In Starry Skies A. C. Gifford, New Zealand Astronomical Society, 192? **The Modern Myths** Philip Ball, 2021-05-01 With The Modern Myths brilliant science communicator Philip Ball spins a new yarn From novels and comic books to B movies it is an epic exploration of literature new media and technology the nature of storytelling and the making and meaning of our most important tales Myths are usually seen as stories from the depths of time fun and fantastical but no longer believed by anyone Yet as Philip Ball shows we are still writing them and still living them today From Robinson Crusoe and Frankenstein to Batman many stories written in the past few centuries are commonly perhaps glibly called modern myths But Ball argues that we should take that idea seriously Our stories of Dracula Dr Jekyll and Mr Hyde and Sherlock Holmes are doing the kind of cultural work that the ancient myths once did Through the medium of narratives that all of us know in their basic outline and which have no clear moral or resolution these modern myths explore some of our deepest fears dreams and anxieties We keep returning to these tales reinventing them endlessly for new uses But what are they really about and why do we need them What myths are still taking shape today And what makes a story become a modern myth In The Modern Myths Ball takes us on a wide ranging tour of our collective imagination asking what some of its most popular stories reveal about the nature of being human in the modern age
