Es posible concertar las políticas educativas? ,1995 *Los Condicionantes de la Calidad Educativa* Daniel Filmus,2003-04 **Políticas de reforma del sistema educativo en los noventa** Estela María Miranda,Silvia Senén González,Nora Z. Lamfri,2003 **La escuela y la (des)igualdad** Juan Casassus,2003 **Política educativa en América Latina** Carlos Ornelas,2020-11-18 Política educativa en América Latina reformas resistencia y persistencia retrata situaciones complejas de políticas y de cambio educativo en América Latina desde Argentina y Chile la parte más meridional del continente hasta México la más septentrional Los análisis recorren Brasil Perú Colombia Ecuador El Salvador y Cuba para concluir con un capítulo que analiza por qué los grandes sindicatos de docentes rechazan la mayoría de los intentos de reformas educativas En estas los maestros son objeto de críticas y al mismo tiempo el foco de las expectativas de progreso y mejor calidad educativa Los lectores encontrarán una variedad de temas políticos como la inclusión la equidad la privatización los usos del poder y la dialéctica entre las sugerencias de las organizaciones intergubernamentales y el rechazo de sus recomendaciones por parte de los actores políticos locales También encontrarán narrativas para aumentar la participación de la educación pública mejorar la calidad de vida de los docentes y poner en diálogo los sistemas educativos locales con el mundo global La política educativa en América Latina es un territorio en disputa entre grupos e instituciones Estas contiendas marcan la historia de la educación pública desde el establecimiento de los sistemas educativos hasta la actualidad Es previsible que proseguirán **Globalisation and Education Reforms** Joseph Zajda,2018-02-27 This book explores the interrelationship between ideology the state and education reforms placing it in a global context It examines some of the major education reforms and policy issues in a global culture particularly in light of recent shifts in quality and standards driven education and policy research The book critiques the neo liberal ideological imperatives of current education and policy reforms and illustrates the way the shifts in the relationship between the state and education policy affect current trends in education reforms and schooling globally With this as its focus the book's individual chapters highlight hand picked scholarly research on major discourses in the field of comparative education A compendium of the very latest thinking on the subject the book like the other volumes in the series offers a state of the art sourcebook for researchers practitioners and policymakers alike Not only do the chapters offer a timely overview of current issues affecting comparative education and education policy research in what is now a global educational culture they also outline future directions that education and policy reforms could take By doing so they provide a comprehensive picture of the intersecting and diverse discourses of globalisation and policy driven reforms in education Individual chapters critically assess the dominant discourses and debates on education and policy reforms Using diverse comparative education paradigms from critical theory to historical comparative research they address globalisation ideology and democracy and examine both the reasons for and outcomes of education reforms and policy change As such they provide an informed critique of models of quality and standards driven

education reforms that are informed by Western dominant ideologies and social values Los actores sociales y la educación, 1997-01-01 Educación para una sociedad más justa Daniel Filmus, Carina V. Kaplan, 2012-08-30 Análisis de debates y propuestas en torno a la Ley de Educación Nacional La historia de la educación en Argentina registra algunos hitos fundantes como la ley 1420 de educación universal obligatoria y gratuita de 1884 la reforma universitaria de 1918 la gratuidad de la enseñanza universitaria de 1949 En esa breve lista debe ser incluida sin dudas la Ley de Educación Nacional de 2006 Por su contenido por la forma en que fue discutida y aprobada por su perspectiva de futuro Porque como toda política de Estado la Ley de Educación Nacional no fue concebida para la coyuntura sino para perdurar pensada como complemento indispensable de un modelo de país productivo inclusivo e igualitario que demanda una política educativa que asegure al conjunto de la población el acceso a una formación de calidad Daniel Filmus y Carina Kaplan nos brindan el relato de un proceso inedito en la historia argentina desde la amplia y enriquecedora discusión desplegada por la comunidad educativa y el conjunto de la sociedad hasta la expresión de ese debate en el Congreso que culminó con la aprobación de la ley por amplia mayoría Educar para una sociedad más justa es insoslayable tanto para quienes se interesan por la problemática educativa como para todo apasionado por la política y los cambios sociales Unos y otros encontrarán aquí certeros análisis sobre el rol de los sistemas educativos sus vínculos con las transformaciones económicas y sociales además de una mirada integral sobre uno de los momentos de cambio más profundos en la historia del país Incluye textos de Amanda Isidori Juan Carlos Tedesco Adriana Puiggrós Silvina Gvirtz Blanca Osuna y Alberto Sileoni y un prólogo de Bernardo Kliksberg Gobernar la educación Axel Rivas, 2004 **Education in Latin America and the Caribbean** Hernando Gómez Buendía, 2001 Education Reforms and Teachers' Unions Denise Vaillant, 2005 This publication examines the situation of teachers unions in Latin America and their role in the implementation of recent education reforms It highlights the importance of collaboration between policy makers and unions and makes relevant recommendations While significant progress has been made in terms of educational coverage ensuring the quality of the education imparted remains a priority and depends largely on teachers more particularly on their knowledge methods and motivation A major concern of planners managers and decision makers is to establish a better understanding of teachers unions and to work with them as closely as possible The booklet describes how teachers unions in Latin America operate and discusses their foremost preoccupations as well as presenting some strategies to appease conflicts and potential solutions to current problems *The New Educational Pact* Juan Carlos Tedesco, 1997 The social changes occurring at present are so profound that we have to reformulate questions regarding the purposes of education writes the author After analysing the crisis in the traditional system this essay seeks to identify an educational alternative consistent with the reality of modern society *Segregación escolar en España* Rey Martínez, Fernando, 2020-02-01 Este libro analiza una verdad ignorada e incómoda las segregaciones escolares que existen en España Principalmente las de tipo socioeconómico las derivadas del origen étnico del alumnado las que se producen a consecuencia de

la discapacidad y las que gravitan en torno a la educación diferenciada para unos o segregada para otros por género La LOMLOE 2020 recientemente aprobada reconoce por primera vez la segregación escolar entre nosotros aunque sus soluciones probablemente no sean lo suficientemente audaces Pero más allá del abordaje de estos cuatro tipos de segregación educativa el libro se propone una depuración conceptual del concepto mismo de segregación No suele ser común relacionar las diferentes formas con que cursa este fenómeno lo que revela que quizá no haya un consenso suficiente sobre qué es la segregación escolar Para entender mejor su significado deben dialogar el Derecho la Pedagogía la Psicología y la Sociología de la educación pero finalmente debe traducirse en una categoría jurídica precisa Aquí se propone entender la segregación escolar como una lesión de dos derechos fundamentales el derecho a una educación inclusiva art 27 CE y el derecho a no sufrir discriminación por determinados motivos art 14 CE Desde este último punto de vista las segregaciones son discriminaciones sistémicas e institucionales que pueden ser directas e indirectas Nueva educación y democracia Domingo M. Rivarola, 2000 *Estado, políticas y universidades en un periodo de transición* Adrián Acosta Silva, 2000 Adrián Acosta Silva analiza algunas ideas y varios hallazgos empíricos en torno a la relación entre el Estado y las universidades públicas del país durante el periodo de 1989 a 1994 Por medio de testimonios directos e información cuidadosamente recopilada reconstruye juegos entre los actores registra sus múltiples interacciones revisa sus códigos de comportamiento y explica la construcción de las lealtades y prácticas Con este estudio comparativo el autor expone la relación existente entre las políticas educativas y los cambios institucionales lo que le permite indagar acerca del origen de esos cambios y discurrir respecto a su alcance y profundidad *Formas y reformas de la educación en América Latina* Marcela Gajardo, Jeffrey Puryear, 2003 *La política de privatización desmejora la calidad de la educación* Virgilio Araúz, 1998 Revista del Instituto Electoral del Estado de México, apuntes electorales, 2000 **Proclaiming Revolution** Merilee Serrill Grindle, Pilar Domingo, 2003 This volume the result of a conference organized by the Rockefeller Center for Latin American Studies of Harvard University and the Institute for Latin American Studies at the University of London presents new interpretations of the events in Bolivia of 1952 and compares them to social transformations in France Mexico Russia China and Cuba **La tiza**, 1998
