Stewart, 2025-02-18 Architect Sir Herbert Baker left an indelible mark on South Africa and much of the British Empire in the first half of the 20th century This is the first full biography from childhood and was written with full cooperation from his family and with access to his archive and private papers After a Victorian architectural apprenticeship in London Sir Herbert Baker went on to become the most prolific architect of his age in South Africa where he designed numerous public buildings churches schools and private houses including the Union Buildings St George's Cathedral and Groote Schuur Thereafter he worked in India Kenya and England where among many other projects he designed South Africa House He was an intimate friend of many fascinating men of his age including Cecil Rhodes T E Lawrence John Buchan and Jan Smuts Lavishly illustrated this biography offers a compelling picture of an architect whose buildings contribute greatly to South Africa's rich history **The Country House Revealed** Dan Cruickshank, 2012-07-31

Spanning the architectural history of the country house from the disarming Elizabethan charm of South Wraxall the classical rigour of Kinross in Scotland the majesty and ingenuity of Hawksmoor's Easton Neston the Palladian sweep of Wentworth Woodhouse with over 300 rooms and frontage of 600 feet the imperial exuberance of Clandeboye through to the ebullient vitality of Lutyens Marshcourt the stories of these houses tell the story of our nation All are the buildings of the greatest architectural interest each with a fascinating human story to tell and all remain private homes that are closed to the public But their owners have opened their doors and allowed Dan Cruickshank to roam the corridors and rummage in the cellars as he teases out the story of each house who built them the generations who lived in them and the families who lost them Along the way he has uncovered tales of excess and profligacy tragedy comedy power and ambition And as these intriguing narratives take shape Dan shows how the story of each house is inseparable from the social and economic history of Britain Each one is built as a wave of economic development crests or crumbles Each one's architecture and design is thus expressive of the aims strengths and frailties of those who built them Together they plot the psychological economic and social route map of our country's ruling class in a

rich new telling of our island story Cemeteries of the Great War by Sir Edwin Lutyens Jeroen Geurst, Sir Edwin Landseer Lutyens, 2010 The British architect Sir Edwin Lutyens 1869 1944 designed 140 cemeteries in the countryside of Flanders and northern France for soldiers killed in the First World War The cemeteries can be regarded as an imprint of the former battlefield on the map of Europe All are designed according to principles established beforehand based on the idea of a cathedral church or chapel in the open air and include uniform gravestones a War Stone and a Cross of Sacrifice Yet the difference in size alignment and provenance make them all unique variations on the themes in question The most memorable aspects are their meticulously chosen position in the landscape the varied selection of trees and other greenery and the architecture of the entrance and shelter buildings In an exhaustive landscape architectural analysis this opulently illustrated book charts the history of the designs and reveals the underlying principle of order and variation in the architecture All 140 cemeteries are fully documented with references to the places where they are to be found P 4 of cover **The Nirvana**
