L. Davis, 2005-08-01 The chapters in this volume illustrate how teachers are bringing creativity higher order thinking and meaningful learning activities into particular school settings despite pressures of standards and testing We chose the word wise for the title of this book and we use it frequently to describe the pedagogical practices we have identified The words powerful and ambitious are used as well The larger point as Keith C Barton makes in his chapter is that there is no necessary connection between content standards and high stakes tests on the one hand and low level rote instruction on the other He reminds us as Thornton 1991 and Wiggins 1987 previously have argued that teachers play a crucial role in mediating educational policy and their intentions and interpretations have at least as much influence on classroom practice as does the content of standards and high stakes tests Barton also asserts that this makes it all the more crucial to identify the wisdom of practice that enables teachers to engage students in powerful educational experiences *Social Studies for Social Justice* Rahima C. Wade, 2007-04-13 Dedication to social justice teaching is important yet putting one's ideals into practice in American schools is a challenging task This book goes beyond theory and idealism to fully explore the value and impact of implementing social action and social justice activities in the elementary school classroom Informed by the experiences of more than forty teachers across the country this thoughtful resource Examines how elementary teachers from inner cities to rural towns use the social studies curriculum to teach about and for social justice Focuses on how teaching social studies for social justice relates to standardized testing state curricula and the local challenges teachers face Offers classroom activities Reflection Exercises and Teaching Ideas to provide teachers with practical applications for the topics discussed Includes a list of children's literature books curricular materials and websites *E-Pedagogy for the Digital Age* Dr. P. C. Nagasubramani, Adult learners have more options for enrolling in postsecondary education than ever before and they are able to use their learning style preference in deciding which program best meets their needs For some of these students those programs are fully online and for others there is minimal use of technology As technology grows and become more integrated into individual lives the unique learning styles and preferences

of adults need to learn to be incorporated into instructional design Drawing on a regional sample of US colleges 545 adult learners in a graduate programs were surveyed about how to effectively build community in their online classes Results indicated some agreement with these instructional tools Mature adult learners however were found to have stronger agreement with strategies that included work outside of the formal online class These results suggest perhaps a greater comfort for adults in working in spaces where there is less likelihood of being judged or graded and that they might value relational work with other students in different ways than younger adults *Managing the Social Studies Curriculum* Kent Freeland,1994-10-28 To learn more about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com *Beyond Single Stories* Amy Allen,Anne Marie Kavanagh,Caitríona Ní Cassaithe,2024-02-01 Every social studies curriculum tells a story It is increasingly apparent that new stories are needed to guide us through the multiple and intersecting crises that have come to define our times This accessible volume supports student teachers teachers and teacher educators to engage critically with the stories that social studies curricula tell and neglect to tell particularly those that relate and contribute to the root causes of contemporary social and ecological injustices A balanced and inclusive curriculum necessitates a broad range of stories and perspectives not just the master narratives of dominant groups Incorporating a range of pedagogical approaches and spanning a diversity of themes from representations of Africa in Chinese textbooks to slavery and the American civil rights movement to refugees and the role of indigenous knowledge systems in addressing climate breakdown this volume includes and creatively engages with previously marginalized and silenced stories and perspectives Both practical and theoretical in its approach it seeks to provoke meaningfully support and inspire educators to incorporate alternative stories or counter narratives into their social studies teaching This unique volume is essential reading for student teachers teachers teacher educators as well as anyone interested in inspiring children and young people to be open minded critically engaged and empathetic agents of change committed to addressing realworld social and ecological injustices
