Chinese Kung Fu Guangxi Wang, 2012-03-09 An illustrated introduction to the history and development of kung fu a fascinating and popular branch of traditional Chinese culture *The Tatler* George Atherton Aitken, 1899 **Presidential Sex** Wesley O. Hagood, 1998 With profiles on Bill Clinton Thomas Jefferson FDR JFK Lyndon Johnson and Eisenhower this book describes the impact that freewheeling sexual behavior has had upon first families election campaigns political careers and the nation itself *Notes and Queries*, 1886 **Blackwood's Edinburgh Magazine**, 1891 *Notes and Queries: A Medium of Inter-Communication for Literary Men, Artists, Antiquaries, Genealogists, Etc*, 1880 **Fatherhood and Its Representations in Middle English Texts** Rachel E. Moss, 2013 The figure and role of the late medieval father is reappraised through a close reading of a range of documents from the period including both letters and romances Late medieval English society placed great weight on the practices of primogeniture patrilineal descent and patriarchal government and the significance of the father had cultural resonance beyond the rule of law Yet despite aburgeoning interest in both the family and gender the father has to date received little attention from medievalists This book takes an interdisciplinary approach to the analysis of the fictions of fatherhood the ideological constructs that underpinned late medieval conceptions of fathers and patriarchy Its focus on gentry and mercantile readers and writers also offers new insights into the literary culture of late medieval England by considering how texts were produced and received within gentry and bourgeois communities and demonstrates the ability of texts to not only reflect but also shape hegemonic norms and cultural anxieties Through close examination of late medieval letters and romances it shows how the father was the dominant figure not only of medieval domestic life but also of the medieval imagination Dr RACHEL E MOSS is a Lecturer in History at the University of Northampton Give Me Liberty! Gerry Spence, 1999-10-15 Here in this landmark personal work Gerry demonstrates how despite the democratic rhetoric we hear and believe we have become enslaved All of us are trapped by a complex web of corporate and governmental behemoths he calls the New Slave Master that today controls our airways

outsiders to the community and approached every suspect fully armed and ready to shoot The combination of unrelenting danger its accompanying stress and an abundance of firearms proved deadly Drawing from history geography cultural studies and trauma studies Page n uses the story of Pleasant Valley to demonstrate a new way of looking at the settlement of the West Writing in a vivid narrative style and employing rigorous scholarship he creatively explores the role of trauma in shaping the lives and decisions of the settlers in Pleasant Valley and offers new insight into the difficulties of survival in an isolated frontier community

Vision Impairment Michael Crossland, 2024-02-01 What is it like to go blind 350 million people around the world live with severe vision impairment ranging from those who can see a couple of letters on a sight chart to those who perceive no light at all In this book we meet some of them including artists poets scientists architects politicians broadcasters and musicians Together we discuss every stage of life with vision impairment from childhood and education to dating employment and ageing as well as the portrayal of blind people in literature and film the use of technology by people with vision impairment and the psychological effects of losing vision Vision Impairment also reviews the major causes of sight loss today and shows the effect of these diseases on visual function It surveys new and emerging treatments for serious eye diseases and explores what it is like to have vision restored after decades of being blind Based on Michael Crossland's extensive work in children's and adults' low vision clinics and his 20 years of research into vision impairment the book blends individual stories key research findings and the most recent scientific discoveries to present an informative yet optimistic overview of living with sight loss Praise for Vision Impairment The key strength of this book is how scientific concepts around ophthalmology vision science and sight loss are brought to life by letting patients explain what these concepts mean to them This is not a book that has been written about patients it has been written with them In this sense it is very much original and I enjoyed reading it tremendously
