Politics and Society in Poland Frances Millard,2002-09-11 An examination of political social and economic development in Poland since the summer of 1989 with the main focus on democratization

Power and Governance in a Partially Globalized World Robert Keohane,2003-09-02 As one of the most innovative and influential thinkers in international relations for more than three decades Robert O Keohane s groundbreaking work in institutional theory has redefined our understanding of international political economy Consisting of a selection of his most recent essays this absorbing book address such core issues as interdependence institutions the development of international law globalization and global governance The essays are placed in historical and intellectual context by a substantial new introduction outlining the developments in Keohane s thought and in an original afterword the author offers a challenging interpretation of the September 11th attacks and their aftermath Undoubtedly this book is essential reading for anyone with an interest in international relations

**Globalization** John Glenn,2007 Rather than claim that there exists a common concept of globalization that all parties can agree to this book seeks to examine some of the conceptions and the way in which they render different interpretations of particular aspects of globalization The last two decades have witnessed an explosive proliferation of academic writings on the subject of globalization which has been accompanied by a high level of interest in the media and widespread usage of the term This has inevitably resulted in the meaning of the concept broadening to include a whole host of issues running the attendant risk of losing any conceptual focus it had John Glenn examines five issue areas affected by globalization the economy sovereignty civil society governance communication In so doing the book aims to articulate certain questions within each area which will allow for some judgment to be made concerning the differing perspectives on globalization Globalization will be of interest to students of international political economy and politics and international relations in general

**A Generational Divide?**

**Age-related Aspects of Political Transformation in Post-crisis Southern Europe** Emmanouil Tsatsanis,Marco Lisi,André Freire,2022-09-29 This book examines the political consequences of the economic crisis in Southern Europe from the perspective of a widening intergenerational divide It focuses on the cases of Greece Italy Portugal and Spain to fill the gap in the literature by examining various age related rifts in post crisis Southern Europe Public discussion about the economic crisis of the late 2000s to mid 2010s in Southern Europe often refers to its impact on the region s younger citizens but not enough attention has been given to the political consequences of the crisis on the young The comparative studies in the volume cover various thematic areas such as electoral behaviour political culture democratic values forms of political engagement and political representation The overarching questions that the book attempts to answer are a to what extent and in what areas can one talk about an emergent generational divide in the region and b has the experience of the economic crisis been profound enough for young South Europeans to create a new crisis political generation Many of the answers offered point to tangible effects of the crisis but mostly in the sense of accentuating dynamics that already existed The

chapters in this book were originally published as a special issue of South European Society and Politics      **Rethinking Peacekeeping, Gender Equality and Collective Security** G. Heathcote, D. Otto, 2014-09-01 This book examines how the Security Council has approached issues of gender equality since 2000 Written by academics activists and practitioners the book challenges the reader to consider how women's participation gender equality sexual violence and the prevalence of economic disadvantages might be addressed in post conflict communities      *The Weakness of Civil Society in Post-Communist Europe* Marc Morjé Howard, 2003-03-27 Over a decade has passed since the collapse of communism yet post communist citizens are still far less likely to join voluntary organizations than people from other countries Why do post communist citizens mistrust public organizations What explains this pattern of weak civil society And what does this mean for democracy in the region This engaging study addresses these questions with a provocative argument about the enduring impact of the communist experience on its countries and citizens Howard argues that the experience of mandatory participation in state controlled organizations and vibrant private networks during the communist period combined with the disappointment with post communist developments have left most citizens with a lasting aversion to public activities Howard analyzes the findings from over 30 democratic countries on the World Values Survey and also presents extensive and original evidence from his own research focused on Eastern Germany and Russia      **Digital Transformation of Business** Everlin Piccinini, 2016-08-26 History of corporations is replete with stories of fundamental organizational change in the face of breakthroughs in technology and significant economic changes Yet pervasive digitalization i e a socio technical process whereby digital technology capabilities are embedded into everyday artifacts and life altering everyday experiences and interactions brings about substantial changes in environmental conditions not seen before The fast paced unbounded ongoing and potentially disruptive nature of change in today's digitized world is fueled by the generativity of digital innovation forcing incumbents across industries to transform and adapt This cumulative dissertation presents five studies that provide a comprehensive understanding on the emerging phenomenon of digital transformation of business With the help of primary data collected from more than 40 industry experts as well as secondary data it aimed at explaining through a configurational perspective how in certain contextual conditions a combination of particular mechanisms may lead automotive manufacturing organizations to embark on a sustainable digital transformation of their business Overall the findings derive a holistic view of the investigated phenomenon indicating that it stems from socio technical developments in the macro meso and micro levels of business fostering incumbents to build new mechanisms that activate digital transformation capabilities to rapidly respond to such socio technical developments fundamentally altering their traditional business logics Nevertheless research on the phenomenon of digital transformation is in its infancy in both information systems and organizational science research therefore more in depth empirical accounts are still needed      **Living with the Weather** Piya Srinivasan , 2023-12-15 How does climate change intensify social cleavages in new configurations of knowledge and power How does development

respond to its own contradictions in such scenarios How do extreme weather events inform population movement and challenge existing definitions of borders and citizenship Who pays the heaviest price Living with the Weather addresses these pressing questions by highlighting and exploring the social economic political and spatial dimensions of climate disaster in South Asia Through empirical research reporting and documentation of the climate crisis in the countries of South Asia along with a deep dive into the Indian Sundarbans the book calls attention to the intermeshed predicaments the people of the subcontinent face while bearing the brunt of climate change In doing so it seeks to enrich our understanding of how climate change transforms everyday life It makes visible the effects of natural events the outcomes of political decisions how disaster and rehabilitation are interpreted by states how resistances are staged in the form of mobility and how dispossession and despair are embodied and articulated **The Routledge Handbook on Crime and International Migration** Sharon

Pickering,Julie Ham,2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field *Latin American Economic Outlook 2020 Digital Transformation for Building Back*

*Better* OECD,Economic Commission for Latin America and the Caribbean,CAF Development Bank of Latin America,European Commission,2020-09-24 The Latin American Economic Outlook LEO 2020 focuses on the role of digital transformation in helping to navigate through challenging times The Covid 19 pandemic is having a profound impact on socio economic conditions accentuating the already complex scenario faced by a region with significant structural weaknesses This unprecedented crisis comes at a time of high aspirations and reinforces the need to transform the very foundations of the development model in the region Political Science ,2011 **Europeanisation, Good Governance and Corruption in**

**the Public Sector** Digdem Soyaltin, 2017-07-06 Addressing the need for a nuanced and subtle set of circumstances and factors this book presents detailed and context sensitive empirical evidence by comparing differential institutional changes in Turkey's public sector with regard to the civil administration public finance management and public procurement and the influence wielded by the EU the IMF the World Bank the OECD and other external actors It shows that when the costs emanating from power struggles between politicians and bureaucrats are low and coordination between administrative stakeholders is high external actors have a greater role to play in this process "ECEG2016-Proceedings of 16th European Conference on e-Government ECEG 2016 " Mitja De Man, Tina Juki, 2016-06-02

**Social Transformations in India, Myanmar, and Thailand: Volume I** Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 This book focuses on the different challenges and opportunities for social transformation in India Myanmar and Thailand by centering communities and individuals as the main drivers of change In doing so it includes discussions on a wide array of issues including women's empowerment and political participation ethno religious tensions plurilingualism education reform community based healthcare climate change disaster management ecological systems and vulnerability reduction Two core foundations are introduced for ensuring broader transformations The first is the academic diplomacy project a framework for an engaged academic enquiry focusing on causative curative transformative and promotive factors The second is a community driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population As a whole the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders where the process of social transformation makes communities more interconnected interdependent multicultural and vital in building an inclusive society

**Globalization and Challenges to Building Peace** Ashok Swain, Ramses Amer, Joakim Öjendal, 2008 Although globalization creates new wealth and encourages technological innovations it has also failed to support and promote sustainable human development and thus can be accused of generating anguish and deprivation This has already resulted in growing civil unrest and in some cases contributed to armed conflicts in the developing world However peace and conflict research has hitherto somehow overlooked the influence of increasing globalization on the formation and management of such emerging conflicts This impressive edited volume asks the question what concrete measures exist which can be effective in addressing the causes of conflict and building peace in an increasingly interdependent world

*Business Operations: Global Integration for Firms* Venuste Habimana, 2018-05-30 This book describes the globalization evolution for firms in their internationalization of their business operations It provides necessary information about globalization contents which are all up across the various developed emerging and developing countries It presents analysis of choices made by leaders managers or decision making units within the companies while making business decisions for integrating their businesses across many nations The book outlines further related challenges to be faced

needed workforce characteristics and expected business environment to operate in      **Capitalism With Derivatives** D. Bryan, M. Rafferty, 2005-12-16 What are the links between things as diverse as the prices of pork bellies interest rates and corporate stock They are all being translated into risk and priced through the system of derivative markets Financial derivatives are now the largest form of financial transaction in the world and they are transforming in pervasive ways the lived experience of capitalist economies Financial derivatives are anchoring the global financial system and challenging the conventional understanding of ownership money and capital These challenges are examined in this book providing a significant reinterpretation of contemporary capitalism that will be of interest to both social scientists and conventional finance scholars      Natural Law and Religious Freedom J. Daryl Charles, 2017-07-20 Every successive generation finds fresh reasons for the study of natural law Current interest in the natural law may well be due to a pervasive moral pessimism in the Western cultural context and wider contemporary geopolitical challenges Those geopolitical challenges result from two significant and worrisome global developments unprecedented violent persecution of religious minorities on several continents and a growing climate of secular hostility toward religious faith in Western societies Natural Law and Religious Freedom aims to address what is relatively absent from the literature by demonstrating the importance of natural law ethics in both establishing and preserving basic human rights of which religious freedom has pride of place Probing contemporary challenges to natural law thinking that are both internal and external to religious faith and examining the character and constitution of natural law ethics Natural Law and Religious Freedom will be of interest to theologians ethicists and philosophers as well as policy analysts politicians and activists who are concerned to anchor religious freedom and human rights policy considerations in an enduring way      **The Children's Troupes and the Transformation of English Theater 1509-1608** Jeanne McCarthy, 2016-11-25 The Children's Troupes and the Transformation of English Theater 1509-1608 uncovers the role of the children's companies in transforming perceptions of authorship and publishing performance playing spaces patronage actor training and gender politics in the sixteenth century Jeanne McCarthy challenges entrenched narratives about popular playing in an era of revolutionary changes revealing the importance of the children's company tradition's connection with many early plays as well as to the spread of literacy classicism and literate ideals of drama plot textual fidelity characterization and acting in a still largely oral popular culture By addressing developments from the hyperliterate school tradition and integrating discussion of the children's troupes into the critical conversation around popular playing practices McCarthy offers a nuanced account of the play-centered literary performance tradition that came to define professional theater in this period Highlighting the significant role of the children's company tradition in sixteenth-century performance culture this volume offers a bold new narrative of the emergence of the London theater      **Building States and Markets** G. Özcan, 2016-04-30 The transition economies of Central Asia are faced with the most daunting challenge of modern capitalism the move from vassal pseudo states of the former Soviet Union to competitive nations This book is the first

to explore the first 15 years of economic emergence and assess the capabilities of these countries to transform their economies
