

A Sensual Kiss

Lips sumptuous you have in a way quiet,
Excites me to consume them with a kiss
To give my heart a sensational riot
Of penchant wild, draws me into its abyss.
Within is stroked like the wind keen on trees,
Like the summer at its brightest in June;
Your tongue, rich like creamy soup made from peas,
My tongue rubs like fingers petting a prune.
Through the kiss is pleasure marked as crystal,

Our hearts grasping each other without bar.
Their heat flares as the bang of a pistol,
Flare rhythmic like erotic guitar.
Savouring you is tense felt so brooded,
Touch of the kiss is never concluded.

Changing Men ,1987 *Regenerating Romanticism* Melissa Bailes,2023-04-27 Within key texts of Romantic era aesthetics William Wordsworth S T Coleridge and other writers and theorists pointed to the poet naturalist and physician Erasmus Darwin as exemplifying a lack of originality and sensibility in the period s scientific literature the very qualities that such literature had actually sought to achieve The success of this strawman tactic in establishing Romantic era principles resulted in the historical devaluation of numerous other especially female imaginative authors creating misunderstandings about the aesthetic intentions of the period s scientific literature that continue to hinder and mislead scholars even today *Regenerating Romanticism* demonstrates that such strategies enabled some literary critics and arbiters of Romantic era aesthetics to portray literature and science as locked in competition with one another while also establishing standards for the literary canon that mirrored developing ideas of scientific or biological sexism and racism With this groundbreaking study Melissa Bailes renovates understandings of sensibility and its importance to the late eighteenth and early nineteenth century movement of scientific literature within genres such as poetry novels travel writing children s literature and literary criticism that obviously and technically engage with the natural sciences

Poetry Review Stephen Phillips,Galloway Kyle,1917 Volume 5, Tome III: Kierkegaard and the Renaissance and Modern Traditions - Literature, Drama and Music Jon Stewart,2016-12-05 The long period from the Renaissance to the nineteenth century supplied numerous sources for Kierkegaard s thought in any number of different fields The present rather heterogeneous volume covers the long period from the birth of Savonarola in 1452 through the beginning of the nineteenth century and into Kierkegaard s own time The Danish thinker read authors representing vastly different traditions and time periods Moreover he also read a diverse range of genres His interests concerned not just philosophy theology and literature but also drama and music The present volume consists of three tomes that are intended to cover Kierkegaard s sources in these different fields of thought Tome III covers the sources that are relevant for literature drama and music Kierkegaard was well read in the European literature of the seventeenth and eighteenth century He was captivated by the figure of Cervantes Don Quixote who is used as a model for humor and irony He also enjoyed French literature represented here by articles on Chateaubriand Lamartine and M rim e French dramatists were popular on the Danish stage and Kierkegaard demonstrated an interest in

among others Moli re and Scribe Although he never possessed strong English skills this did not prevent him from familiarizing himself with English literature primarily with the help of German translations While there is an established body of secondary material on Kierkegaard s relation to Shakespeare little has been said about his use of the Irish dramatist Sheridan It is obvious from among other things The Concept of Irony that Kierkegaard knew in detail the works of some of the main writers of the German Romantic movement However his use of the leading figures of the British Romantic movement Byron and Shelley remains largely unexplored terrain The classic Danish authors of the eighteenth century Holberg Wessel and Ewald were influential figures who prepared the way for the Golden Age of Danish poetry Kierkegaard constantly refers to their dramatic characters whom he often employs to illustrate a philosophical idea with a pregnant example or turn of phrase Finally while Kierkegaard is not an obvious name in musicology his analysis of Mozart s Don Giovanni shows that he had a keen interest in music on many different levels
