over 600 of his works were sold or destroyed In 1938 despairing of this destruction and the general political climate Kirchner committed suicide      **Ernst Ludwig Kirchner** Ernst Ludwig Kirchner, 1968      *Ernst Ludwig Kirchner - a Retrospective Exhibition* Donald E. scholarly work that offers the first full length reassessment in English of the importance of the Br cke group to German modernism specifically and to international modernism more generally It challenges interrogates and updates existing orthodoxies in the field of Br cke studies by deploying new research combined with innovative interpretative approaches This is an exciting volume of essays with an interlinking tripartite structure that charts the significance of this pioneering German avant garde group in relation to various critical themes namely cultural and material identity collectivity and selfhood as well as defamation and rehabilitation The book is unique in the field in that it seeks to excavate specific historical research relating to the activities of the Br cke as a bohemian yet nonetheless enterprising artists community and considers the contributions of the key members in relation to the dynamics of that group rather than simply on an individual basis It thoroughly explores the historiography of the Br cke artists reception throughout the turbulent history of the twentieth century up until the present day

**The Great War and the Death of God** Charles A. O'Connor,2014-04-07 A compelling analysis of how World War I spurred the rise of atheism and the subsequent effect on Western theology philosophy literature and art The catastrophic Great War left humanity in a world no longer trustworthy and reassuring but seemingly meaningless and indifferent Instead of redressing humanity s cosmic alienation postwar Western culture abandoned its concern for cosmic meaning lost its confidence in human reason and enabled the scientific worldview of neo Darwinian materialism to emerge and eventually dominate the Western mind According to the proponents of that worldview science is the only source of genuine truth nature is the product of a blind evolutionary process and reality at bottom is just physics and chemistry Thus God is dead and continued belief in a transcendentally purposeful universe is intellectually indefensible and either disingenuous or delusional By turning away from the eternal questions about the nature of reality Western culture effectively ceded unwarranted credibility and prominence to neo Darwinian materialism including its recently strident New Atheism O Connor revisits the 20th century s journey from Nietzsche s declaration of the death of God to the rise of materialism as the dominant worldview of western intelligentsia We live in a world that has largely expelled both mind and meaning from the citadels of serious intellectual pursuit and O Connor s book is a fascinating and scholarly expedition into the how and why of that troubling development Carter Phipps author of *Evolutionaries* I found this topic to be top rate The book is well researched and conceived nicely narrated and analyzed and an original body of inquiry into a
