

# 8 TIPS TO DEVELOP EFFECTIVE BUSINESS WRITING SKILLS

1

Minimise the possibility of anything you write being used against you or the company in a court of law.

Identify your objective before you begin to write your document.

2

3

Use the KISS principle – Keep It Short and Simple

Create an outline of your key points, then go back in and fill in the details and edit.

4

5

Be conscious of 'business speak'. These terms do not always translate well.

Be courteous and polite at all times. Use the correct salutations and closings for business correspondence.

6

7

Include contact information and the best time to reach you if the recipient has questions.

Proofread one last time prior to sending. Ensure objectives are clear and that the tone is what you wish to convey.

**Business English Writing** Mary G Lewis,2020-06-22 Everyone wants to know the who what when where why how how much immediately in the first sentence They need to make decisions When they read documents they want to know the important things immediately They want to know objectives means of measurement costs and returns on those investments

They want to see that information in the first sentences Good business writing is more about clear thinking than it is about writing style Writing can only be as good as the thinking that precedes it You must know what you want to say what your objective is in saying it and why it s important for your audience to read it Organizing a writing project is very similar to organizing a presentation The good writer is just as aware of his her audience as a good public speaker is After you have organized and outlined the subject of your memo report or letter you should have a clear idea of your main focus Focus in your business report or memo is your objective it is the why of why you are bothering to write at all Most business writing has its purpose buried There is no focus no goal no call for action and no desired end result If you do not provide the focus you force your reader to ask questions about your message which you should have answered before sitting down at your word processor Knowing your audience will help you to organize your material so that it has the best chance of being read and understood Put yourself in your reader s shoes listen and you will be better received
